# LAMBERT'S LITHIATED HYDRANGEA!

RENAL ALTERNATIVE—ANTILITHIC.

The ascertained value of Hydrangea in Calculous Complaints and Abnormal Conditions of the Kidneys, through the earlier reports of Drs. Atlee, Horsley, Monkur, Butler and others, and the well-known utility of Lithia in diseases of the uric acid diathesis, at once justified the therapeutic claims of LAMBERT'S LITHIATED HYDRANGEA when first announced to the medical profession, whilst subsequent use and close clinical observation has caused it to be regarded by physicians generally as a very valuable Kidney Alternative and Antilithic agent in the treatment of

Urinary Calculus, Gout, Rheumatism, Cystitis,  
Diabetes, Hematuria, Bright's Disease,  
Albuminuria, and Vesical Irritations Generally.
