

SPECIAL NOTICE

A Natural

We have taken the exclusive distributing agency for Abilena. Before doing so we satisfied ourselves fally as to its medicinal vir-tues—by chemical analysis, by investigation of the source of sup-ply, and by clinical reports from physicians.

what it is.

ABILENA is a natural aperient. It is bottled and goes to the consumer just as it comes from the wells in Dickinson County, Kansas, U. S. A .- wells originally dug to afford water for domestic use. Its medicinal properties were discovered in 1897.

ABILENA has more cathartic salts in perfect solution than any other natural water in the world. Therapeutically it is the best of all waters of its class, because of its relatively small content of magnesium sulphate and its relatively large content of pure sodium sulphate.

ABILENA is a valuable agent in the treatment of constipation, acute or chronic; in all hepatic disorders in which the salines are indicated; in the acute infectious diseases which have their origin in the alimentary canal, and as an adjuvant in all chronic affections requiring a safe and sure eliminant.

ABILENA is not unpleasant to the palate. It does not nauseate. It does not produce griping.

ABILENA

Merits Your Confidence and Specification.
