

commendation of so excellent an authority, and like expressions since the time of Sims have been uttered by many of the best men in the medical profession. Hayden's Viburnum Compound has stood the test of time for twenty-six years and is the recognized standard viburnum product by which imitators would measure. In the treatment of *Dysmenorrhœa*, whether of congestive, neuralgic or membranous type, Hayden's Viburnum Compound acts most promptly and effectively. In *Menorrhagia*, where the flow is excessive as a result of any one of the several causes, it affords relief by imparting tone to the uterus and stimulating its contraction. Clinical evidence has conclusively proven that it is as effective as ergot without possessing the narcotic and dangerous properties of this drug. In *obstetrical cases* it is of particular service. It modifies the pangs of childbirth by its soothing effect upon the nervous system

and by its anti-spasmodic action upon the uterus, making it particularly serviceable in cases of rigid os.

On account of its reputation it is extensively imitated. Only when the original Hayden's Viburnum Compound is prescribed can you be assured of definite therapeutic results.

The forty-first annual meeting of the Canadian Medical Association will be held in Ottawa on the 9th, 10th and 11th of June, 1908, under the presidency of Dr. Fred. Montizambert, Director-General of Public Health. Members and others who intend to be present and take part in discussions or to contribute papers will kindly so inform the General Secretary, Dr. George Elliott, 203 Beverley St., Toronto, at their early convenience.

THIRTY-NINTH SESSION, 1907-1908

The Thirty-Ninth Session opened on Tuesday, September 3rd, 1907, and continues for the eight months following.

The College building is admirably suited for the purpose of medical teaching, and is in close proximity to the Victoria General Hospital, the City Alms House and Dalhousie College.

The recent enlargement and improvements at the Victoria General Hospital have increased the clinical facilities, which are now unsurpassed. Every student has ample opportunities for practical work.

The course has been carefully graded, so that the student's time is not wasted.

For further information and annual announcement, apply to—

L. M. SILVER, M. B.,

Registrar Halifax Medical College,

65 Morris St., Halifax.
