

- State, on certain principles and arrangements in order to facilitate the airworthiness and environmental certification, approval, or acceptance by the civil airworthiness authority of the importing Party of civil aeronautical products, including maintenance services, exchanged between the two States;
- b) to provide, to this end, for the development of procedures between the two airworthiness authorities;
 - c) to allow the Parties to adapt to the emerging trend toward multinational design, manufacture, maintenance, and interchange of civil aeronautical products, involving the common interests of the Parties concerning airworthiness and environmental certification;
 - d) to promote cooperation toward sustaining safety and environmental quality objectives.

ARTICLE 2

Definitions

For the purpose of this Agreement:

- a) "Additional Technical Conditions" means the terms notified by the importing Party for the approval of the type design of an aeronautical product or for the acceptance of an aeronautical product to account for differences between the Parties in:
 - (i) Adopted airworthiness and environmental standards;
 - (ii) Special conditions relating to novel or unusual features of the product design which are not covered by the adopted airworthiness and environmental standards;
 - (iii) application of exemptions or equivalent safety findings from the adopted airworthiness and environmental standards; (iv) maintenance requirements; and (v) mandatory airworthiness action taken to correct unsafe conditions.
- b) "Airworthiness Criteria" means criteria governing the design, performance, materials, workmanship, manufacture, maintenance or modification of civil aeronautical products as prescribed by
