Print your ICONDESK Aliases

Your ICONDESK aliases will not be migrated. To recreate your address lists after your workstation migration, you may wish to Print your ICONDESK aliases.

To print your ICONDESK aliases:

1. Load ICONDESK.
2. From the Options menu, choose Alias.
3. From the Alias window, click one Alias.
4. Click the View button.
5. Click Print.
6. Repeat steps 3 to 5 to print additional aliases.

Note: The Internet addresses contained in your ICONDESK aliases will be migrated and saved on your H: drive in a file called **alias.csv**. To import these addresses in Outlook 98, lookup **Import your ICONDESK Internet addresses** in this guide.

Netscape Bookmarks

After your workstation migration, your Netscape bookmarks will be available to you from a CD or your D drive. You will need to use the Windows NT Find feature in order to retrieve them. If you prefer saving your bookmarks file before the migration, save it to the H drive.

To save Netscape bookmarks to your H: drive before the migration:

1. Load Netscape.
2. From Netscape menu bar, click **Bookmarks / Go to Bookmarks**.
3. From the Bookmarks window, select **File / Save As** (the Save As dialogue box appears).
4. Select the **H:** drive.
5. Click on **Ok**. (If you want to save *bookmark.htm* under a new name replace *bookmark* with another name but keep *.htm* for the extension. Ex: *dfait.htm, mary.htm, john.htm*, etc)
