

Alberta Natural Gas Company

an amendment in general terms, or that it referred to the Pipe Lines Act. The amendment reads:

That Bill No. 7 be not now read a third time but that it be referred back to the standing committee on railways, canals and telegraph lines for the purpose of reconsidering the amending of the bill—

That, of course, is the bill now before the house, not the general act. That is the only interpretation I can place upon it, after reading the amendment the second time and giving it consideration. Then it goes on:

—so as to provide that any pipe line built by the proposed company—

That does not refer to pipe lines built by any other company. As I say, I have been giving this matter some consideration; and while it might be called a borderline case I would hesitate to withdraw it from the house. I think it would be better if the house were permitted to vote on the amendment.

The question is on the subamendment.

The house divided on the amendment to the amendment (Mr. Herridge) which was negatived on the following division:
