

**Fees**

- the initial fee for the FAC be set at a level which can be reasonably expected to cover costs
- the costs of the firearms control system be reviewed on a regular basis and the fees adjusted accordingly.

**Future Amendments****Registration**

- study the full range of possible approaches to the registration of unrestricted weapons, including both point-of-sale and other solutions, their costs and benefits and implementation strategies, in consultation with police, municipalities, experts on information management and provincial authorities;

**Controls on the Sale of Ammunition**

- review the options, including FAC or equivalent, for increasing controls on the sale of ammunition
