

Toronto Ry. at New High for Year—Mines Turn More Cheerful

WEATHER FAVORS SEEDING

Growing Reports Cause Another Sharp Break in Wheat and Corn.

CHICAGO, April 14.—Wheat broke $\frac{1}{2}$ cent today, and corn declined $\frac{1}{4}$ cent. The weather was so to 2 1/2 degrees lower, and growing reports cause another sharp break in wheat and corn. From the winter belt there was a repetition of the gloomy reports as to crop conditions. The depression of prices was followed by a sharp break in the wheat market, and by a view that there was a falling off in export demand. The range of the market was narrowed, and bears able agents are inclined to press matters.

Corn Heavily Sold.

Selling by commission houses but corn receipts were said to be made of large eastern lots, especially in July and August. The good weather was also an influence against prices. Oats weakened with other grains, being also affected by the fine weather at present and predicted.

A good demand for hard, largely from designers, and scattered buying for the soft account, caused early firmness in provisions. Selling by packers caused a considerable dip in values towards the close.

THE INFLUENCE OF A SAVINGS ACCOUNT

When you take in a few dollars or a few hundreds, deposit it at once in a Dominion Bank Savings Account and draw it out only as you need it. It is far easier to save if you do, for money in the Bank does not slip away like money in your pocket or at home. Besides it is earning interest all the time.
