### FIVE CENTS FOR GENERAL TRANSFER.

The World felt complimented yesterday morning when The Globe revived our plan of collecting five-cent fares on the civic lines and giving universal transfers by means of Toronto Railway company, and give lines to passengers. The Globe, however, failed to note the really strong point in our plan, which is the fact that all new business for the Toronto Railway company, as 20 per cent. of the electors on the voters list railway company, as 20 per cent. of the globe special way is very little advantage to the railway company, as 20 per cent. of the globe figures a loss to the city. The Globe figures a loss to the city. The Globe figures a loss to the city lines, but, as we pointed out on several occasions, out of the yellow seven the city would receive back four-fifths of a cent, which with the one-cent fare would be actually two-fifths of a cent, which with the one-cent fare would be actually two-fifths of a cent more for the city would a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back four-fifths of a cent more for the city would receive back fo The passenger would pay the extra fraction, but in the return would get his and its submission to the people cheap ticket, obviating his constant Finally on the eve of the election an

REASON AND COMMON SENSE. Ald. McBride repeated a statement on Thursday evening which he had made once before and, which we cor-

rected. A man who needs to be corrected twice for the same fault iswell, not so smart as he thinks he is He stated that The World was trying to assume that position of influence at the city hall from which The Telegram had been ousted, and he was going to fight any such attempt. We trust he will indeed fight any such stjempt. The World has distinctly and definitely repudiated the possession of such a design. We refuse to ask for ourselves what we would deny to others.
