

R. H. SMITH CO., LIMITED

— St. Catharines, Ont. —

We are the Sole Manufacturers of Saws
under the

Simond's Process

in the Dominion of Canada.

There is no process its equal for tempering circular saws. Other makers recognize this fact, as some of them, in order to sell their goods, claim to have the same process. All such Claims are FALSE, as the patentee in the U. S. and ourselves are the only firms in the world who use it.

INSERTED TOOTH SAWS

Notice the improved shank. We call particular attention to the swell which strengthens it at the weakest part and which gives it more wear than the old style.

Shanks made in usual gauges and to fit your saws now in use.

SHINGLE SAWS

The quality of the "Simonds" Shingle Saws is proven by the fact that the largest shingle and machine manufacturers in Canada are using them.

Run a "Simonds" and you will increase your output.

CROSS-CUT SAWS

THE NARROW "LEADER"

REFINED SILVER STEEL.

The Simond's temper and style of tooth make the "Leader" the fastest and easiest cutting saw manufactured.
