

- Fingers**, amputations of, lateral flaps, 61, 63
 methods, 61
 operations for, 58
 with removal of metacarpal bone, 65
 congenital contractions of, 87
 contraction of, 82, 87
 congenital, 87
 severe, 87
 deformities of, 87
 disarticulation of, by circular incision, 64
 dislocations of, reduction of, 69
 distal phalanx of, amputation at, 58
 difficulties and mistakes in amputation of, 59
 injuries of, 71
 joints of, excision, 68
 injury to, 73
 shape, 57
 phalanges of, excision, 68
 reunion of severed digits, 78
 second phalanx, amputation of, 59
 disarticulation at, 59
 severe injuries of, 71
 supernumerary, 78
 theca tunnel of, 57
 webbed, 79
 Agnew's operation for, 80
 Norton's operation for, 80
Finsen-light treatment of lupus, 388
Fistulas, congenital brachial, 646
Fits not belonging to traumatic epilepsy, trephining for, 280
Flail joints, prevention of, 151
Flaps, anterior and posterior, 142
 combined methods, 180
 in operations on fingers, 58
 in plastic operations, 489
 in restoration of nose, 445, 451
 lateral, 144
 amputation of leg by, 905
 methods of, by transfixion, 48
 in amputations, 48, 812
 in cleft palate, 516, 520
 osteoplastic, 315
 pedunculated, in injuries of the hand, 74
 value of, 74
 semilunar, 870
 skin, 178
 with pedicles in plastic operations on face, 490
Flexor longus pollicis, tuberculous infection of, 92
Food, solid, cause of failure of operation for cleft palate, 527
Foot, amputation of, Syme's, 930, 933
 deformities of, operative treatment of, 965
 flat-, 965
 operations for, 976
 gunshot injuries of, 940
 operations on, 930
 incisions in, 932, 934
 tenotomy of tendons about, 961
Furrows, De Vilbiss skull-cutting, 312
 Hoffmann's skull-cutting, 312
 Lane's skull-cutting, 312
Furrows-tourniquet, Lynn-Thoma, 932
 Thomas's, 807
Forearm, amputation of, 137
 anatomical points, 137
 by modified circular method, 140
 by transfixion flaps, 141
 circular division of muscles in, 136
 different methods, 137
 lateral flaps and, 139
 skin flaps in, 137
 gunshot wounds of, 176
 operations on, 126
Foreign bodies, extraction of, from air-passages, 607
 in brain, operative interference in, 281
 in cranium, 253, 281
 in ear, removal of, 330
 in nose, removal of, 454
 in oesophagus, removal of, 602, 608
 in upper air-passages, removal of, 602
Fractures, comminuted, of shoulder-joint, 223
 compound comminuted, amputation at shoulder-joint for, 196
 compound, complications of, 916
 of lower extremity, 914
 question of amputation in, 916
 dovetailing or mortising the fragments in, 921
 Dupuytren's, 923
 greenstick, 958, 960
 Gussenbauer's staple for, 921
 " gutter " of cranium, 256
 of condyles of humerus, 164
 of femur, 858
 of humerus, 225
 of olecranon, 162
 of patella, wiring of, 880
 of skull, trephining in, 250, 258
 Pott's, 921
 simple, indications for operative interference in, 919
 of lower extremity: operative treatment, 917
 spinal, 988, 995
 united, 925
 operation for, 925
 wiring long standing cases of, 164
Fragments, bony, protrusion of, in compound fractures, 915
Freezing by solid CO₂ in treatment of naevi, 401
 of rodent ulcer, 395
Frontal sinus cannula, Symonds', 415
Frontal sinuses, infective trouble after operations, 417
 operations on, 410
 diplopia after, 417
 disfigurement after, 417
 indications, 411, 414
 keloid scar following, 418
 persistence of disease after, 417
 of external sinus after, 418
 sequelae, 417
 surgical anatomy of, 410
Fulguration in rodent ulcer, 396
Furneaux-Jordan method of amputation of shoulder-joint, 209
Furuncles of external auditory meatus, 310
Galvanism, use of through introduced coiled wire in treatment of aneurysm, 726
