THE FASTEST GROWING TOWN IN CANADA TO-DAY IS WELLAND.

THE VILLAGE OF YESTERDAY THE CITY OF TO-MORROW

WELLAND is Canada's greatest manufacturing town. WELLAND will be in ten years Canada's greatest manufacturing city, not even excepting Toronto and

(1) Because WELLAND is the greatest railroad centre in Canada, with seven railroads-Toronto has six, Montreal six, and Winnipeg five.

(2) Because WELLAND has the cheapest electric power on the continent, viz., \$12.00 per horsepower, and less. Toronto pays \$18.50, and Buffalo \$25.00.

(3) Because WELLAND has deep water transportation, being on the great WELLAND CANAL. (4) Because WELLAND has natural gas at 30c per M. (5) Because no other town or city in all Canada has such

a combination of natural advantages to offer the Just think this over. If you are far-sighted enough toread the future, the above facts alone will tell you in plain English that WELLAND will before many days be a great

manufacturing centre like BIRMINGHAM is in England, or PITTSBURG is in the States. WELLAND has ten new factories which expect to need 5000 men this year. These men will need at least

2000 homes. They must have lots on which to build and outside capital to help them build homes. We have purchased a beautiful tract of land adjoining the factory district of WELLAND, with electric car

line, fresh water supply and drainage facilities close at hand, and have subdivided it into lots suitable for a workingman's high-class residential district. For the purpose of interesting investors, builders and

contractors who will directly or indirectly improve their property either now or later on, we take pleasure in offering for public subscription for a short time only at these prices, a few choice lots in WELLAND SOUTH at from \$130.00 per lot up.
We advise YOU (not your neighbor) to purchase as

many of these lots as you possibly can. In all our experience in the real estate business, we have never seen as safe an investment as this is, nor one which promised to double your money so quickly.

One hundred dollars invested now should bring you back \$200 inside of one year. Just figure this out and then go to the bank and draw

all the money you can spare and buy some WELLAND SOUTH lots.

Write, phone or call for further particulars.
