

YORK COUNTY AND SUBURBS

EAST END TRANSFER
MUNRO PARK SOLD

Syndicate Will Sub-Divide Property—Death of East Toronto Lady—Items.

TORONTO JUNCTION, April 18.—A large gang of men are at work on St. Clair-avenue laying a six-inch gasmain from Keele-street to Gunn's abattoir.

A meeting of the executive of the West York Liberal-Conservative Association is to be held at Wynn's Hall, Weston, on Saturday afternoon at 3 o'clock, to name a date for a general convention for the purpose of selecting a candidate for the riding.

Charles Devlin met with a painful accident this morning. While working on a sewer on Keele-street he struck his foot with a pick, inflicting a nasty wound.

Stapleton Caldecott, the father of Mrs. Smith, wife of Rev. Beverley Smith, died last night in Toronto.

The International Carman's Union gave a benefit concert in St. James' Hall to-night. It was largely patronized; the house was crowded to the doors. The Gaiety Band was in attendance and W. J. Wadsworth occupied the chair.

John Averdale had his right leg badly scalped at the Queen City Flour Mill yesterday. The injured man was employed as a fireman and the accident happened while fixing one of the valves on the boiler. Dr. Mervin attended the injured man, who lives on Dundas-street.

Yesterday afternoon an employee of the Ontario Paving Brick Co., named James Bowles, was injured by the giving away of a brick which he was taking down in that company's yards. Dr. MacNamara attended to his injuries, which, although painful, are not of a serious nature.

At a recent meeting of the Junior Shamrock III. Lacrosse Club, the following officers were elected: Hon. President, Mayor Baird; hon. vice-president, ex-Mayor Smith; president, H. Campbell; first vice-president, W. Wadsworth, jr.; second vice-president, A. Gilbert; secretary, J. L. Lightfoot; J. Johnson, C. Bennett, J. Todde. It was decided to enter a team in the Junior City League.

Building is still booming. The inspector has just issued the following permits: S. Wormsley, two brick houses and a store, cost \$2,200 each; William Siddall, a two-story brick and frame house on Laughton-avenue, cost \$800; S. H. Rowntree, a two-story brick dwelling on Dundas-street west, \$2,200; S. Howlett, two-story brick dwelling on Humberside-avenue, cost \$1,000; and William Hancock, two-story brick, to cost \$2,500.

East Toronto.
EAST TORONTO, April 18.—Preparations are now actively under way for the new and most modern store building about to be erected for Paterson Bros., on the site of their old structure at the corner of Danforth-avenue and Daves-road. The plans, now completed, show solid brick building, two stories in height and extending back 30 by 90 feet. There will be a basement the full size of the building, and the store and the dwelling house, which will form a part, will be lighted by gas and electrically and heated by steam.

The contract calls for the completion of the work by July 15, and the contractor, John Richardson, will put on a large force of workmen.

The York G. T. R. yards are a scene of great activity these days, as many of the 400 cars going out within 24 hours, while considerable local work is calling for the employment of a great many men. In the round-house some repairs are being made.

The Lady Foresters held another of their enjoyable box socials last night, which was well attended and yielded handsome returns.

The Wiling Workers of St. Saviour's

An Eye Opener

Are You Prepared

For your work in the garden? Have you spades, shovels, rakes, hoses, sprayers, garden shears, pruning knives, garden hose, lawn sprinklers, hoses, reels, nozzles, hose menders, hose couplings, spray pumps, etc.?

200 rolls 2-Ply Ready Roofing, complete, at \$1.60 per roll.
300 rolls Plain Building Paper, at 40 cents per roll.
500 rolls Tinned Building Paper, at 60 cents per roll.

L. A. DeLAPLANTE

Main and Gerrard Sts., East Toronto
Phone Beach 39

Church will meet in the vestry at 3 o'clock to-morrow (Friday).

C. T. Lyon, Dr. Walters and J. Carveth will leave in the early part of May for their annual fishing trip to North Bay.

The feeling with respect to the necessity for the opening up of the long-abandoned road, leading southerly from the York town line, is becoming daily more pronounced, and it is the intention of the residents interested to urge concerted action on the part of the Scarborough and York Township Councils to see that the very necessary work is undertaken at an early date. It is said that legal advice secured with regard to the matter establishes the fact that a government road, no matter how long closed, may be reopened at the will of the municipality so desiring. The closing of Munro Park will render the necessity for the road more apparent.

The several attempts so far made to come to some settlement of the apparent disparity between what the legislative committee and a committee of the council regard as a moderate electric light account remains unsettled, all efforts to the contrary notwithstanding.

The Rev. Mr. Bell, pastor Rev. Keith Presbyterian Church, has been confined to his room for a week through illness.

The town council will hold their adjourned meeting on Monday night, when, in addition to the Independent Telephone Co., the Bell Co., and the Automatic Co. are invited to be present and present their claims respecting a franchise. Other matters of interest will come up for consideration.

The proposed visit of Mayor Coatsworth, C. R. Smith and some members of the board of control (which, however, did not materialize), has caused a flutter of consternation thru the Balmy Beach district. For some little time the Beachers have been resting on their oars, in the belief that the battle for the exclusion of the railways was won, but Mayor Ross stated last night that the fight to keep the roads to the north of the Kingston-road would not be relaxed any further, nor would the vigilance committee disbanded until the matter was settled once and for all.

The death of Mrs. Andrew McMillan took place at her late residence at an early hour this morning, after long illness. Mrs. McMillan was 45 years of age and is survived by her husband and four children, two boys and two girls. The deceased lady was prominently identified with the work of Emmanuel Presbyterian Church, and the funeral will take place on Saturday afternoon at 3 o'clock, to Norway Cemetery.

The funeral of Percy Brown took place this afternoon to Mount Pleasant Cemetery.

There is a strong opposition in the town, more especially the southern wards, regarding the proposal to grant a license at the Amusement Park. While debarred from taking any official action, the mayor and council express themselves as diametrically opposed as a council.

Balmy Beach.
George A. Cass, acting for a wealthy company, has purchased the Munro estate, or all that stretch of woodland between Queen-street and the south end of the Kingston-road, on the north side of the city, and between Maple-avenue on the west and the York Township line on the east. This property has long been regarded as an ideal location for a city park, but the purchase of the Cass syndicate for private purposes forever precludes the hope of securing it for that purpose.

It is the intention of the company to sub-divide the property into building lots and to erect houses on the property. The restrictions on the property are of only a superior type of suburban residences. The map shows a lot at the present time is only 50 feet in width, will be widened to 66 feet, and will constitute the main thoroughfare from north to south.

The estate of D. M. Mann is in the hands of the executor, who is at the east end of the Munro property, and, like the latter, is beautifully wooded, and slopes gently to the lake.

Starved His Cattle.
Magistrate Ellis was called upon in the case of a courthouse yesterday morning to adjudicate upon a peculiar case, involving the sanity of a West York farmer named Edward Mortimer. Mortimer was arrested a week ago, and with ill-treating his cattle, some eight in number, by neglecting or refusing to feed them, reducing them to such a plight that, to use the officer's words, "You could spit thru them." Mortimer was released at that time and allowed to go to his home. Yesterday morning he appeared, having been examined in the meantime with regard to his sanity. His sister volunteering to take care of him at his home, in Weston, Mortimer was allowed to go.

North Toronto.
H. Duke and J. C. Rutherford, auditors, submitted their annual audit report at the council meeting last night. In it they complimented the treasurer for his careful bookkeeping, and the ready assistance rendered. The auditors recommended that separate accounts be opened and kept for both costs and maintenance of the town lighting. Heretofore this has been included in the water, fire and light account. They also deem it advisable that the treasurer of the school board should be duly authorized in writing as to payments to supplementary teachers, stating the length of such teacher's service and salary, so as to enable the auditors to verify such payments.

The receipts for the year from all sources were \$74,954.33; the disbursements leaving \$2.99 on hand. The receipts were made up as follows: Water and light, \$3631.05; town lights, \$500; fines and costs, \$25.40; licenses, \$29; interest on debentures, \$181.50; hall rents, \$24; arrears of taxes, \$58,621; roads and bridges, \$12.24; town lands, \$20; legislative grant, \$271; dog taxes, \$27.50; taxes 1905, \$2,577.00; and \$22,813.41, and the rest by the sale of different local improvement debentures. The liabilities amount to \$42,718.82; assets, local improvements, \$15,901.32; undry accounts, \$146.24; waterworks department, \$919.01; debenture accounts, \$13,294.46; unavailable assets, \$101,112.24; and the recommendations referred to proper committees.

Mayor Fisher and Councillor Brownlow opposed the laying of a four foot concrete sidewalk on the north side of Sherwood-avenue on the initiative, but supported the laying of a sidewalk on Poplar-avenue on the same plan. Councillor Brownlow also opposed the board of works recommendation of having the streets numbered, and caused the report to be referred back.

Petitions were received from ratepayers on the south side of Woodward-avenue for a five foot concrete sidewalk, and from the ratepayers on Roper-avenue for a four foot tar and gravel walk on the north side, and both petitions were referred to the proper committees.

The sacred concert held in the Zion Baptist Church last night was well attended. The feature of the evening was the rendering of the Easter service by the Centennial choir.

Councillor Sam Douglas went on a business trip to the North-west yesterday afternoon. He will be away for about four weeks.

Street Commissioner Walmsley is having some stone crossings laid across Yonge-street.

Councillor A. J. Brown returned yesterday from a business trip to New York.

Chester.
The wedding took place yesterday of Miss Clara Shales and William Atherton at the residence of the bride's sister, on Danforth-avenue. The bride was given away by her father, John H. Shales, and was attended by her sister, Ethel. The groomsmen was A. E. Slater. The ceremony took place in the drawing-room in the presence of forty guests. Rev. Frank Vipond, rector of St. Barnabas Church, to which both Mr. and Mrs. Atherton will reside on Logan-avenue.

Thornhill.
H. Fisher, D.D.G.M., of the Ancient Order of United Workmen, will visit the local lodge officially on Saturday evening.

REORGANIZING LA ROSE
PLANS NOW PERFECTED

Will Be Known as La Rose Mines Limited and Capital Increased to \$6,000,000.

It is announced that plans for the reorganization of the La Rose Mining Co. have been perfected and an order-in-council has been passed changing the name to "La Rose Mines, Limited," and increasing the capital to \$6,000,000 in shares of the par value of \$1 each.

This is one of the largest mining companies having equal assets ever incorporated in Ontario. The original company organized in 1894 was capitalized at \$400,000, nominal, since which time several hundred thousand dollars worth of the richest ores ever sent out of the Cobalt camp was shipped and marketed while development on a very extensive scale has been carried out the past year, and it is understood that the La Rose syndicate invested nearly \$2,000,000 in them in cash, including their purchase of a 50 per cent interest in the University mine last October on the basis of \$1,000,000.

Extensively developed. The La Rose mine has been carried out by far the most extensive development of any mine in the camp, having been in operation over three years and having sunk three levels in the cobalt shaft and having tested and proved this vein with a diamond drill to a depth of 38 feet in this shaft.

This vein, the course of which is northeast and southwest, has been drifted upon in both directions at the 400 foot level and the ore is so persistent and yields so great a quantity, if not quite twenty million dollars' worth is in sight ready for shipment. The ore is of the best quality, and is northeast and southwest, has been drifted upon in both directions at the 400 foot level and the ore is so persistent and yields so great a quantity, if not quite twenty million dollars' worth is in sight ready for shipment.

At the shaft-house level this vein has been extended a distance of over 400 feet, and the ore is of the best quality in every foot. This is known as the Macdonald tunnel. Altogether \$900,000 has been expended on the development upon this vein. The ore extraction from day to day shows as steady persistency in volume and value as the case in the surface workings.

But the most extraordinary exhibit upon this great property is the bonanza vein, which is a vein of clean white silver. This vein has been traced at least 600 feet in length and a tunnel was driven into the bluff to the east a distance of about 200 feet to a point near the east boundary of the local ore body, and the ore is so persistent and yields so great a quantity, if not quite twenty million dollars' worth is in sight ready for shipment.

The thorough, far-reaching and lasting effects of Dr. Chase's Kidney-Liver Pills are well illustrated in this case. In contrast with the doctor's failure to cure him, the result of the pills is a most gratifying one. Mr. Geo. Tyson, Westport, Leeds Co., Ont., writes: "For two years I was unable to get any relief from my back and could neither walk nor ride. I tried many treatments and the doctor put on a fly bluster, which only increased the suffering and did not do me the slightest good."

A friend told me about Dr. Chase's Kidney-Liver Pills, and had not completely cured. I have never had a lame back or kidney trouble since, and it has been the means of selling dozens of boxes of Dr. Chase's Kidney-Liver Pills. We are never without them at home, and think there is no medicine like them."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto.

**Back So Lame
Could Not Walk**

Doctor's Efforts Were in Vain, but Cure Came With the Use of Dr. Chase's Kidney-Liver Pills.

It is not always the doctor's fault when he tries to give temporary relief instead of lasting cure. Sometimes patients demand it.

The thorough, far-reaching and lasting effects of Dr. Chase's Kidney-Liver Pills are well illustrated in this case. In contrast with the doctor's failure to cure him, the result of the pills is a most gratifying one. Mr. Geo. Tyson, Westport, Leeds Co., Ont., writes: "For two years I was unable to get any relief from my back and could neither walk nor ride. CHAIN YOUR BIKE.
The detective department say that the bicycle thief is getting busy again.

Will Confer.
It was stated by Geo. Shipman, fourth international vice-president of the Leather and Horse Goods' Union last night, that the three Toronto firms have relinquished the attitude of conferring with the employees only as individuals and have agreed to meet union committee.

THE SIMPSON COMPANY, LIMITED

THE ROBERT H. H. FUDGE, PRESIDENT; J. WOOD, MANAGER
