which made possible a very strong showing. Weather conditions had but little influence as indications pointed to clearing and more favorable conditions in both winter and spring wheat belts. Railroad officials are very optimistic over the situation regarding the outcome of winter wheat harvest and expect an early and heavy movement to market. The latter is reasonable in view of the premiums being paid for cash wheat and the early rush will undoubtedly cause a shrinkage in values. The market opened easy, with a fair trade and September tas shown a downward tendency all day, but the July has advanced to 90c on a rather purgent demand from scattering shorts.

The merket on the whole has shown a disposition to seek a lower level and traders inclined to confine transactions to the distant options, We advise sales on bulges. Corn and Oats—The trade was somewhat lighter and of a profit-taking nature in the early trading, but the market held stealy, losing some of the advance is the late traling, but closing firm. We advise purchaises of both corn and oats on all weak spors.

Charles W. Gillett (J. Melady, Board of Trade Building) wired:

Wheat—Weather map showed rains everywhere and more predicted for tomorrow, with heavy frosts in Montana and generally lower temperature in the Northwest. The forecast was hardly favorable for growth or harvesting, Market started a little easief on better weather southwest and northwest, but held well after the first few minutes, owing to damage reports to both spring and winter wheat crops. The Armour houses sold July wheat early and I think a broker also sold for him. The market sets healthier now than it did earlier in the day and the floating wheat is all off the market. I am not buillish on these bulges, but July wheat acts congested and is not a month to be short of wheat.

Corn The expectation that there would be a hard squeeze in July corn has caused many receivers to raise their bids to the country in order to be prepared for emergencies, and a heavy movement is not important advance from these figures occurs.

Oats—Crop reports were not so good. We do not believe there will be a hard squeeze in July corn has caused movement of new oats at these prices as long as corn remains strong, and would advise buying oats on every degression.

Esther Harding Dies of Consumption -Lodge May Have to Relinquish Charter.

Toronto Junction, June 21. — F. N. Spencer of 260 Maria-street will be laid up for a couple of weeks as a result of falling off the roof of a new building on West Dundas-street, near St. John's Church, this morning. Spencer, who is a carpenter lately out from England, slipped and fell into the cellar, a distance of nearly 30 feet. He sustained some severe bruises, but strangely enough, no bones were broken. He was removed to his home, whire his injuries were attended to.

Another death from consumption occurred at the Hospital for Consumptives, on Weston-road, between Mount Dennis and Weston, in York Township last night, Miss Esther Harding, aged 29 years, of Heathcote, Grey County, were placed on the shot-riddled battleship with a Russian crew endeavoring continually to obstruct navigation of the prize and if possible to destroy it.

Part of the Russian crew was transferred to the Asahi and the Kasuga, but the remainder outnumbered the Japanese placed on board. Lieut. Nakagawa, in charge, at once ordered the Japanese with loaded rifles to stand over the Russian sailors, herded forward, and bluejackets were placed at other points to guard the ship.

When night came a Russian seamon dropped an anchor pin into the electric dynamo, wrecking it, and causing all the lights to be extinguished. Great excitement followed, in which the Russians opened the sea valves, causing

Miss Esther Harding, aged 29 years, of Heathcote, Grey County, passing away last night. The body was brought to Speers and Co.'s undertaking rooms, and will be sent to Thornbury for interment in the family burying grounds.

Members of the Duke of York Lodge of Loyal True Blue have been urgently requested to attend the meeting of the Duchess of York Lodge, L.T.B., to-morrow night, to decide whether to surrender the charter or retain it. Some members are of the opinion that by increasing the dues it will be easy to carry the business of the lodge, but the majority are in favor of amalgamating with the Duchess of York Lodge if the charter is to be retained.

ELEGATES' Day at Simpson's

[Visitors to Toronto are welcomed to the city and to this store, which extends to them all the possible courtesy that its willing staff and its modern building afford.]

To-morrow is Bargain Day at Simpson's and a good time to see the store in full activity. Our own citizens realize full well the points of excellence upon which the Good Will of this business is founded. For the information of visitors to the great Convention we give here however a few of the features which distinguish Simpson's from any other store in Canada:
