WHY STAY FAT?

YOU CAN REDUCE

The answer of most fat people is that it is too hard, too troublesome and too dangerous to force the weight down. However, in Marmola Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no deting or exercise, and have the added advantage of cheapness. A large case is sold by druggists at 75c. Or if preferable they can be obtained by sending price direct to the Marmola Company, 864 Woodward avenue, Detroit, Mich. Now that you know this, you have no excuse for being too fat, but can reduce two, three or four younds a week without fear of bad after-effects.

Would it not be well to begin with the league which we actually have in existence, the league of the Allies who have fought through this great war? Let us at the peace table see that real justice is done as among these Allies, and that while the sternest repearation is demanded from our foes for such horrors as those committed in Belgium, northern France, Armenia, and the winking of the Lustiania, nothing should be done in the spirit of mere vengeance. Then let us agree to extend the privileges of the league and the weak nations who would be entitled to the privileges of membership, but who would not be entitled to a guiding voice in the councils. Let each nation reserve to itself and for its own decision, and let it clearly set forth, questions which are non-justiciable.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

Coming Campaign

The Mighty Task Ahead!

An Insight into the Salvation Army's Relief Work amongst

A PPROXIMATELY 300,000 Canadian soldiers will arrive home within the next twelve months. Home! To some that word means joyful compensation for all they have gone through. To others, home will mean simply hardships in a new form-struggles to keep a roof overhead; to find a job; leaving a sick wife in bed, children unattended, while the daily bread is earned!

The Government is putting in operation its plans for repatriation, with pensions and employment bureaus, but notwithstanding all this and the work of other organizations, many practical problems remain to be coped with, calling for IMMEDIATE relief.

If YOU hear no cry for help, it is because help from the Salvation Army is never far away.

#### The Emergency Receiving Homes

Here are a soldier's wife and three children passing through the city. The train is delayed. The connection is missed. Where shall they go, for it is after midnight and zero weather. Imagine those children! The Salvation Army officer sees the distress, conducts them to the Emergency Receiving Home where a very small and plain but well-warmed suite of rooms with two beds is available for a few hours.

Such cases are typical, inasmuch as they call for IMMEDIATE action. People cannot be left to suffer while we investigate WHY these conditions occur. The Emergency Receiving Homes will be located in nearly all the larger centres of population, where the greatest distress usually occurs.

#### Maternity Homes

What chance has the wife of a discharged, jobless soldier to pay for maternity care, properly nourish her new baby, and care for her other children, if she has to be on her feet and working again in three days?

What a God-send for ner to be taken to a Salvation Army Maternity Home, with its own graduate nurses, operating rooms, staff of physicians, day and night nursery accommodation. Would you withhold help for such a cause?

#### Soldiers' Families Home Visitation

Few people realize the distress that goes on in their own city. A soldier at the front received word from the Salvation Army that his wife had died, and that, as no one had appeared to take care of the six children, the Salvation Army would look after them until his return. A few days later the father was killed. The

As far as it is humanly possible, the Salvation Army endeavors to keep the family unit intact. If the mother is sick, someone is needed to nurse her, look after the children, scrub floors, perhaps provide the very food that is eaten. No one is more willing to render these services than the Salvation Army visitor.

General Campaign, January 19 to 25 | London City Campaign, February 11 to 15 FIRST TO SERVE---LAST TO APPEAL

Because of its world record in peace and war, the Salvation Army enjoys the implicit confidence of the entire community. Government officials, business men, the returned soldiers, the working classes, and the churches of all denominations will unite for the success of this campaign.

> Your individual co-operation is asked on behalf of the Salvation Army. No man, woman or child in this country is willing to see one soldier or his family denied the bodily and spiritual comforts the Salvation Army can furnish.
