OF

THE UNIVERSITY OF TORONTO

(CORNER BLOOR AND SPADINA).

DAY SCHOOLS for BOYS

ELEMENTARY AND HIGH SCHOOL CLASSES.

New buildings with modern heating, lighting and ventilating.
Carefully selected staff of specialists.
Preparation for college, the professional schools or business.
For further information address or telephone College 5000.

THE HEADMASTER,

The University Schools,
University, Toronto.

UPPER and LOWER SCHOOLS. Complete Equipment. Large Athletic Fields. Boys prepared for the Universities, Royal Military College and Business. Careful oversight in the Classroom and on the Athletic Field.

Rev. Dr. Bruce MacDonald, M.A., LL.D., Headmaster.

Autumn Term Opens Sept. 13th 1910. Calendar sent on Application.

ST ANDREW'S COLLEGE
TORONTO, CANADA

Look at the *crimp* in the zinc of your washboard. Remember that is the effective part of it. The part that counts.

EDDY'S 3 IN 1 AND 2 IN 1 WASHBOARDS

are the most improved and up-to-date, because all the good features, in the crimping of the zinc, of all others are combined.

Less Labor, Easy on Clothes. Try Them. Also EDDY'S Fibreware Tubs, Pails, Handy Dishes, etc.

The E. B. EDDY CO., Limited Hull, Can.
ESTABLISHED 1851

ST. MICHAEL'S GRADUATES

Fourteen Young Ladies Qualify as Nurses and Receive Diplomas.

At the annual graduating exercises of St. Michael's Hospital on Saturday the 14 young ladies who graduated were presented with diplomas by Hugh Kelly. They also received gold medals in the form of a Maltese cross for good conduct and efficiency. A large number of guests attended the graduation ceremonies.

The ladies who graduated were: Misses Laura Gordon-Miller, Toronto; Jennie Carlsby, London; Josephine Brick, Walkerton; Margaret Dunn, Orillia; Mary Ironside, Orillia; Josephine Shanahan, Penetanguishene; Florence Mackinnon, Lucknow; Lillian Stratton, Vachell; Susan Crowley, Peterborough; Teresa Gaffney, Brantford; Catherine H. Macdonell, Alexandria; Teresa Carey, Cobourg; Julia O'Donnell, Peterborough; Grace F. Coyle, Newmarket.

BOY SENT DOWN FOR 30 DAYS.

Altho William Brooks, a 17-year-old lad, made respectful appeals, and his father testified to his previous good character, the boy was sentenced in Saturday's police court to 30 days in jail

for stealing three dollars from the ticket seller of a booth at the island.

Firemen Killed.

ST. LOUIS, Mo., July 2.—Captain Michael J. Lyons of the fire department was killed and three other firemen and a workman were injured in a fire which destroyed a part of the Walters-Pierce Oil Company's storehouse here to-day. The fire loss was \$200,000.

Lyons was buried under falling walls. It was several hours before the fire was under control.

The rejection by the board of control of the Toronto Electric Light Company's offer was quite positive enough to ensure that the company's representatives will not approach the city again without a proposition much better from the civic viewpoint. When the company announced its terms three weeks ago, they were so obviously beyond the pale of consideration that the subsequent negotiations lacked interest. Such a movement was foredoomed to failure, and so forlorn a hope was the one which George Tate Blackstock K.C., led that an analysis of the feelings of the controllers would have shown more than faint stirrings of sympathy. The company is showing a chastened spirit, but it will have to come down a few more rungs before the city can talk business. Anything less than a straight proposition to sell out its plant is not likely to get much serious consideration.

COURT MUST DECIDE WHEN DOCTORS SPEED

Police Cannot Judge of the Merits of Cases When Law is Broken.

The deputy chief constable has issued a letter respecting the matter of medical men and auto speeding. He points out that doctors are allowed to disregard speed laws should a life be at stake, but the decision of the merits of each case must be a matter for the judgment of a magistrate and not for the police.

The letter follows:

Public Mailed.

"From enquiries reaching this office the public are apparently being misled, and the members of the medical profession probably enticed into trouble thru published statements to the effect that the police have been instructed to take no notice of medical men exceeding the speed limit when answering urgent professional calls. No such instructions have been issued to the police, nor are they likely to be, as apart altogether from the question of the wisdom of permitting the police to discriminate in favor of particular classes in carrying out the law, the suggestion is impracticable inasmuch as it would be impossible for a policeman to say that the driver of a fast speeding auto was a doctor or that he was answering an urgent professional call, and the proposal that he follow the driver to his destination and accept any statement he may choose to make regarding the matter is too silly to be even humorous.

"No medical man has ever been convicted, no matter at what rate he travels, for having broken the law, but the magistrate by reasonable evidence that he was answering an urgent call. That, however, is a matter for the discretion of the magistrate on the bench, not for the discretion of the constable on the street. A very dangerous element would be introduced into the administration of the law if the police were permitted to usurp the functions of the court."

GUM CHEWER GOT THE SACK.

WASHINGTON, D.C., July 2.—Chewing gum is responsible for the premature ending of the military career of Everett Carleton Crear of Albany, N. Y., a cadet at West Point. He denied that he was chewing gum when asked by the officer of the guard. Papers which have just been received at the war department show that Crear was tried and found guilty of making a false statement and was dismissed.

LOOKS LIKE GOOD BUSINESS.

The Winnipeg Auto Tourists and Their Tires.

BRANDON, July 2.—The Winnipeg Automobile Club passed thru here yesterday on their annual tour, covering 800 miles. So far the trip is reported to be a most successful one. A noticeable feature is that out of 17 cars taking part in the run, 12 are equipped with Dunlop tires. All the cars are standing up well.

Men Who Have Watched Toronto Grow

VI. Chancellor Burwash, of Victoria College

The Methodists of Toronto District met in conference a week or so ago. Also, all was not peace and harmony at said meeting. Some members of the conference were disposed to club Professor Jackson of Victoria College in the most emphatic and unreserved fashion for what they were disposed to dub his "heretical views" concerning the Bible and its interpretation. A number of them said things. Few expressed opinions, because they had not gone into the merits and demerits of the book carefully enough to make their competent judges thereof. Yet they were prepared or at least prepared to pass a strong resolution condemning such literature and its teachings. Even so are men ever prepared to "rush in." The result of passing such a resolution would in this case have been most serious if not disastrous. A good many schisms in religious bodies have been caused by the passing of resolutions of this kind. Considered resolutions. And some of the leaders in the war on Dr. Jackson and his teachings were men who have had years of experience in the Christian ministry, of experience that should have made them exceedingly careful about opening a controversy in such a gathering about the mysteries of the Bible and its interpretation. For that gathering, very obviously was pre-eminently unfitted to sit in judgment on such matters.

The discussion reached a crisis, one fraught with the most important consequences to the Methodist body. A breach was forming and widening. When one of the fathers of the church stepped in and closed it. And it is because the conduct of Dr. Burwash, the scholar and divine, has ever been determined by sane and reasonable considerations that he has wielded such an influence thruout his long and active career and has so often proved the "salt" of our times. This yearning for this thorough conference. Fifty years of experience in the Christian ministry has taught Dr. Burwash to know men and to read the signs of the times. Unfortunately it has done little more for others whose experience in the same sphere have almost been ampie to "fill them with the conceit" of themselves, their opinions and the manner of thought of their time. The Sunday World found the scholar sitting in his library at Victoria College, where he officiates as chancellor. Before him on a small, topped desk was a profusion of books, papers and pamphlets, signs of the busy man and the student. Facing the spacious wall was covered with a high bookcase filled with substantial, bound and well-thumbed volumes. A couple of suits of ancient armor stood in two corners of the lofty old room, but we could not associate them with the man before us, symbolically or otherwise. A champion indeed has he been, but his arts are ever these of peace, no less sturdy and no less effective than those of

so close to the pumping capacity of the waterworks, but there are circumstances which should prevent widespread panic.

One is that the people are themselves the creators of the acute situation by their trying too frequently to garden hose, a form of athletic exercise, but Waterworks Engineer Fellowes would hall with fervid joy a revival of quest or any other recreation which would take a gift of nature along with people have a sug and instant remedy in their own hands, which is point number one.

Then, this hot spell cannot continue indefinitely, and the coming of rain and cooler weather will do what appeals to the loyalty of citizens may not. Again, there is a 15,000,000 gallon pumping plant nearly ready to supplement the existing equipment. All these are promising considerations, but the present offers a good opportunity for one to test the quality of his citizenship by letting the hose repose in the cellar for a day or two at a time and setting an example to one's neighbor. Toronto seems a little shy on the communal spirit.

The question has been asked whether the reckless waste of water is due in part to the new rates. There seems to be an ingrained hostility in the great body of paying water which is regarded as a gift of nature along with air. Unfortunately, nature has not attended to the piping. But the household, once he has a lien on all the fresh water supply in the universe. He looks at the impressive size of the great lakes, as shown on the map, and the exhilaration of unlimited wealth seizes him. Now, the new method of paying 50 cents per room instead of 25 cents per room and 25 cents per inmate, has made water dearer to the average man, altho such was not the intention of the city council. It was figured out that the reverse would be the case, but somehow, somewhere it appears there was a flaw in the plans and spo-
