GERMANY'S ENTRY INTO LEAGUE APPROVED

SUB-COMMITTEE RECOMMENDS HER ADMISSION

All Necessary Conditions Are Found Fulfilled
GUARANTEES O. K.
China Offers To Withdraw Application If Others Seeking Entry Follow Suit

Geneva, March 10.—The sub-committee of the League of Nations assembly, under the chairmanship of Sir Austen Chamberlain, today unanimously recommended Germany's admission to the League, as it found the had fulfilled all the necessary conditions for membership.

The Allied Conference of Ambassadors notified the League that Germany has given effective guarantees concerning her armaments.

None of the powers which are contending for permanent seats in the council, has given any evidence of an intention to withdraw her claim at this session of the assembly.

Reports from some quarters are to the effect that although the British delegation announced in a communication that the conference between Sir Austen and Doctors Luther and Strammann, last night, was friendly, it was extremely lively and that the danger of a collapse of the League of Nations if the Germans maintain their right to election to the council, and Spain should withdraw from the League.

With the convoking of the Locarno Conference the black point which appeared on the horizon to everyone was the position which Poland might take. It was recognized that Poland, in a spirit of self sacrifice and also in recognition of the security and other advantages she had derived from the Locarno Conference, agreed to offer her candidacy in order to leave France free to throw her whole support to Poland.

With the necessary, however, of giving serious consideration to Poland's sudden claim, something had to be done. In this emergency, Belgium, in a spirit of self sacrifice and also in recognition of the security and other advantages she had derived from the Locarno Conference, agreed to offer her candidacy in order to leave France free to throw her whole support to Poland.
