Other Matters of Church In-
terest in Coburg Street
Meetings

The Maritime Convention of the Disciples of Christ, which has a four day programme, opened its meeting in the Coburg street Christian church last night with 100 delegates present, and many members and friends also in attendance. J. E. Flagg took the chair in the absence of O. W. Wat-
son, of Halifax. Addresses of welcome to the convention were given by R. J. Currie of the Coburg street church and J. W. Barnes of the Douglas Avenue church. A. Lovell, of Guelph, Ont., and E. MacDougall, of West Gore, N. S., responded. The address of the evening was given by G. L. Hoover, Indianapolis, Ind., secretary of the Board of Education, who impressively set forth the importance of Bible colleges to the church and to the cause of Christ. He referred to the fact that the Atlantic Canada conference of the Churches of Christ had decided upon the establishment of a college and declared that they must have far reaching consequences for good, but involved great responsibility upon the individual members.

TO SUPPORT COLLEGE.
To support adequately the college scheme he advocated making contributions to the college part of the annual budget of every church as missions are now made part of the annual budget.

Committees for the general convention were named as follows: Finance and means, J. W. Barnes, L. A. Miles, E. M. MacDougall, J. H. Wells, Mrs. W. Phillips, Mrs. F. Richardson and Mrs. C. B. Armstrong; obituary, P. A. Dwyer, C. E. Armstrong, Rev. H. Mahon, J. B. Pritchard, Mrs. W. J. Johnston, Mrs. E. M. MacDougall; nominations, E. M. MacDougall, J. B. Allan, William Munro, and L. A. Miles; time and place, Paul Richardson, Rev. W. J. Johnston, R. J. Currie and Mr. Outhouse.

WOMEN APPOINTED.
Committees of the Women's Missionary Society which is meeting jointly with the convention were appointed as follows: Resolutions, Mrs. L. A. Miles, Miss Marion Royce, Mrs. C. Armstrong, Mrs. P. A. Dwyer, Mrs. E. M. MacDougall, Mrs. E. S. Norton, Mrs. A. P. Marshall, Mrs. J. S. Flagg and Mrs. MacDougall. There are 21 congregations of the Churches of Christ in Nova Scotia, with a total of 238 members and 1815 Sunday school members. The church property is valued at \$81,300 and an amount raised last year was \$19,170.28. The maritime convention has permanent funds amounting to \$5,360.18. The expenditures of the year totalled \$14,078 and the balance on hand is \$97.34.

MORNING SESSION.
That the strength of the Churches of Christ in the Maritime Provinces was in the faithful work of the lay members, its weakness, especially in Nova Scotia, lies in the lack of clergymen in many of the places where the church had been established, was stated at the morning session. The Women's Missionary Society was given credit for keeping the church active and useful. To double the membership in five years to 10,000 in incorporation; to grant a month's holiday to head workers of the church; to observe specially Thanksgiving, Christmas, Easter and Children's Day in the Sunday schools; to support the C. G. I. T. and C. S. E. T. movement for "teen" age boys and girls, were among resolutions adopted by the meeting. Prohibition was unanimously supported.

William Ferner of Saint John, who is preaching for the Christian Church in L'Ete, led a devotional service. Mr. Ferner said that the work of E. T. MacDougall, the conference, presided. All the visitors to the convention were given the privilege of the meetings in voting and discussions. Reports from several places were received. Mr. Ferner said that the work in L'Ete was especially well organized and with largely attended services.

LOCAL PASTORS.
Rev. W. J. Johnston reported for Coburg street church, which he said carried on work also in Nauyasgawuk. Rev. Henry Mahon said that he was keenly interested in the work of the Douglas Avenue church, where he had been ministering for six months. He was determined to make the church 60- or go himself, he said.

Grant K. Lewis of St. Louis said that he wished to ask, as secretary of the Church Missionary Society, why

BISHOP'S SERMON DRAWS CRITICISM

Attack by Rev. Dr. Barnes on
Anglo-Catholic Doctrine
Causes Stir.

LONDON, Aug. 14.—English church circles are greatly stirred by the publication of an appeal made by the English Church Union to the Archbishop of Canterbury, Primate of all England, to prevent a recurrence of "a serious attack on the sacramental system and doctrine of the Church of England," which is alleged to have been made in a sermon preached by the Bishop of Birmingham in Westminster Abbey on June 14.

Lord Shaftesbury, president of the union, which reflects the Anglo-Catholic viewpoint, describes the bishop's sermon as a "most distressing and scandalous event." He declares: "To do its work of saving souls efficiently the Church needs above all things tranquility, and the incessant and bitter attacks of Dr. Barnes (the Bishop of Birmingham) on the Catholic faith produce an atmosphere of exasperation deeply prejudicial to the Church's spiritual life."

"Utterances by a bishop of the Church of sentiments directly contrary to the traditional faith of the Church wounds the conscience and undermines the faith of thousands of poor and simple souls for whom Christ died. Denunciations of Catholicism and an attempt to directly attack the Catholic faith attempts at reunion, and must neutralize the efforts made by Your Grace to find means of rapprochement with the Orthodox Church of the East."

N. B. CHILD BADLY WOUNDED BY A DOG

Twenty to Thirty Stitches Re-
quired to Close Wounds in
Head and Face.

Canadian Press.
FREDERICTON, N. B., Aug. 14.—Doris M. Anderson, the three-year-old daughter of Mrs. Alma Anderson, of Ripley, Sunbury county, was so badly bitten about the head and face by a dog yesterday afternoon that between 20 and 30 stitches had to be taken to close the wounds at Victoria Hospital here.

The dog is said to have attacked the child while she was playing with it outside a house where her mother was employed. There were no few bapisms in Nova Scotia as compared with New Brunswick. The reply was that the lack of ministers in Nova Scotia had greatly lessened the evangelistic effort there. Mr. Lewis also said that he felt that while the church was advancing as regards membership more than any other Protestant body, proportionately, it was at the foot as regards its giving. He said the church members showed a financial handling of \$500,000,000. It was \$50,000,000 would have been contributed instead 4,000,000 was the sum raised.

George H. Stewart of Winnipeg, gave a report of the efforts of Miss Marion Royce, of Toronto, secretary of the All-Canada Conference, of which Mr. Stewart is president. He said that in her churches, held 117 conferences, sent out 834 articles of mail, traveled 18,228 miles during the year, besides holding institutes and attending by special invitation of other churches at C. G. I. T. camps and at religious education councils.

Mr. Stewart, who is a prominent business man in Winnipeg, said that the church was now starting upon a big adventure and each member must be ready to think of big things for God. He said that although small in numbers, he knew of no group of workers better fitted to carry on the great work.

Resolutions. J. M. Barnes read reports and resolutions and included a vote of thanks to Saint John people for their hospitality. He asked Mr. Stewart to explain the question of union with the United Church of Canada, and Mr. Stewart made a statement in reply. R. Butchart, editor of the Canadian People, in Toronto, spoke on the official church organ.

AUTO TRAFFIC MAKES RECORD

U. S. Official Says 97,000
Cars Have Crossed
St. Croix

F. Q. Twitchell, Immigration In-
spector, Says Staff Had to
be Enlarged.

Franklin Q. Twitchell, superintendent of immigration for the United States government in the Saint John-Vancouver district, arrived in the city today after a tour of Maine on duties connected with his position. He says that tourist traffic into New Brunswick via the Calais-St. Stephen bridge is this year enormously greater than ever before.

Altogether over 97,000 automobiles have crossed the St. Croix at this point, which is approximately 20 per cent more than all the other points of Maine-New Brunswick entry put together. Mr. Twitchell stated he has had to enlarge his staff of inspectors to handle the influx and check the return of the tourists.

NOT ALL TOURISTS.
While all of the 97,000 cars were not tourists, the vast majority were. Local bridge traffic between the border towns and vicinity was easily counted. Many of the cars simply went around the block, as it were, via Woodstock, Houlton and other up-province points. Others kept right on towards St. John and Fredericton.

The new trunk road, being now completed and in the shape, had given place to a flood of American automobile traffic toward Saint John and points east. Mr. Twitchell reports the auto traffic into Maine as record-breaking. All along the line one heard splendid reports of the Saint John trip and hotel accommodations here. In the Maine summer hotel zones the railways and other corporations were running well-equipped autos lines—a development that seemed to be coming eastward.

BUSY IN WORK OF LEAGUE OF NATIONS

K. J. MacRae Has Letter From
Nephew, One of Legal Ad-
visors in Geneva.

K. J. MacRae has just received an interesting letter from his nephew, Norman MacKenzie, who is one of the legal advisors of the League of Nations in Geneva. The other two are French. As Mr. MacKenzie is only 28 years old, his appointment is taken as evidence that he is regarded as a young man of marked ability.

He is a son of Rev. J. A. MacKenzie, of Pictou county, and was in the law, N. S. After graduating at Dalhousie University he went to Harvard where in connection with the League of Nations he was in competition with all American universities, he won a Carnegie Bursary of \$1,000 for two years for a thesis on international law. Later he took a degree at Oxford. He went overseas with the Regina Rifles and won a cross for valor in the field. Four years in the war interrupted his studies, but he renewed them afterward with brilliant success. He is now a student at the English law school, and he intends to stay overseas five years, and whether he will return to Canada is undecided. His present position brings him into touch with world diplomats and many people of great distinction.

OFFERS REWARD FOR RECOVERY OF BODY

Brother of Doctor Drowned
Here Announces He Will
Give \$100.

All efforts to recover the body of Dr. Nelson G. Trueman of Salem, Mass., who was drowned in the Saint John Bay, have so far failed. Even heavy charges of dynamite, exploded in the water have not led to the desired result. Today Dr. Trueman's brother, Earl Trueman, who came here on receiving the sad news of his brother's death, offered a reward of \$100 for the recovery of the body and asked that, on it being found, the chief of police in Saint John be notified. Mr. Trueman said he would remain here so long as there seemed possibility of the river giving up its dead.

Yesterday in addition to those who were using grapnels, Carl Bonnell and Thomas Lunney, who are skilled in the handling of dynamite, exploded several charges in Clarke's Cove, using a full case of the explosive.

Promoters of Quebec Move-

Committees in All Provinces to
Encourage the Purchase of
Home Products.

MONTREAL, Aug. 14.—At a meeting of the Produced-in-Canada Committee, held at Drummondville, mention was made of the desire to form a committee in the Province of Quebec for encouraging the purchase of Canadian products in preference to those from foreign countries, after which it is proposed to inaugurate similar committees in Ontario, in the Maritime Provinces and in the prairie provinces. The subject was brought forward by J. H. Foster, president of the Canadian Manufacturers' Association, who added that many industries are doing well while others are losing money due to the lack of a stable tariff. Many farmers, he stated, are leaving Canada in order to take up farms across the border, as the American tariff is a third of that in force in this country. He assured his audience that there was nothing touching politics in his appeal, but that he was making suggestions for the general good of the country.

F. W. Stewart, the other principal speaker, affirmed that Canada can produce goods as excellent as any other country, but that many of our raw materials are being sent out of the country to be fabricated in foreign lands with foreign labor. When sent back to this Dominion in a finished state not only is all profit lost, but the best of manufacturers, which should go to Canadians who would spend the money in the country, was paid for by the foreign manufacturer. It is necessary at present for Canadian manufacturers, he continued, to pay their employees three times the wages handed over to Europeans. The object of the meeting was to inaugurate a branch of the committee in Drummondville, and J. F. MacDonald presided. The mayor, W. A. Molan, introduced the speakers.
