GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

Saint John Will Again Enjoy Lower Prices

Scale for "Knighthood" Picture at Imperial Less Than Elsewhere—Next Week. The scale of prices to obtain at Imperial Theatre next week during the exhibition of the masterpiece production "When Knighthood Was in Flower" will be slightly increased over the prevailing schedule, namely 50c, and 50c at night and 25c, and 35c, in the afternoon. This extra charge is necessary to make possible the showing of an expensive feature and give the larger cities where "Knighthood" has played the prices have ranged much higher, the American scales running to 82. Nothing the Imperial has brought to its silver screen equals the magnificence and splendor of the English historical romance to begin Monday, March 27, at 7:30. The picture is the leading exponent of historical roles, who plays Henry VIII, there are three thousand people in the production, noted antiquarians and art experts have schemed its accessories and trained swordsmen and riders have been gathered from noted schools near and overseas to reproduce exactly the fighting scenes and during feasts of horsemanship with which the only pictorial production today in the class with "When Knighthood Was in Flower" is Douglas Fairbanks' newest triumph "Robin Hood" but so far the rental figure asked for this picture is \$2,000 (for three days) is considered beyond the city's ability to pay and has not been booked.

British wives of soldier settlers in Alberta are shown in the group taken during a short practical course in domestic science at Wetaskiwin, Alberta. DWINDLING SNOW BANKS REVEAL MANY EMPTIES

Public Works Men Report Large Crop of Bottles—Trouble Over Ashes. Public works employees, engaged in the annual spring cleaning of the city streets, report the greatest crop of empty bottles that has ever been reported along the Strait Shore road, while nearly every snow-bank in the city had its quota and the dwindling drifts make new revelations daily. Another observation of the public works men is that while the snow was on the ground innumerable horse-dumps dumped ashes promiscuously in the streets and the results are now becoming apparent. In Hilliard street between Sheriff and Simons streets and in other debris; at least five or six empty bottles that have been reported scattered along the Strait Shore road, while in Acadia street and in Charlotte, near the exhibition buildings the conditions reported here.

MORE CAPTURES BY FREE STATERS ARE REPORTED

BRITAIN JOINS PROTEST AGAINST THE CONCESSIONS

(Canadian Press) London, April 12.—Great Britain joins in an energetic protest against the Turkish Nationalists' certain concessions in Anatolia to U. S. interests headed by Rear Admiral Coby M. Chester, in these concessions are found to embrace the Mosul oil fields. It is generally believed here that in its present form the Chester agreement with the Nationalists is a concession to the original Turco-American chief of the Turkish Nationalists, the present U. S. plan is concerned chiefly with the opening up of Anatolia by way of the railway system and the granting, as payment, of property rights upon a large scale. In view of official protest already made by France against these concessions to U. S. citizens as being in violation of the 1916-17 agreement, it is considered certain the whole subject will be aired at the approaching peace conference at Lausanne.
