Miss Nellie Melanson, daughter of L. J. Melanson of Moncton, was united in marriage yesterday at the church of L'Assomption, Moncton, to Edgar LeBlanc. Rev. H. D. Cormier performed the ceremony.

At the Methodist parsonage, Fredericton, on Wednesday evening, Rev. G. M. Young united in marriage Miss Nellie May Lindsay and William Roy Kenney of that city. The bride was attended by her cousin, Miss Nellie Delano, of St. John, while the groom was supported by Harold Lindsay.

RECENT DEATHS

The funeral took place in Somerville (Mass.), last Thursday, of Dunstan W. Smith, formerly of St. John and Melville square, Annapolis county, after an illness of nearly three years' duration. He was a son of the late Captain W. H. Smith, St. John, who for many years was government inspector of steamships for the maritime provinces. Mr. Smith spent many years on steamers plying between Nova Scotia ports and Boston. Several years ago he purchased a large fruit farm at Melville square, Annapolis county, and since retiring from the steamship service has spent most of his time on his farm. Mr. Smith is survived by his wife and one son, in Boston.

Moses Garland, a former C. N. R. employee, died at his home in Sunny Brae yesterday, after a long illness. He was a native of Elgin, Albert county. He leaves one daughter and six sons.

Mrs. Elizabeth C. Marsh of Moncton died in Bathurst on Sunday. Mrs. Marsh was visiting her mother who was very ill and the sudden death of her mother was too much of a shock and she died a few hours afterwards. She leaves two sons and four daughters.

ALEX BRODIE DEAD.
Quebec, Sept. 28.—Alexander Brodie, retired business man died last night at the age of 81. He was born in Moncton, but lived most of his life in Quebec. He was for many years prominent in curling and golfing circles.

TAXI CAB DRIVER LURED TO HIS DEATH.
Jamestown, N. Y., Sept. 27.—George Klingler, a taxi-cab driver of this city, aged 23, was lured to his death on Saturday evening by two unknown men who went to his stand at the city's leading hotel and hired him to take them into the country. They drove to an unoccupied farm house in the town of Busti about five miles from this city.

Just after dark a neighboring farmer heard shots and soon saw a straw stack on fire. He went to the place and found Klingler's charred body in the burning straw. An autopsy revealed several bullet wounds, one in the head. The murderers escaped in the hired car, which was found in the road about two miles away, stained with blood. The only clue is a report that in July, Klingler had a controversy over his fare with two foreigners at a lads' resort who then said they would "get" him.

New York, Sept. 27.—If the school principal addresses him as "janitor" this winter, the school janitor will go cold this day. For the school janitors henceforth are to be known as "custodians." The Board of the duration of the decision it was a more dignified title.

TEN STORY BUILDING FOR CHILDREN'S HOME.
A new building adjoining the Children's Court at 137 East Twenty-second street is to be built by the New York Society for the Prevention of Cruelty to Children.

The new building, which will be of the same architecture as the Children's Court, will be ten stories high and will be completely equipped for the adequate care of children. Since the organization of the New York society, forty-four years ago, more than 500 similar societies have been organized. During those years 292,481 children have been rescued by the New York society and cared for. The duration of the children is temporary, but sometimes lasts for several weeks, until the cases come up in court and are adjusted. In eight years 12,400 lost children have been restored to their homes. This year, from January 1 to July 1, 9,947 complaints have been received and acted upon. 8,760 children have been sheltered in the society's building, 220 lost children have been identified, and 972 adults have been arrested for offences against children. In 1919 more than 13,149 were acted upon.

When Does Old Age Begin.
"When shall old age be said to begin? At 60, in many, especially in those who have hardening arteries; 75 in the more fortunate should be the answer, I think," writes Dr. T. Bodley Scott in the Practitioner, "but the beginning of old age should be only the setting forth on a slow downward path. The duration of life should far exceed David's three score years and ten."
"There is a rough rule, I think, for the mammalia, that the years of life should bear a ratio to the years of their development. A dog or cat takes two to two and a half years to mature, multiplies by five and you get the duration of life. A horse takes five years and lives to 25; an elephant takes 80 to 40 years and lives to 160 to 200; men who mature at 18 to 20 should live to 90 or more, about 18, however, fight so habitually against natural law that but few of us fulfil our years, but it is a comforting thought that more and more are doing this as they learn, by wisdom or force of circumstances to lead a simple life."

LORD DESBOROUGH REMEMBERS WELL FINDER OF MONEY.

Hotel News Stand Man Gets Gift of Fine Rosewood Clock.

(Toronto Globe.)
A. Nicholson, who runs the newsstand at the Queen's Hotel, went to work one morning recently and found on the counter an envelope containing 75 pounds in English money. He turned it in to the manager but no such loss was reported.

A few days later the manager happened to mention the incident to the guest, and Lord Desborough, President of the Congress of the Chambers of Commerce, who was standing near, recognized it as his property from the description given. The money was returned, but when Lord Desborough departed he left Mr. Nicholson a magnificent rosewood clock with this inscription on a silver plate:
"From Lord Desborough, 1920."

Mrs. Randolph Williamson, of Montreal, announces the engagement of her sister, Miss Evelyn Fairley, daughter of the late Mr. and Mrs. James S. Fairley, of Boiestown, to Lawrence Jamieson, son of the late Rev. W. N. Jamieson, of Montreal. The marriage will take place quietly early in October.

WEEKLY REPORT ON N. B. CROPS

(N. B. Department of Agriculture.)
Fredericton, N. B., Sept. 27.—Reports indicate that considerable grain was damaged by the heavy rains prevalent during the first half of September. The wheat crop always suffers the most and quite a percentage of this crop was rendered useless for flour-making purposes. The sprouted wheat can be utilized for feed purposes. The oat crop suffered both by sprouting in the straw on the fields that were cut and by lodging badly on the uncut fields. Estimates of actual loss due to these causes vary from ten to fifteen per cent. The crop generally was damaged and the grain discolored. The bright, clear weather of the past week helped out considerably in harvest operations and to put the crop in condition for handling.

The turnip crop is reported to be excellent, the weather being very suitable for a rapid growth. The after-grass has made good pasture and live stock are doing well. The supply of milk is keeping up well and the market for dairy products is firm. The potato crop has also suffered considerably by the wet weather. Rot is fairly general in unsprayed fields, and on the heavier soils. Potatoes grown under these conditions have frequently been found to be from thirty to forty per cent affected with rot. On the lighter soils the rot is not so bad and where fields have been well sprayed with Bordeaux Mixture it is reduced to a minimum. The loss from blight and rot throughout the province is quite considerable and may reach as high as twenty-five per cent of the crop. The weather of the next two weeks will have much to do with what the total loss will be. The potato market is weak. Cars were being loaded last week in Carleton and Victoria counties at 82 per barrel. There was some movement at that price and the tendency is to hold the potatoes for a higher figure, it being generally agreed among the growers that to sell for that would be to sell at a price that would not cover the actual cost of production.

Rev. C. S. Deeprope Was Prominent in Methodist Church.

Ottawa, Sept. 28.—Rev. Charles S. Deeprope, a prominent Methodist minister, who founded the MacLeod street Methodist church here in 1890, died suddenly at his summer home near Kananaskis, Que., yesterday. His last pastorate was the Fairmont avenue Methodist church, Montreal, from which he was superannuated a year ago, owing to ill-health.

Mr. Deeprope was well known in the eastern townships, Quebec, having served as pastor of churches in Sherbrooke, Coaticook and Richmond. He was an ex-chairman of the Stantead district, and a former president of the Montreal conference.

The Talnui is bound from London via the Panama Canal, to New Zealand, where these young women hope to find husbands.

"We are going to New Zealand to get married, if we can find the right kind of husbands," said Miss Ruth Mace, one of the women in search of a husband. "We are not looking for wealthy men. We want to help to build up a good home and a good nation."

AGAINST DOCTOR

Verdict for \$8,000 Damages in an X-ray Case.

Montreal, Sept. 28.—Dr. Georges Dupont was yesterday condemned in the superior court to pay \$8,000 damages to Charles St. Martin on an action taken by the latter to recover \$10,000 damages alleging that he was burned and injured in October, 1916, while under X-ray treatment at the hands of the doctor.

Justice Mercier said that the doctor had absented himself from the operating chamber beyond the period prescribed by the "minutes" installed in the room to warn the operator when to interrupt the current, and the court held that this amounted to negligence and imprudence on the part of the defendant, incurring civil liability.

BOY SHOT BY TRAP SET TO GUARD ORCHARD

Kingston, Sept. 28.—Percy Vincent, aged twelve, son of Sgt. and Mrs. Vincent, 43 Marlborough street, was shot through the knee by a bullet from a trap. He had been at a meeting of some boys and was returning home about 9:30 o'clock. The boys entered Charles Powell's orchard to get some apples and pears. In the orchard there is a trap set to keep people away from the fruit. The trap was set with a wire attached to a 20-calibre rifle and while in the orchard Percy evidently tripped on the wire and was shot through the knee. The injured lad was taken to the Hotel Dieu, and an examination showed that the bullet had gone through the knee joint. Mr. Powell says he is determined to protect his fruit trees, and that he has a notice on his premises warning people to keep out. The gun is so arranged that the path of the bullet is not more than two feet from the ground.
