A NEW ENGLAND SETTLEMENT IN NEW JERSEY.

THE HAMMONTON TRACT OF

LAND IN NEW JERSEY

Has become the central point of an extensive emigration from the New England States, and the British Provinces, with large accessions from Pennsylvania, and even Illinois, Ohio, and other Western States. During the year 1863 over 200 farms were purchased, and 150 houses built and occupied in the settlement.

The second and last division of this tract, consisting of about

FIFTEEN THOUSAND ACRES,

Has been surveyed, and is now offered for sale, in

FARMS OF TWENTY ACRES,

And upwards, on terms favorable to all actual settlers. Titles Perfect.

For prices of farms, terms, &c., apply personally or by letter, enclosing stamp, to JOHN STILES, 10 Pemberton Row, Boston, or to RICHARD J. BYRNES, at Hammonton, who will promptly reply to all letters.

From the Rural Agriculturist, Augusta, Me.

WHERE AND WHAT IS HAMMONTON?

HAMMONTON is a tract of land in the interior of New Jersey, recently opened by railroad for a most desirable settlement. It is on the side of some thirty thousand acres, more or less, and lies partly in the county of Camden, and partly in Atlantic county; distance twenty-five miles, or one hour's ride, south-east from Philadelphia, and about the same to Atlantic city, at the sea shore. Little Egg Harbor River, the tributaries of which water Hammonton in various directions, is navigable for steamboats to Pleasant Mills, six miles from the foot of Hammonton Lake. The products of the sea, in the shape of fish, oysters, &c., may be daily consumed; and the vicinity to Philadelphia gives it the benefit of that great market for purchase or sales. Lands now in cultivation anywhere within the same distance of Philadelphia, north, south, and west, are worth from one to three hundred dollars per acre. It is but little visited by the great city and its environs, with eight hundred thousand mouths to be daily fed, that gives such high value to all farms and gardens. There is no reason in the world, why the lands that may now be bought in Hammonton at the comparatively insignificant price of twenty dollars per acre, should not soon be worth as much as any other lands that are the same distance by railway from that city.

The soil of this territory is various—from a stiff clay, suitable for brick making, to a very light ocean sand—which, light as it appears, is rich in the elements of vegetation, and certainly produces good crops of Wheat, Corn, Rye, Barley, Oats, Clover, Herds Grass, Sweet Potatoes, Irish Potatoes, Egg Plant, Peaches, Pears, Apples, Plums, Cherries, Apricots, Quinces, Grapes, Water and Musk Melons, and indeed all the fruit and vegetables common to the Philadelphia market, and which make that, as it is well known to be, the best market for breadstuffs, fruit, and vegetables in the United States—perhaps in the world.

The finest growth consists of hickory, white oak, maple, yellow pine, cedar, &c., but in most localities the growth has been cut off within a few years for the use of the neighboring glass works, and is therefore now covered only with small wood, easily cleared. In places where the trees are yet large, the standing wood may be purchased at a small price.

The population that has removed thither within the past year is largely from New England, and now numbers about one thousand. It is rapidly filling up with an industrious, temperate, enterprising people. Since last spring one hundred and fifty dwelling houses, of various sizes and costs, have been erected.

The tract is laid out in farm lots of 20 acres and upwards, and town lots of five acres and upwards, and avenues and streets are open in every direction. There are inexhaustible supplies of muck and marl on the land, which are very cheap and valuable as fertilizers. The water is peculiarly sweet and clear, and may be found by digging wells from 8 to 16 feet deep. Living springs also abound.

The climate is the best in the United States, the latitude being neither too far north for cold, nor too far south for heat. It is nearly that of Baltimore, and the atmosphere is tempered in summer and mitigated in winter by the sea breezes that come in from the ocean, sweeping the course of the gulf stream which leaves the New Jersey shore directly east of Hammonton. No such thing as Fever and Ague was ever known there. A more healthy spot cannot be found.

We advise no one to leave Maine. Ours is a goodly State, rich in all the elements of wealth and social happiness. Those who are well off had better "let well enough alone," and stay where they are, or go to Dead River or the Aroostook. But if any of our people, from any cause, have resolved to leave us and seek a more genial climate, where they can swallow the soil over the fourth part the labor required here, and where they will not encounter the cold winters of the North, the sickly heat of the South, nor the miasma and the foreign society of the vast West, we would advise them just to go to Hammonton first, and there see and judge for themselves. It will cost but little to go. The distance is only 87 miles, or 3 hours' ride from Boston, whereas the Mississippi Valley is 1,400 miles' ride from home. Hammonton is in the centre of the largest population on the continent, being within one hour of Philadelphia, five hours of New York, and four hours of Baltimore, and has the benefit of intercourse with, as well as the markets of all these great cities and their vicinities. Could a more desirable location be found?

The cars of the Camden and Atlantic Railroad run from Vine St. Wharf, Philadelphia, twice a day to and from Hammonton, and all persons who purchase lands and commence building in it, have free passes over the road for three months, and one-half of half price for three years afterwards.

Just look at Hammonton, before you resolve to remove West. It can do no harm, at least.

I AM CURED.

"I have taken six doses of Radway's Pills, of three pills each, in six days; they cured me of Constipation, Indigestion, and Dyspepsia. I have taken B——'s, A——'s, and many other pills for years, and could only obtain temporary relief. If I stopped the use of these pills for a week my old complaint would appear. Six doses of Radway's Pills cured me.

SIDNEY BENNETT, U. S. C. S."

"I have suffered with Dyspepsia and Liver Complaint for seven years—have used all sorts of pills—they would give me temporary comfort, but was compelled to take them all the time. I have used one box of Dr. Radway's Pills; I am cured. I have not taken a particle of medicine in six months.

PILES, STRAINING AND TENESMUS,
PILES, STRAINING AND TENESMUS,

Are the results of inflammation or irritation of the mucous membrane of the bowels, induced by drastic pills—these imperfect pills, instead of being dissolved by the chile, are carried to the lower bowels, and induce a peristaltic movement or evacuation by their irritation—*hence the straining, cramps, wrenching pains, piles and tenesmus, and the frequent false calls to the water closet, that patients undergo who take these imperfect pills.*

If you would avoid these annoyances, whenever a purgative medicine is required, take a dose of

RADWAY'S REGULATING PILLS.

THEY WILL PURGE THOROUGHLY AND LEAVE THE BOWELS REGULAR.

Persons afflicted with PILES, may rely on a positive cure by their use.
