The communications which I receive

from foreign powers assure me of the

continuance of their good will. I am

happy to say no international complica-

to endanger the peace of Europe. War

between Japan and China, which was

in progress at the opening of last ses-

sion, has been brought to a close by a

peace which, I trust, will endure. I

observed strict neutrality during the

war, and have taken no action in respect

thereto, except such as appeared to me

ikely to be favorable to the termination

of hostilities. I deeply regret to say

that most serious outrages upon a body

of English missionaries are reported

from the province of Fu Kien, in China.

In reply to earnest representations, ad-

lressed to the Chinese government, ac

tive measures, which I trust will prove

effective, are being taken for the punish-

ment of the murderers and all persons in

any degree responsible for these crimes.

International troubles, which have brok-

Asiatic Turkey, have been attended with

horrors which have moved to indignation

the Christian nations of Europe general-

ly, and my people especially. My am-

bassador and the ambassadors of Rus-

London, Aug. 14 .- In the House of Commons this morning the work of swearing in the members of parliament was continued. The Times says that John Redmond

will move an amendment to the address from the throne, challenging the government to declare its Irish policy. John J. Clancey will move an amendment in favor of amnesty to political prisoners. A dispatch to the Times from Berlin says that the Kolnische Zeitung's Constantinople advices report that England is the only power in favor of coercing

Turkey. She is, therefore, pushing a strong squadron north from Egypt. The other powers oppose coercion. An editorial in the Times urges General Lord Wolseley's claim to succeed the Duke of Cambridge as commanderin-chief of the army. The Times says: "The Duke of Connaught is young and can afford to wait. His appointment

now would cast a doubt on the reality of promised reform, especially an appointment for a limited term."

THE REPORTED CRISIS IN JAPAN.

Washington, Aug. 14.-No information has been received at the Japanese legation in confirmation or denial of the report that a cabinet crisis exists in Japan, though the

a cabinet crists exists in Japan, though the legation would not necessarily be informed of such an occurrence until the formation of a new ministry. The report of dissolu-tion was, however, a surprise to the mem-bers of the legation and caused great in-terest. While accustomed to look on Counts Ito and Yamagata as almost permanent parts of the Japanese government, they ad-mit that there has been dissatisfaction ex-pressed among the opposition politicians concerning the recession from the terms of the original treaty, and it is surmised that any cabinet changes will be due to this criticism. They think, however, a change on this accound is improbable, as in Japan the ministry is the creation of the emper-or and its continuance in office is in no-wise dependent on popular approval, ex-cept so far as the ministers may personally be influenced by it. Furthermore, they find it difficult to realize that there should be any misunderstanding on the question of with the agift of the emperor, and the latter holds the highest decoration within the gift of the emperor, and the pecting cruise among the islands of the rank. Both Ito and Yamagata are counts. The former holds the highest decoration within the gift of the emperor, and the latter is a marshal of the empire. It is not understood why men who have, already been so highly honored should make trou-ble over the question of the conterring of an honor which would be only a slight ad-vance over their present positions. No one at the legation will venture an opinion as to who might succeed Count Ito as prime minister in case of his permanent retre-ment.

ment. It is stated that Count Ito will offer the management of foreign affairs to Count Inouyc, probably before the end of August. I wo other government changes are or less confidently predicted. Mr. Ito Mr. Ito Miyoji aspires to a seat in the cabinet, and is supposed to have earned this promotion by his excellent services as secretary to the ministry. A place will be made for him by providing one of the present heads of the department with a diplomatic station in Europe.
