MR. MITCHELL'S MILL ENTERPRISE. In reference to a report that the Hon. Peter Mitchell, associated with Sir George Stephen and Sir Donald Smith, contemplated building a large flour mill in Ottawa, Mr. Mitchell said to a Herald reporter: "The facts are as follows: I have visited the salmon freezer of Messrs. Loggie accompanied by Hon. John Carling, Messrs. South, M. P., and Hector Cameron, as well as Geo. Moffat, the member for Restigouche, and spent a considerable time examining the process of freezing salmon and another new industry, that is the process of freezing berries and other kinds of fruit. On Wednesday accompanied by Lady Macdonald, he went to Chatham, and while there chatted with a number of people who did not recognize him as the premier. On Friday, on invitation of Chief Justice Allan has appointed Tuesday, 30th August, as the day on which the list shall be settled.

NOTES FROM ECUMINAC POINT. THE LOSTER FISHERY is a thing of the past at Ecuminae for this season. The catch has been a poor one.

TRADING WITH THE CRUISERS. The account of the late fishery seizure given by the correspondent of the New York Tribune gives some insight into the manner in which the terms of the Treaty are enforced and our fisheries are protected.

THE MOST exciting race was that by the Indian, Mrs. T. W. Williams, who had the second place claimed by so many fair contestants that I will not pretend to give it to any of them, as I might be charged with having a favorite. The gentleman who was easily won by Ernest Fleisher. The famous foot shooter, Bob Bau, did not make as good a showing on the race course as he does among very nicely arranged.

made an attempt to capture both vessels, and the refrainment table was washed with all the good things of the season. Around the table and shading it from the sun were flags of every nationality. Looking at a distance the sight was very fine one. The managers deserve a great deal of credit for the manner in which they had everything arranged, and deserved the greater financial success that was theirs, although they had a small loss after paying expenses. The proceeds go towards repairing the Ecuminae Church.

A SEA SERVENT or something answering the description of that monster, was seen off Ecuminae Light Saturday the 30th, by Thos. McKean of the lobster boat, "The General Middleton." Capt. Tom reports the monster as going at a terrific rate of speed with two or three feet of head out of water. It was going in an easterly direction and coming up the Straits. About ten fifteen feet from its head was a large fin out of water. About 30 or 40 feet from its head was a large wave following the animal which Tom thinks was the animal's tail. The part that was out of water was not larger, as Tom described it, than six inch store pipe, and he had a good look at the monster as he was quite close to it.

Besides these, I have noticed a number of lady school teachers who do not doubt need the breathing air to give them the required strength of body and mind to teach young Northumberland. Misses Harris and Annie Phillips have returned to their home at the Point from a long sojourn in the United States the first mentioned having been away three years.

CONCERT at Redbank. The Concert and Garden-Party at Redbank last Friday evening was a complete success. Long before the hour of commencement the Hall was filled to overflowing, many persons being unable to gain admittance. The incapacity of this building to hold the audience recently drawn to Redbank is a matter of great regret, and we learn, steps are about to be taken to have it enlarged.

AT 7:45 the entertainment was opened by a selection from the Derby Band, whose premier merit great credit under the leadership of Mr. Miller. Chorus from the children followed, which were very excellently sung, and were met with applause. A comic song by Mr. Phillips, which elicited great laughter was followed by a "Good Night" song by the children, which brought the portion of the programme to a close. Mr. Smith, the pastor, was in the chair.

AFTER the singing of "God Save the Queen" the assembly repaired to the main grounds which were magnificently illuminated with Chinese lanterns and ornamented with evergreens and flags. Here refreshments were served by the ladies, the music rendered several very choice selections. The net proceeds which amounted to \$103 will be devoted to the repairing of St. Stephen's Presbyterian Church, Redbank.

DALHOUSIE. July 31.—Sir John and Lady Macdonald are still here and propose to remain a week longer before going to St. Andrews, New Brunswick. Although nearly a thousand miles away from the capital, the veteran chief is kept busily engaged working seven or eight hours a day dictating letters and telegrams and doing other business connected with the administration of the government, but still he has found time to take some recreation during the past week. On Thursday he visited the salmon freezer of Messrs. Loggie accompanied by Hon. John Carling, Messrs. South, M. P., and Hector Cameron, as well as Geo. Moffat, the member for Restigouche, and spent a considerable time examining the process of freezing salmon and another new industry, that is the process of freezing berries and other kinds of fruit. THE MOST exciting race was that by the Indian, Mrs. T. W. The gentleman who was easily won by Ernest Fleisher. The famous foot shooter, Bob Bau, did not make as good a showing on the race course as he does among very nicely arranged.

expected of such people. I am sorry to have to report such proceedings, and would not if they had not been a public nuisance. I would allow their craft to rot and their salmon fisherman to be benefited by the empty bottles that they find in their salmon nets on Monday, nor would I mind the Sunday gaming expeditions of last season, but their latest freaks have been both insulting and annoying to the public. Please publish this Mr. Elliot and oblige.

Case for Irrigation. BELLEVILLE, July 28.—A sensation was created today in consequence of the publication in several newspapers of reports that Hon. Patrick A. Collins, of Boston, and his party had been arrested by the Government on their arrival from Glasgow, N. B. However, no truth in the reports as published, and but slight grounds for their invention. The facts are that when Mr. Collins and his party reached the fishing department of Canada, at present making an examination of the lakes in Sanbury County, with a view of introducing into the lakes some of the western fish including the white fish and the salmon trout. It is the intention of the government to ascertain whether four inland waters are adapted for these fish, and if so to introduce them. It is also intended to stock the rivers with smugling goods and dynamite. What made all this more expediting to the travellers was the fact that the work was performed by detectives and not by the regular officers of the coast guard.

and Pic. Kimmery each won \$2, the former holding 3rd place with 31 points, and the latter 7th with 20 points. In the 2nd race, which being open to those who have never won prizes at Wimbledon, but yet hold places in the 1st stage of the Queen's, is practically a new comers' match, Canadiana stood as follows:—2nd place, Pte. Gillies, 23 prizes; 4th, Sergt. Thomson, 23; 3rd, Cpl. Langstroth, 22; 5th, Cpl. Taylor, 21; 6th, Pte. Kambray, 11. Cpl. O'gog held the highest Canadian place, but was not eligible, having previously won a prize. In the Wimbledon, Lieut. Smith alone found a place on the prize list, winning \$2 with 63 points and 93rd place. So in the Daily Telegraph, a 500 yard match, Cpl. Sergt. Mitchell was the only Canadian prize-winner, scoring 34 points, which was but one short of the highest possible, only secured for him the 38th place and \$2.

A LETTER from Mr. L. H. Stearns, of Montreal, from Cape Hochelaga, Restigouche, to a friend in the city, describes the fishing there for the last two weeks as very good. Mr. Stearns met with quite an all-ventures of the 20th of June. He was fishing with two Indians in a canoe about three-quarters of a mile above the camp where the Indians reside. The Indians were swimming across the river. Mr. Stearns was armed with a small Smith & Wesson revolver, but he pulled up the anchor and made after the bear. On coming within striking distance Mr. Stearns opened fire, hitting the animal a couple of times, when it turned and made for the canoe. As it got near, the Indians exclaimed that it was a *Lynx canadensis*—for short "huicoo" or Canadian *Lynx*—and cried out to let it touch the canoe. Mr. Stearns reloaded his revolver and as the bear got close to the canoe put several shots into it, one between the eyes finishing it. The Indians took of the skin, which Mr. Stearns will preserve to show to his friends.—Montreal Herald.

What a truly beautiful world we live in. Nature gives us grandeur in mountains, plains, and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often the majority of people feel like giving it up, discouraged, and worn out with disease, when there is no occasion for this feeling, as every sufferer can only obtain satisfactory proof, that *Dr. J. A. Thomson's* will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct cause of seventy-five per cent of such ailments as Biliousness, Indigestion, Sick Headache, Constipation, Nervous Prostration, Pimples of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of *Angus Sander's* will secure a wonderful effect. Sample bottles, 10 cents. Try it.
