BASE BALL.

Clippers, 4; Portlands, 6.

Thick fog and slippery grounds spoiled the game last night between the Portlands and Clippers. Most of the errors were due to the ball being wet. The outfielders could scarcely be seen from the grand stand owing to the dense fog, so it was no wonder they could not locate everything that came their way.

The game was uninteresting, with the exception of the first of the fourth inning, when it seemed possible for the Clippers to tie the score. Treacartin was getting pumped, and the slippery ball enabled the Clippers to get three men across the plate, but Mahoney and Friars cut them off.

Applications were received from several sections asking for improved water services.

A communication from the Cushing Sulphite Fibre Company relative to the great amount of vegetable matter existing in the water of Spruce Lake, which they use, and suggesting that the pipes be laid out into deeper water, was allowed to lay on the table.

The superintendent reported that Albert Day, the tenant on the Silver Falls farm, having failed to pay his rent, his horse and farm wagon and carriage were seized on June 26th, 1904, and sold at public auction. The amount realized was \$96, \$25.06 less than the debt.

CHAMPLAIN MONUMENT.

Public May be Asked to Provide the Foundation.

Nothing definite has been decided yet about the monument to Champlain. The Historical Society are waiting to be sure of the government money before making any more definite move. As soon as this point has been settled and other business details such as who is to receive the money, are disposed of, the society will call for plans and work will be started as soon as possible.

No site has been decided on as yet. Queen square was mentioned at the last meeting, but no resolution was passed. About the city there has been some talk on the matter, and opinion seems to be divided between Queen and King squares.

It is expected although no decision has been arrived at yet, that the public will be called upon to help towards building a foundation for the monument.
