IMPURE MILK

Is the kind most frequently gotten from grocery stores—milk that is old, tainted and poor.

We now have an up-to-date system of treating and delivering milk. We have fresh morning's milk from Jersey cows delivered to us early every morning, and it is at once put into sterilized bottles and into our new iodine milk cans, where it quickly cools. We can thus deliver ice cold milk which is only a few hours old—and you can always be sure it is sweet, pure and wholesome. A small item, perhaps, but an important one to our customers.

BIG GAME SEASON OPENED.

Partridge That Have Been Protected for Three Years, Game For All—Must Take Out a License for Big Game.

The big game season opened with daylight this morning and as a result there was a rush for the woods yesterday, while today the birds, deer and moose have been started by the blif-bang of the guns. The tardy and unsuspecting inhabitants of the forests have undoubtedly paid the penalty of their forgetfulness that this was the opening day and so some hunters are happy.

The game laws are very stringent and every man that goes into the woods should have a copy in his hat. You must not use a dog in hunting big game, such as deer, caribou or moose. You must not shoot prior to sun up after sun set and for big game you must have a license for which a resident of the province will have to pay two dollars and an outsider forty dollars. All guides are registered and satisfaction is almost guaranteed.

During the past week almost every train that has arrived from Boston has landed here shooting parties, the greater number going north. The travel has been so heavy that it has been necessary to run two sleepers. At McAdam many have taken the C. P. R. into the upper portion of the province, their idea being to keep close to the border so that they could shoot both in this province and Maine.

This is the first season for three years past that it was allowable to shoot partridge and big game. It is expected as the birds are said to have become very tame. However a few days' solitude is apt to frighten the birds to the forest wilds.

Magistrate Ritchie told the prisoner that as he seemed to prefer the jail to the almshouse he would accede to his desires, and fined Curran eight dollars or go to jail for two months in default of payment.
