All classes of society are greatly affected by the number of people suffering from tuberculosis who daily appeal to the generosity of our public institutions. The purchasing of the Christmas Seal is a very easy way to help and to prove your interest in the fight against tuberculosis and other dread diseases.

PRIME MINISTER'S SPEECH

(By R. J. Deachman) Not often of late days I had the pleasure of listening to the Prime Minister. Pressure of other work has kept me away from the stirring scene. Still, I am glad to have the opportunity to feel himself a boy again and to place and even an old man like me in the circus. So being in the mood I will try to attend the Masquerade Dance given under the auspices of the Fraser Junior Executive Club.

To examine a tariff properly one must know: (1) The imports of the particular item under discussion. The pages on herewith give total imports, imports from the United Kingdom and reports from the United States. Complete details of imports for the fiscal year 1931 and 1932 can be obtained from the Quarterly Report of the Trade and Canada for the twelve months ending March 31, 1932. It is also wise to make comparisons with past years. The figures are given in another volume, "Trade of Canada for the Fiscal Year Ending March 31, 1931." It covers the years 1927 to 1931 and of course is available from the Bureau of Statistics.

OUR LETTER BOX

EDITOR'S NOTE - We have been asked by Mr. T. J. Scott, manager of the Royal Bank, to publish the following letter which is a copy of a letter addressed to his worthy Mayor J. E. Michaud.

Edmundston, N. B. Oct. 29, 1932 J. E. Michaud, Esq. President Edmundston United Charities Association, Edmundston, N. B.

Dear Sir: As you are aware, the local theatre has been operating on Saturday evenings since January 1931 on the understanding that \$25.00 a week would be contributed by each theatre on alternate Sundays to the Edmundston United Charities Association.

You as President of the Association have been notified on several occasions that the Casino Theatre have not made the promised contribution, but it would appear that you have no power to act, either as President of the United Charities Association or as Mayor of the town, with a view to having the agreement carried out, and the Casino Theatre is now \$205. in arrears.

The public patronizing these shows pays an extra fee which they believe going into the funds of the Edmundston United Charities Association, and I understand the theatres are relieved from payment of amusement tax, also on the understanding that the proceeds of Sunday shows are chiefly for charitable purposes.

As the officials of the United Charities Association seem powerless to interest themselves in this matter, I cannot, as one of the trustees, agree to such deception and hereby resign my resignation to be effective at once.

I might state that the Star Theatre has carried out the agreement trade to the letter.

Yours truly T. J. SCOTT. -Leo Kelly of Campbellton was a week-end visitor to town.

AUTOMOTIVE WORLD

COYOTE VERSUS CHEVROLET

Persistence plus the fortuitous appearance of a coyote turned the trick for E. G. Ormsbee, Burlington, Col. when he was making his fifth call on "Rancher Joe", who had used sulphurous language on the four previous occasions to impress on Ormsbee that the old four-cylinder touring car was still plenty good enough. On the fifth call, Ormsbee was trying to summon enough courage to mention the subject of a new car, when a coyote went leaping through Joe's pasture.

"Grab your gun, Joe; we'll knock him off", said Ormsbee, and they gave chase in Ormsbee's Chevrolet demonstrator, which the rancher wouldn't even look at before. For 45 minutes the weird demonstration raved through underbrush and gulleys, over rock-strewn hills and every conceivable type of roadless terrain, until Joe asked how high a fence the car would jump. The demonstration ended when they touched sixty on a steep, rocky hillside. Joe got the coyote, and Ormsbee got

ly affecte by the increase in tariffs. These figures are of course obtainable in the volumes I have mentioned.

The method of building up the rates is a Chinese puzzle. They are, as the government has confessed, "reasonably arbitrary and protective. They have wrecked trade - promoted unemployment - destroyed industry - burdened the basic industries. Still the government was not satisfied, these rates are in the whole, a sharp increase over the rates previously existing. They are a crime against the people of Canada.
