FARMERS SHOW INTEREST IN "COLLEGE WHEELS"

Better Farming Special Meets With Much Success During Trip Over the I. C. R.—Meetings Largely Attended and Farmers Derive Much Benefit from Instruction Given.

That great interest is being taken by the farmers of this province in the I. C. R. Better Farming Special was twice proved yesterday when the train spent the morning at Norton and the afternoon at Hampton Station. At both these places a large number of people took advantage of the opportunity to secure valuable information regarding the better management of their farms.

At Norton about two hundred people boarded the train, displaying much interest in the various products shown, while at Hampton 500 people inspected the exhibits.

In car number one the different systems by which chickens are hatched and reared for were shown, the farmers' wives showing their appreciation of this department by the numerous questions asked. As each department was in charge of an expert the best advice was given. Another display in this department in which much interest was taken was the different varieties and classification of eggs. That this is an important phase of farm work was proved by the fact that 25 per cent. of the eggs produced in Canada are wasted between the producer and the consumer.

Farm Drainage.
In the same car with the poultry display was shown the correct manner in which a farm should be drained. This is a phase of farming that the country people realize to be very important, as well drained land will yield almost double. This draining system has been carried out to a great extent in Ontario where it gave extremely satisfactory results, the drains paying for themselves in two years.

The cost of installing this system is very small as all the tiles can be made at home costing about a cent a piece. In connection with the laying of the drains in Ontario the provincial government sends a man to the farmer to show him the correct expense which the farmer has to bear before the cost of the car fare.

If the farmers of this province desire to have proper drainage it is probable that the government will follow in the steps of the Ontario government and send a competent engineer to make the necessary surveys.

Profitable Cattle.
The next car was given over to the cattle department and here their cattle were shown the kind of cattle that are worth money, not as beef, but because of their ability to supply an enormous amount of milk. One of these animals, a grade Ayrshire, gives 14,000 pounds of milk a year. In comparison with this and to show it better, a cow of the next car was shown gives but 7,000 pounds of milk per year. In the next stall another animal is shown which is of the beef breed. This cow gives 7,000 pounds of milk a year besides being a good breeder. A magnificent specimen of the beef steer was also in this car. This beast together with the rest of the exhibit was always the centre of an admiring group of visitors, many of whom wished that they possessed such a fine breed of stock.

The next car proved to be a place of great interest containing as it did fungicides and insecticides which as the brown tail moth, the gipsy moth and other injurious insects are at present prevalent in certain districts of the province, proved a great attraction to the gathering. These poisons ranged from arsenate of lead to the most modern and it was shown which remedy to apply to the different pests. Another interesting exhibit in this car was the fertilizer department. Here were shown the best brands to use under existing conditions and the tests by which it could be found in what the soil was lacking.

Fertilizers.
Next to the fertilizer exhibit was the orchard department, showing the correct method to pick apples. In this department the grafting system was fully explained and illustrated with various grafting devices. Pruning devices were also discussed in this department, the visitors securing many valuable hints.

The upper end of this car was given over to the collection of injurious and beneficial insects, plants and weeds. Here, also, was shown that a new disease had been brought over from the Old Country, namely, the potato canker. This disease is incurable and is a great danger to the farmer. It is a germ which will stick to the soil for eight or nine years. In this collection the brown tail moth is also to be found together with several other injurious insects, including the tent caterpillar. The tent caterpillar is at present found in large numbers throughout the province, this being due to the fact that the ichneumon flies have died off owing to the scarcity of their natural enemy, the tent caterpillar, during the past few years. This is conclusive proof that this pest is not here to stay, as the ichneumon flies will breed in large numbers, killing the pest off for good.

Wm. McIntosh, who is connected with this exhibit, stated that if it were not for the birds and beneficial insects, all life would cease inside of three years' time.

Dairy Work.
An extremely important part of dairy work was illustrated in the next car. In this exhibit the necessity of testing the milk producing capacity of each cow in a herd was proved by actual experiment. On several farms in Quebec it was shown that this test may be largely carried on it was advised that the farmers form a testing association and when this has been done, it is probable that the government will appoint an expert tester. To this end the farmers belonging to the association will send samples of the milk from each of their cows three times a month to the tester. From this test they will know which cow pays a profit. This department attracted many interested people to whom the plan strongly appealed. The cereal exhibit was one of the most interesting on the train. Here were shown the different kinds of oats, wheat, barley, alfalfa, corn and vegetables. This exhibit proved the means of all who were in search of pointers as to the most suitable grains for their land.

To prove that the farmer loses a vast amount of profit if the crops are not put in early, a grain which was planted five weeks apart was shown. The amount of grain in these tubes varied according to each planting gave a ratio amount to each tube in a descending scale.

The alfalfa is another crop in which great interest was taken. It is possible under good management to take two crops of alfalfa a year and sometimes three. Success barley has proved a great aid in the growing of alfalfa, as it makes a first class nurse crop. The farmers of this province are making a mistake in selecting western oats for seedling purposes. At present there is a thousand bushels of this cereal in the province. The western oats when compared with the eastern oats are found to be much less full and strong and usually frozen. Another point against the western oats is that they are usually mixed with more or less wheat.

Interesting Lectures.
Besides the exhibit cars the train carries two lecture cars, both of which were crowded with interested farmers. Lectures were given by experts as follows:—Dairy stock, by Professor Reid, of McConville College, and by G. H. Cutler, potatoes and fertilizers, by Professor W. S. Blair; special regulations for fruit growing and marketing, by E. L. Foster, Domestic Fruit Inspector; injurious insects and their prevention, by Wm. McIntosh; poultry raising, by Professor Joubert; and the use of the microscope, by Dr. G. D. Babbiker, of the University of Chicago.

While the Better Farming Special was at Norton the Central Railway ran a special train down from the city to Hampton, where it was used to accommodate the large number of people from that place and the surrounding country. What at Hampton Dr. Lantry, Provincial Minister of Agriculture, paid a visit to the train and complimented the instructors on the good work which they were doing. During the afternoon the children of the Consolidated school marched to the train, and after being shown the exhibits, they were taken to the lecture car where they were given an interesting and instructive lecture on farm work. About 500 people visited the train during the afternoon.

PERSONAL.
Rev. E. C. Hennigar, who has been engaged in missionary work in Japan for the past seven years, arrived home on Tuesday on a year's furlough and is visiting his parents Mr. and Mrs. E. S. Hennigar, Orange street. Rev. Mr. Hennigar who is a graduate of Mount Allison University, left Japan about four months ago and went to India where he spent a week. He then went to Egypt, Palestine and Italy, crossing from Italy to England and spending three weeks in London.

G. D. Babbiker, of Montreal, passed through the city yesterday on his way to his home after a successful business trip through the Annapolis Valley.

Robert Bartlett, Peter street, left by C. P. R. last evening for Mount Asak, where he will join Alex. D. McLean, son of Isaac McLean, and engage in ranching.

Miss Daphne Crosby returned yesterday from Halifax where she has been attending the closing exercises of the Ladies' College.

Hospital Commissioners Meet Today.
A special meeting of the Hospital Commissioners of the city will be held this afternoon to open tenders and award contracts for supplies for the year.

OBITUARY

James McLellan.

On Saturday, June 22nd, the death occurred of James McLellan, at East Florenceville, at the advanced age of 90 years.

The deceased was formerly a resident of St. John West, and was a ship builder.

He leaving an aged widow, two sons, Harry, of West St. John, and George, of St. Stephen. Also two daughters, Mrs. Harry Kimball, of Oromocto, and Mrs. E. P. Smith, of East Florenceville, at whose house he was at the time of his death.

The funeral took place from the residence of E. P. Smith on Monday June 24th, the service being conducted by the Rev. J. G. Turner.

The remains were taken to Fairville, Monday and were interred in the Fernhill cemetery.

A. W. Orchard.

The death occurred at Cambridge, Queens county, on June 19, of Abraham W. Orchard. The deceased was born in the 16th year of his age, leaves a widow and three children, James B. of Houlton, Me.; L. Hazel, and Don P., at home, also eight brothers and two sisters. The brothers are John C. and Arthur W. of Chipman, Queens Co.; Charles, of Fredericton; Robert D., of East Cambridge, Mass.; Harry H. and Delama M. of Houlton, Me.; Frederick W. of Mill Cove, Queens Co.; and Melburn, of Bar Harbor, Me. The sisters are Mrs. W. H. Clark, of Jemseg, Queens Co., and Mrs. Lydia Barton, of Cumberland Bay, Queens Co.

Mrs. Nancy Howlett.

Special to The Standard.
Andover, June 26.—One of the old residents of the community, Mrs. Nancy Howlett, died at her home in Andover, early this morning, as a result of paralysis at the age of 82. The shock was sustained last Thursday, when she fell from a chair. She was the daughter of Mr. and Mrs. James Bishop, pioneers in the district. She is survived by three sons, James, a former warder of the county, and ex-County Councillor for Andover, and Milford of Fairville and William of Andover. She was buried tomorrow in the cemetery at Fairville.

Mrs. Walter W. Chamberlain.

After a lingering illness Mrs. Jennie Chamberlain, wife of Walter W. Chamberlain, died at her residence last evening. Besides her husband she leaves four brothers and two sisters to mourn. The brothers are Ois J. Clark and Charles M. Clark, of St. John; Howard Clark, of Model Farm, Kings Co.; and Ernest Clark, of Quispamsis. The sisters are Mrs. Annie Pike of St. John and Mrs. Netta Waugh, of York county. Mrs. Chamberlain was a daughter of the late Nathan Clark, of Model Farm, Kings Co. She was in her 42nd year and though she had been ill for a long time her death was a surprise to her friends and relatives. She was a member of the Calvin Presbyterian church.

The funeral will take place on Friday at Jubilee, Kings Co., after the arrival of the noon train.

MANY AT FUNERAL OF REV. DR. ROBERT WILSON

The funeral of the late Rev. Dr. Robert Wilson, D.D., took place yesterday afternoon from his residence 289 Rockland Road, and was very largely attended. Rev. T. J. Deland, acting pastor of the Portland Methodist church, officiated. The service was held at the home of the deceased, where a large number of friends and relatives gathered. The funeral was held at 2:30 p.m. and was attended by all of the Methodist ministers and by many friends of the deceased clergyman. The order of service was as follows:

Hymn: Rock of Ages.
Prayer: Rev. G. A. Ross.
Quotation: "No Man is an Island."
Hymns: H. G. S. Adams, Ernest Thomas and Rev. H. E. Thomas.
Reading of Scripture, 90th Psalm.
Rev. W. A. Brewer, revelations 7th Chapter, 9th to 17th verse, Rev. H. E. Thomas.
Address: Rev. J. L. Dawson, chairman of the St. John district, Rev. Wm. Lawson.
Reading of burial service: Rev. Dr. Wilson.
Hymn: "Forever With the Lord."
Benediction.
The pallbearers were, Revs. H. E. Thomas, George T. Adams, Wm. Lawson, Harold Roe, Robert Smart, J. J. Pinkerton.
Among the many floral tributes was a beautiful set piece of roses, gladioli and ferns from the St. John Methodist church. Other floral offerings were from individual friends. The service at the house was at 2:30. The interment took place in Cedar Hill.

FUNERALS.

Michael Brayson.
Andover, June 26.—The funeral of Michael Brayson, of Fairville, one of the best known citizens of Victoria, was held this morning. The service was held at Clearview, Mr. Brayson was 66 years of age and unmarried. He was born at Fairville, where by hard work and thrift he accumulated wealth estimated at about \$50,000. The death of the deceased yesterday was very sudden. Having taught colts to come to the porch of his house and feed from his hand Mr. Brayson was caring for his pets in this way when he dropped dead because of heart failure. He had been suffering from Bright's Disease. The remains will be taken to Fairville, the other at Easton, Maine.

WINDSOR TABLE SALT.
"No man, there's nothing in it but salt—pure, clean, wholesome salt—and all salt."
"Everybody around here uses Windsor Salt, and I don't believe this store could sell any other salt—we like to sell Windsor Salt because we know it will please our customers."

JUNE WEDDINGS

Baird-Edgcombe.
Fredericton, June 26.—One of the most brilliant home weddings to take place in Fredericton this nuptial month was celebrated this afternoon at 4:30 o'clock at the residence of Mrs. Albert W. Edgcombe, King street, when her second daughter, Miss Edith Knowles Edgcombe, one of Fredericton's most popular young ladies, and for several years past a member of the teaching staff of Gibson school, was married to G. Fred Baird, B.Sc., son of Senator Baird of Andover, and now a member of the firm of McPhail and Baird, contractors on the Gibson and Milno Railway. The ceremony was officiated by Rev. N. McLaughlin, pastor of the Methodist church.

Fitzpatrick-Kenny.

Chatham, N. B., June 26.—Another young couple were made happy this morning at the Pro-Cathedral when Rev. M. A. O'Keefe solemnized the marriage of Miss Ella Kenny, daughter of Richard Kenny, and John Fitzpatrick of Nelson. The bridesmaid was Miss Tina Kenny, sister of the bride. The groomsmen were Mr. and Mrs. John Fitzpatrick. After the ceremony the bride and groom were taken to the home of the bride where a dainty wedding breakfast was served. The bride was the recipient of a large number of presents, testifying to the popularity she enjoys. Mr. and Mrs. Fitzpatrick will reside in Nelson.

Stirling-Cotter.

A wedding of much interest was solemnized yesterday morning at 8:45 a.m. in the Church of Our Lady of Good Counsel, Rothesay, when Rev. D. S. O'Keefe married Miss Cecilia J. Cotter, second daughter of the late Patrick and Mrs. Cotter of Rothesay, and William Ernest Stirling of St. John. The bride, who was given away by her brother, looked charming in a tailored suit of navy blue, blue hat with white sprays and carried a bouquet of white roses. The ceremony was performed by Rev. D. S. O'Keefe. After the ceremony the bride and groom, who are deservingly popular, were the recipients of a number of costly presents. Best wishes for their future happiness.

After breakfast Mr. and Mrs. Stirling left on a wedding trip to Prince Edward Island, returning through Nova Scotia via the D.A.R. and Annapolis Valley. On their return they will reside on Rockland Road.

Milton Codner.

The marriage of Miss Edith Louise Codner to Arthur Reginald Milton took place Tuesday evening. The ceremony was performed by Rev. R. A. McKinnon, the residence of the bride's parents, Mr. and Mrs. Henry Codner, Millville. Miss Gladys, sister of the bride, was bridesmaid. James Robinson supported the groom.

Andrews-Shaw.

At 6:30 o'clock yesterday morning, Rev. David Hutchinson, D. D., united in marriage Miss Lillian Shaw, daughter of William H. Shaw, and W. J. Walker Andrews, travelling for W. H. Thorne & Company. The ceremony was conducted at the home of the bride, Main street, in the presence of immediate friends and relatives. The young couple were married under a canopy. The bride looked charming in a dress of cream duchess satin, trimmed with lace and carried a bouquet of white carnations. The groom wore a tuxedo and carried a white carnation.

Chittick-Belley.

A very pretty wedding took place yesterday afternoon in the Ludlow street Baptist church, Carleton, when Miss Christina Pearl, daughter of Mr. and Mrs. E. Belley, became the wife of Albert E. Chittick. The ceremony was performed by Rev. W. R. Robinson. The bridesmaid was Miss Effie Belley, sister of the bride. John Guild was groomsmen, the ushers for the occasion being A. D. MacKenney and R. H. Parsons. Mr. and Mrs. Chittick will reside at 112 Harrison street.

Coffey-Hayes.

John T. Coffey, son of Mr. and Mrs. W. J. Coffey, Pine street and Miss Mary, daughter of Harry Hayes, 122 Marsh Road, were married in the Cathedral yesterday morning. The ceremony was performed by Rev. A. W. Meahan. After the ceremony a wedding breakfast was served at the home of the bride, when Mr. and Mrs. Coffey went to their future home, 563 Main street.

O'Leary-Walsh.

A wedding of more than ordinary interest took place at 6:30 yesterday morning in the Cathedral of the Immaculate Conception. The principals were Francis O'Leary, one of the most popular members of the police force, and Miss Nellie, daughter of Mrs. Mary Walsh, 42 Brussels street. The ceremony was performed by Rev. A. W. Meahan in the presence of a large gathering of the most intimate friends and relatives of the families immediately concerned. The bride was given away by her brother, Leo Walsh. She wore a beautiful costume of mauve silk with white hat and carried a bouquet of white roses. Her sister, Nellie Walsh, who acted as bridesmaid, was dressed in white with a

COOKING help from across the seas.

Edward's Soups are the next best things to having an Edward's expert in your kitchen to make the Soups, Sauces, Gravies, Stews, Meat Pies and Hashes.

EDWARDS' SOUPS
DESSICATED SOUPS

cost only 5c. a package and are invaluable for making all sorts of tasty, delicious dishes. They thicken up the thin soup—add body to the stew—enable you to use up "left-overs" in many appetizing ways. Just try Edward's Soups, and see how much work and money they can save you.

5c. a package
and more inexpensive still in 15 and 25c. tins.

Edward's Soup is made in three varieties: Brown, Tomato, White. The Brown variety is a rich, nourishing soup prepared from best beef and fresh vegetables. The other two are purely vegetable soups.

WM. H. DUNN,
296 St. Paul street, Montreal. Representative for Quebec and Maritime Provinces.

OXO CUBES

Oxo Cubes are what the cook is always wanting. They enable her to make delicious appetizing dishes out of odds and ends. They make soups, gravies, hashes—rich and tasty. They take the place of meat for aspic jellies, and are altogether indispensable in the kitchen.

3. The following promotion is made in No. 4 company, to be Bombardier Gunner Gibson.

By order,
BEVERLEY R. ARMSTRONG,
Major, Adj. 3rd Regt. C. A.

To Regain a Healthy, Girlish Complexion

(From the Feminine World.)

If you would have a clear, fresh, girlish complexion, one ounce of ordinary mercurized wax will aid you in this. Mercurized wax is a substance which is rich in vitamins. It produces a natural beauty. This wax, procurable at any drugstore completely absorbs a bad complexion, revealing the healthy young skin underneath. Its work is done so gradually, day by day, that no inconvenience is caused. The wax is applied at night, like cold cream, and removed in the morning with soap and water.

Another valuable rejuvenating treatment—if you have wrinkles, or your skin is flabby and saggy—is to bathe your face in a solution of powdered salolite, 1 oz. dissolved in 1/2 pt. with water. This has a remarkable action in smoothing out the lines and "firming up" the loosened tissue.
