BUT ENGLAND GETS ALL THE BIG ORDERS

Captures Shipping Orders of
World Despite Advantages
Which Herr Ballin Claims
Germany Possesses.

Montreal, April 15.—A Berlin cable quotes Herr Ballin, director-general of the Hamburg-American Steamship Company, as saying that "our ship building prices are cheaper, our delivery times are more reliable than those of British shipyards, and the quality of our workmanship is in every respect on a par with Great Britain's best."

But he denounces the fact that England, despite Germany's before-mentioned advantages "with minor exceptions, invariably captures the shipping orders of the whole world."

Herr Ballin alleges that in consequence of the deplorable labor conditions, a leading English dockyard only reluctantly commit themselves to definite delivery dates. Herr Ballin adds: "We seem to forget that our expanding industries require an eternally widening market. Our great opportunities in foreign markets are all the time more gravely imperilled. I will not even speak of things now taking place in the near east, but no two opinions can any longer prevail about the fact that we have already been thrown out of the most important districts there, even if we succeeded in rescuing the remnants."

MEMORIAL TO STRATHCONA IN WESTMINSTER

Circular to Canadian Resi-
dents in England Favors the
Idea — Premier Asquith
Heads the Committee.

London, April 15.—A memorial window and tablet in the late Lord Strathcona in Westminster Abbey is a proposal being made by a strong influential committee which during the past three months has been considering the question. The appeal is now made by circular to the Canadian residents in Britain, together with others associated with the Dominion to contribute to the project.

There is a feeling that such a memorial in the Abbey, where the funeral service was held on January 26, would be both suitable and appropriate, says the circular, which adds that the committee has reason to believe that such an offer would be welcomed by the dean and chapter.

The project of the memorial is in the hands of a general committee headed by Premier Asquith, Lord Chancellor Haldane, the Duke of Argyll, Earl of Aberdeen, Earl Grey, Right Hon. Lewis Vernon Harcourt, Sir Charles Tupper and Bonar Law members of the Canadian colony here form the executive committee of which J. G. Colmer and G. C. Cassels are treasurers.

END OF SESSION MAY BE SOONER THAN EXPECTED

Parliament to Hold Morning
Sessions—Some of Legisla-
tion Scheduled for Present
Session May Be Held Over.

Ottawa, April 15.—A sign of the beginning of the end of the present session of parliament is given by a notice of motion by Acting Premier Foster for morning sittings of the Commons beginning on Monday next. The house will meet from eleven o'clock until one with an adjournment until three o'clock for the balance of the session.

It is probable that with a view to bringing the session to a close as early as possible some of the government legislation which it was intended to put through this session will be left over until next session. If it is found that the redistribution bill is likely to cause a long debate, the final passage of the bill together with the providing for the increase in senatorial representation from the west may be deferred until next session. The consolidation of the railway and which is also likely to take considerable time may likewise be deferred. The principal business remaining to be done of a controversial nature is the C.N.R. aid proposals and the passing of supply. The present indications are that prorogation will not be reached before the beginning of June.

MEDICOS CHARGED WITH CRUELTY TO DOGS

Members of Faculty of Uni-
versity of Pennsylvania Under
Indictments for Cruelty
After Vivisection on Can-
nines.

Philadelphia, April 15.—Advocates and opponents of vivisections today crowded the court room to hear the testimony of six members of the faculty medical school of the University of Pennsylvania who are charged with cruelty to dogs after vivisection had been performed.

The indictment against Doctors J. E. Sweet, Alfred N. Richards, Allen J. Smith, Richard Mills Pearce, Alton E. Enslin Taylor, and Edward T. Reichert.

Dr. Sweet was the only one placed on trial today. He pleaded not guilty. He had charge of the housing of animals.

The prosecution of the medical men was brought by the women's society for the prevention of cruelty to animals. Counsel for the society said that the prosecution is not necessary by an attempt to deliver a blow at vivisection but was brought as a means of preventing unnecessary cruelty to animals.

A GREAT PROBLEM PLAY

Preachers, students of social conditions, community workers and men of affairs should see this wonderful drama. It deals with the present; it suggests the future. It introduces the many complex things which are upsetting the social system. For the average man and woman, too, it has a lesson. Of course children could hardly understand it.

RAILWAY ACT BUT MAY BE HELD OVER LONDON MARKET

Intention of Government is to
Prorogue by Beginning of
June at the Latest.

Special to The Standard.
Ottawa, April 15.—It is evident that the present session of parliament is drawing to a close. Today George E. Foster, who is acting premier in the absence of Mr. Borden in the south, gave notice that morning sittings of the Commons will begin on Monday next.

There is a good deal of legislation yet to be dealt with, and it is positive that rather than lengthen out the session unduly, some of it may be left over until next session which will open in the late fall. A good deal will depend on the time the redistribution bill will take. If the debate is prolonged the final passage of the consolidated railway act may be set over as well as the bills to provide for increased senatorial representation for the Western provinces.

It is the intention of the government to get through, if possible, by May 24, so that prorogation may be expected at latest by the beginning of June.

The recount will commence Friday morning. There are upwards of 75,000 ballots to be opened and examined. During the time the recount is going on the whole city administration will be tied up to the great inconvenience of this city.

C.P.R. STOCK ADVANCE ON LONDON MARKET

London, April 16.—Commenting on the fact that Canadian Pacific showed a rise of 3-8 on the day, the financial editor of the Standard says the recovery was largely due to the fact that the market was taking a more favorable view regarding the effect of the recent decision on freight rates.

It is argued that supporting the three transcontinental railways were to lose \$3,000,000 per annum in gross revenues from this change, and estimating working expenses at seventy per cent, it would mean a total loss of not more than \$9,000,000 per annum.

If two thirds of this loss were to fall on the Canadian Pacific it would mean only some \$6,000,000 or about \$600,000 a month, which is not an important matter for a company with so large a revenue as the Canadian Pacific.

MATE OVERBOARD, HAS A NARROW ESCAPE

Farraboro, April 15.—Osborne Forbes, mate of the little schooner Emily had a narrow escape from drowning this morning. The vessel was under sail off Five Islands in a stiff breeze when Forbes went to the rail to draw a bucket of water, and when the bucket filled the sudden jerk drew him overboard. Captain Antle saw him in the water a moment later and jumped into the boat nearly upsetting, but he finally succeeded in getting Forbes into the boat and back to the schooner.

Pain in Top of Head Was Almost Constant

Two Doctors Recommended Surgical Operation as
Only Hope--Wonderful Results From
Dr. Chase's Nerve Food.

Headache is sometimes described as the cry of the brain for more blood. One thing certain, headaches are the usual accompaniment of exhaustion of the nerves and disappears when the depleted nerve cells are restored by such treatment as Dr. Chase's Nerve Food.

What this treatment actually does is to increase the red corpuscles in the blood, or, in other words, make the blood rich in nourishing and building-up qualities.

For this reason the cures effected are both thorough and lasting. They relieve you not only from headache, but also from nervousness, and are obtained at enormous expense to the nervous system. Again and again the headaches return until your nervous system is worn out and helpless. Headaches of mind and body result.

Mrs. T. Gray, farmer's wife, Earlton, New Ontario, writes:—"I had nerve trouble, and was much run down. I suffered terribly from headaches, and my eyesight was so bad I could scarcely read or sew. The pain in the top of the head was almost constant. Two doctors found they could not help me, and wanted a surgical operation."

"I had heard of many being cured by Dr. Chase's Nerve Food, and decided to try it. Altogether, I used six boxes, and with the most marked benefits. They did me good in every way. It was not long until I was about and doing my own housework."

Dr. Chase's Nerve Food is the greatest of nerve restoratives. 50 cents a box, 6 for \$2.50. All dealers, or Edmondson, Bates & Co., Limited, Toronto.

VESSEL ASHORE IN HEAVY GALE

Unidentified Three Masted
Schooner Struck on Jersey
Coast--Not Known How
Many Aboard.

Seabright, N. J., April 15.—In the heavy gale which blew along the coast tonight an unidentified three-masted schooner struck near here and was carried a mile down the coast to Gallies, where she stuck fast, flashing signals of distress and exploding rockets. West End, North Long Branch, and Monmouth Beach stations sent life saving crews. Tremendous combers and a seventy mile an hour wind, however, made it too perilous for boats to be sent out.

A breeches buoy was rigged out and after many futile attempts the life savers succeeded in getting a line across the schooner's bow.

At a late hour the identity of the vessel and the number of persons on board had not been learned. The rescuers were planning to send one of their number in the breeches buoy out to the ship.

A WONDERFUL CURE OF AN ABSCESS BY Burdock Blood Bitters.

Mr. A. W. Dryden, Amherst, N.S., writes:—"I am going to tell you what Burdock Blood Bitters has done for me. I had an abscess on my cheek bone. I took him to a doctor in St. John, N.B., and he lanced it, and told me it would keep it squeezed out. It did not seem to get any better, so my wife took him back. The doctor told her to take him home and it would soon get better. It would gather and break, and it went on that way until he was over four years old."

"He lost four pieces of bone out of where it was lanced, and two pieces came from his mouth, he has lost all of his chest bone, and his eye was drawn down. I took him to doctors in St. John, Moncton, and Amherst, and all wanted me to let him go under an operation. He was so small I told them that if he was going to die he might as well die as he was, so to go there and he all cut to pieces, so I declined to have the operation done. I told them I was going to try Burdock Blood Bitters, as I had heard my mother talk so much about it. I got a bottle, and when it was about half gone noticed it was doing good, and before many days the sore stopped running, and healed up, and the abscess has never broken out again. This happened nearly six years ago, so you can see I have great faith in Burdock Blood Bitters, and I can say with all my heart that it is the best blood medicine in the world."
