Manly Strength Self-Help Book Free

It matter not who, any man, young or elderly, needing more vital strength, who is not quite the man he should be, who feels himself weakened as a result of past practices and excesses, can, beyond the shadow of a doubt; hope for self-restoration of his lost or weakened powers if he is willing to make a fair, square effort along certain perfectly natural lines (of which he can easily learn), and will lead that sort of a decent existence which Nature demands that all of us SHALL lead, if we are to prove up to the normal standard of vigor and manly capacity, as we see it exemplified in the best men of the world today.

SANDEN, Author.

Real, sturdy, vigorous manhood never counted for more than it does today. If you are strong, vital, manly, the whole world appreciates you; if you are a weaking—well, it is a dark time, this age of ours, for the one who must stand aside To my mind a vigorous, stronguerved, manly man is one of the greatest inspirations in the world, because the very force of his character and manheod makes itself felt wherever he goes or wherever he may be. What he does he does well, and his reward is in proportion to the strength and sturdiness

alertness of a brain which is fed by
the vital energy of the man it belongs to.

It seems to me that any man, unless he is bowed down by extreme
old age or by some consuming malady, may increase his physical and
vital strength if he really WANTS
to and is willing to make the right
test of a conscientious effort in the
right direction and along right lines.
We manufacture a little mechanical appliance called the Sanden

to learn, because some day you
may want to use one.

This little Vitalizer is not expected to do its work unsided, but is
meant to act as a powerful assistant
to Nature and to the man who wants
more vitality or vigor and is willing
to do his part in regaining it.

You simply buckle the Vitalizer
comfortably on your body at aight
when you retire to bed. It starts
its work at once. It sends a stream
of a certain silent, penetrating power which we call Vital Force into
the body, your kidneys, liver, stomach, bladder, nerves and blood while
you sleep. Men everywhere have
said it takes that nervous weakhees
