The Paris correspondent of the Morning Post says it is not true as some journals represent that the French Government has taken any steps to bring about a reconcition between the North and South.

The speech delivered by Mr. Massey imber of Parliament, before his constitutnts at Salford, in which he advocated that European powers should interfere to close ie struggle by recognizing the Confederates nd breaking the blockade, attracted some attention. The Times in an editorial says let France interfere if she likes. England's true policy is to suffer a little longer, and t events work themselves out. It will not be long. It may indeed be doubtful whether our interferance would not rather retard than hasten the desired event of open ed ports, and a large supply of cotton. Let
