TO TAKE MILDEW FROM CLOTHES.—Mix soft-soap with powdered
wash, half as much salt, and the juice of a lemon; lay it on the part with a
wash; let it lay on the grass, day and night, till the stain comes out. Iron-
stains may be removed by the salt of lemons. Many stains may be re-
moved by dipping the linen in sour buttermilk, and then drying it in a hot
sun; wash it in cold water; repeat this three or four times. Stains, caused
by acids, may be removed by tying some pearlsh up in the stained part;
then some soap in cold, soft water, and boil the linen till the stain is gone.

FLAX PUDDING.—Add five tablespoonfuls flour, three eggs, a little salt and
boiling to a quart of boiling milk; stir it ten minutes—then pour it into a
cup and put a cup of white sugar over it while hot—to be eaten cold.
