This acreeable yet potent preparation is especially adapted for the relief and cure of that class of disorders attendant upon a low or reduced state of the system and usually necompanied by Pallor, Weakness and Palpitation of the Heart. Prempt results will follow its use in cases of Sudden Exhaustion arising from Loss of Blood, Actice or Chronic Diseases, and in the weakness that invariably accompanies the recovery from Wasting Fevers. No remedy will give more speedy relief in Dyspepsia or Indigestion, its action on the stomach being that of a gente and harmless tome exciting the organs of digestion to action and thus affording mimediate and permanen relief. The carminative properties of the different aromatics which the Einzir contains render it useful in Flatulen Dyspepsia. Which is apt to occur in persons of a gouty character.

For Impoverished Blood, Less of Appetite Despronency and in all case, where an effective and certain stimulant is required the Elixir will be found invaluable. In Fevers of a Malarial Type, and the vanous evil results following exposure to the cold or wet weather, it with prove a valuable restorative, as the combination of Cinciona Calisaya and Serpentaria are universally recognized as specifies for the above-named disorders.

At the second shot, Mr. Wyville looked at the second shot, Mr. wythe looked at the soldiers with a face affame with indignation.
