"Come, Willie," said his mother, "don't be so selfish. Let your little brother play with your marbles a while."  
"But," protested Willie, "he means to keep them always."  
"Oh, I guess not."  
"I guess yes! 'Cause he's swallowed two o' them already."

Mrs. Muggins—I'm going to buy some neckties for my husband.

## HEADACHES

Were Caused By A Sour Disordered Stomach

Mr. James McLaughlin, Bracebridge, Ont., writes:—"In order to let you know what Milburn's Laxa-Liver Pills have done for me, I am writing you.  
"About a year ago I was troubled a great deal with a very sour disordered stomach and had terrible headaches, that were so bad I could scarcely do my work.  
"One day in telling a friend who had used your pills before how I felt, she told me to try them, which I did and to my great surprise after using one vial I was greatly relieved, and when the second one was finished I was totally cured, and have not been troubled since with either my stomach or the headaches, and I feel greatly indebted, first to the friend and secondly to Milburn's Laxa-Liver Pills for the great relief I derived from their use."  
Price 25c. per vial or 5 vials for \$1.00 at all dealers or mailed direct on receipt of money The T. Milburn Co., Limited, Toronto, Ont.

**EXCURSION TO WESTERN CANADA.**  
The Grand Trunk Railway System announce that on Tuesday, August 22nd, September 5th and 19th, 1911, Home-seekers' Excursions will be run from all stations in Ontario and Quebec to Western Canada, via Chicago and Duluth, or via Chicago, St. Paul and Minneapolis, at reduced round trip fares.

The well-known double-track line of the Grand Trunk from the East to Chicago appeals to the traveller, and with the superior train service that is offered by this line, including the famous "International Limited" from Montreal daily at 9.00 a. m., which is the finest and fastest train in Canada, many passengers will be attracted this way. The route via Chicago is a most interesting one, taking passengers through the principal cities and towns in Canada and in the States of Michigan and Indiana. In addition to this a choice of seven lines between Chicago and St. Paul and Minneapolis is offered.

Owing to the great number of Canadians who reside in Chicago, St. Paul, Minneapolis, Duluth and other cities en route, there is no doubt that the Grand Trunk will find many patrons who will take advantage of the opportunity thus afforded them for a brief visit at the stations with their friends.

Canadian citizens are exempt from so-called immigration examination, and there is no detention at any point.

Baggage is carried through the United States in bond without requiring any special attention on the part of the passenger. Inspection is not necessary at any of the points at the border.

Another feature that will appeal to the homeseeker is the comfortable transfer at points like Chicago, St. Paul and Duluth into freshly ventilated clean cars, avoiding the necessity of travelling a long distance in the same car.

In addition to the above routes, the sale of tickets is also authorized via Sarnia, and the Northern Navigation Company's magnificent steamers across Lake Huron and Lake Superior.

For further particulars, apply to any Agent of the Grand Trunk Railway System, or write to Mr. J. Quinlan, District Passenger Agent, Bonaventure Station, Montreal, or Mr. A. E. Duff, District Passenger Agent, Union Station, Toronto.

### GOSSIP.

**HAMPSHIRE SWINE AND LEICESTER SHEEP.**  
Hampshire swine and Leicester sheep of the highest type and prizewinning qualities of their respective breeds, are the specialties bred by the well-known firm of Hastings Bros., of Crosshill, Ont., four miles from Linwood Station, C. P. R., and eight miles from Newton Station, G. T. R. Imported in large numbers annually from the leading breeders on the other side of the line, their herd of White-belted Hampshires is constantly kept up to a high standard of excellence. This year their chief stock boar in service, Glengoland, bred by E. C. Stone, of Illinois, was second at Toronto, and last year he was first at both Toronto and London. His assistant in service, Canadian Boy, also bred by Mr. Stone, was last year first at Toronto and London. They are an exceptionally large, lengthy pair, with a heap of quality. Among the brood sows is that great one, Our Beauty, five times winner of first prize at Toronto, and as proof of her wonderful prizewinning blood, this year at Toronto four of her full sisters were the quartette that won the \$500 Silver Cup presented by the American Hampshire Association, the five being daughters of one of the greatest sows the breed has ever known. Other great sows are Beauty, first in her class at Toronto; Princess, a full sister, was third at Toronto; Winsome Lady, under one year, was second, and Lady Charming, in same class, was third. Anything in the large and well-selected herd is for sale, from sucklings up. The flock of Leicesters have, by their wonderful record of winnings at the leading shows for many years, proven that there are none better in Canada. For sale are a number of high-class flock-heads and shearlings.

## When The Cow Has Done Her Part

**O**F COURSE it's important that the cow do her part. But after that, it's up to your cream separator. If it doesn't get highest quality cream—if it doesn't skim to a trace—you are robbing yourself of the profit that your cows have produced.

I H C Cream Harvesters get full value out of the milk, not for a few months only, but through years of constant service. They have proved their durability, close skimming, easy cleaning, and easy running advantages.

**I H C Cream Harvesters Dairymaid and Bluebell**

are the only separators with dust-proof and milk-proof gears, which are easily accessible. The frame is entirely protected from wear by phosphor bronze bushings. These separators have large shafts, bushings, and bearings; the flexible top-bearing is the strongest and most effective found in any separator. The patented dirt-arrester removes the finest particles of dirt from the milk before the milk is separated. I H C Cream Harvesters are made in two styles—Dairymaid, chain drive; and Bluebell, gear drive—each in four sizes.

The I H C local agent will be glad to point out the above features and many others, or, write to nearest branch house for catalogues and other information.
