

Men Try my Cure Free!

I ask not one penny in advance or on deposit. I accept your word to pay me when cured.

I know the terrible mental torture of the nervous debility sufferer, but I also know his gratefulness when restored, and that is the basis for my free treatment until cured. Can any such sufferer come to me and be made a man among men, and then refuse to pay a few dollars for aiding him to become so? I say, no, and my wonderful success backs up my judgment. I wish that every sufferer knew that the effect of Electricity upon the weak, debilitated man is the same as rain upon the parched field in summer. He may be debilitated from varicocele, losses, impotency; may have confusion of ideas; fear to act and decide; gloomy forebodings; timid and fretful; avoid friends and company; without confidence in himself to face the slightest responsibility, and let him properly apply Electricity for but a few hours and all these symptoms vanish—giving way to glowing, soothing vigor through every weak part. A few weeks' to a couple months' use of this treatment banish them forever, and make strong, confident, manly men out of the puniest weaklings. For nearly 40 years I have treated

and restored weak men through my world-famed invention, and am still doing so with greater success than ever. In fact, I do not expect to fail in any case of this kind, and therefore as men are more or less skeptical I will continue to give my Herculex

Dr. Sanden Electric Belt Free Until Cured

and as said not one cent is to be paid in advance or on deposit. Call or write and get the belt and use, say for 60 days, and if cured pay me price of belt only—many cases low as \$4—if not cured return the belt and the deal is ended. But I know what the belt will do, and will take the risk of my pay when you are cured. I also give my belts on same terms in Rheumatism, Lamé Back, Stomach, Kidney and Liver complaints, etc. Think of a remedy that has stood every possible test for nearly 40 years—the only one ever successfully given to sufferers on its own merits!

As the originator and founder of the electric belt system of treatment my 40 years' success is the envy of many, and my belts of course are imitated. (What good thing is not?) But my great knowledge to advise and direct my patients is mine alone, and free to all who use my belt until cure is complete.

Call or send to-day for my belt. Or if you want to look into the matter further, I have the two best little books ever written upon Electricity and its medical uses, and send them free, sealed, upon request.

Dr. C. F. Sanden, 140 Yonge St., Toronto, Ont.

Office Hours: 9 to 6. Saturdays until 9 p. m.
Largest Electric Belt Establishment in the World.

We Offer \$1,000

For a Disease Germ That Liquozone Can't Kill.

On every bottle of Liquozone we offer \$1,000 for a disease germ that you cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables;

and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquozone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

- Eczema—Erysipelas
- Fevers—Gall Stones
- Goitre—Gout
- Gonorrhoea—Oleet

- Throat Troubles
- Tuberculosis
- Tumors—Ulcers
- Varicocele
- Women's Diseases

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and \$1.

OUT OUT THIS COUPON.

For this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is.....

I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.

GOSSIP.

The Scottish Farmer of recent date says: "Mr. Robt. Graham, of Bridge-lands, Selkirk, has just shipped, per Donaldson Liner Kastalia, nine head of pure-bred cattle to his brother, Mr. John Graham, Carberry, Manitoba. The lot includes three Shorthorn heifers, bred by Mr. George Lawson, Mains of Fisherie, Banff. They are of the noted Augusta family, and are well-bred, level specimens of the breed. They have been chosen for their deep frames, short legs, and blocky type. They are straight of their lines, and should do the breed credit in Canada. The Aberdeen-Angus lot also numbers three. Two of these are heifers bred at Mounthlairy, and one has a promising bull calf at foot by the Mulben-bred bull Pressgang. This youngster is full of promise, and likely to develop into a good sire, both from his breeding and appearance. The two heifers are close relations of the trio which did so well at Winnipeg Exhibition, where they stood first, second and third in their class, shortly after reaching Canada. The members of the present lot are straight in their lines and true to type, and they should be heard of in future. Mr. Graham also sends out three Galloway bulls, bred by Mr. Drynan, Knockiebae, New Luce. They are all yearlings, and of good size and first-class quality. Wargrave of Knockiebae (9171), one of the lot, won first prize at Newton-Stewart Show in 1904. Trade in Shorthorns is exceedingly quiet in Canada at present, and exporters have no encouragement, in face of the great demand from South America, which has raised the prices above the Canadian level."

THE THOROUGHBRED IS THE ARMY HORSE SIRE.

John S. Bratton, one of the best-known horsemen in the West, said:

"When the British Government first looked around for a place to buy remounts for the troops in South Africa, their attention, of course, was attracted to the United States. Captain Marsham, the Chief of the Remount Department of the British Government, who was the first to come to this country for the purpose of purchasing horses, told me that their attention was drawn to Missouri, on account of the long periods of racing. He further told me that they could buy a better class of horses for cavalry purposes in the neighborhood in which there were several race meets, as a great many of the broken-down stallions were sold at a low price to the farmers throughout the country to breed to their mares, and as their Government always tried to get as much Thoroughbred blood in the cavalry horse as possible, they decided that the State of Missouri was the best place to purchase remounts. I sold the British Government myself 18,000 horses in less than two years. My horses were mostly Missouri bred, especially the cavalry horses, for which they paid me \$125 per head for officers' mounts.

"It is beyond all question of doubt, that in order to get a good cavalry horse you must have a strong infusion of Thoroughbred blood. The cavalry horse must have a good shoulder, plenty of neck, and a good head, with plenty of weight-carrying powers. This, of course, we derive from the Thoroughbred, and as Missouri has more Thoroughbred stallions that are bred to common mares than all the other States together in the Union, the United States Government looks almost solely to it for its cavalry supply."

TRADE TOPIC.

BRIDGE ADVANTAGES.—Inasmuch as sounding-board bridges have so much to do with the production of a resonant and sonorous tone in a piano, there is particular interest in glancing at the method of manufacture. For a high-class instrument, such as the Goulay, the bridges are made of many thicknesses of the choicest quarter-cut maple, glued together in continuous bent form, thus avoiding the possibility of splitting under the strain of the strings. Moreover, the Goulay has a third grand brass bridge, which has not hitherto been used in upright pianos, but which has been regarded as a prime necessity in all grands. One advantage is that the middle strings of the instrument are greatly enriched in tone, and that all sections are equalized by tone production.
