ANTIGONISH APRIL 8, 1886.

A correspondent from Hawkesbury sends us the following obituary of a young lady whose memory will long be affectionately treasured by her tenchers and school-mates in St. Bernard's Convent here :-

Miss Minnie McIntyre who had completed her studies at St. Bermard's Convent last Christmas, died at her home here on the 2nd inst. Altho' but 18 years of age, her manyaminble qualities had endeared to her a wide circle of friends by whom her death is regretted as The universal sorrow felt for her on the 28th nit, with 15,000 seals. death, and the candolence with her parents whose only child she was. nessed in Hawkesbary-that fol. of ictims is said to be 442. lowed her remains to the grave. Owing to the National Policy the manufacturing power of the country had increased more rapidly than Mr. Editor, had been anticipated. Our own manufacturers now supplied the inish the revenue.

The net interest charge, in spite of the enormous public works carried on, and completed, was only \$3 000 000 higher than in 1867, or taking into account increase of population, was only 23 cents per head higher than it was 18 years ago. On the same basis it was now 31 cents less per head than in 1878.

The credit of the country had very materially improved. The loans made in 1874 and in 1885 were of the same amount. The loss on the former was \$2,000,000; on the latter only \$140 COO.

The deficit for the present year would probably be \$1,450,000. The surplus for 1886-7 was estimated at \$1,375,000 Arrangements had been made with the C. P.R. Co. by which \$20,000,000 of the loan are to be paid off next July and lands are to be taken for the remaining \$:0.000.000.

The changes made in the tariff. this year are principally in the diad valorem duties in certain cases and increasing the duties on distilled
