Toronto Junction Live Stock.

TORONTO JUNCTION, Aug. 26.—
Receipts of live stock at the Union
Stock Yards were 98 car loads, con-
sisting of 2103 cattle, 2 hogs, 292 sheep
and lambs, 57 calves and 5 horses.

Space on ocean boats not being
scarce, caused a little more activity,
but prices were no better. Exporters,
in the true sense of the word, sold
from 45c to 55c per cwt., the bulk of
the best class selling at 55c to 55 1/2c
per cwt.; common unfinished light-
weight exporters sold from 45c to 55c
per cwt. Bulls sold at 35c to 45c
per cwt.

Butchers.

Outside of two or three loads that
were bought for export, there were
few good well finished butchers' cat-
tle in the market, and more of the
finished class would have sold readily.
Picked lots of prime cattle sold at
\$4.75 to \$5.10 per cwt., but they were
scarce; medium mixed, \$4.25 to
\$4.50 per cwt.; common, \$3.25 to \$3.55;
cows \$2 to \$4 per cwt. One load of
the best heifers seen on the market
for some time, 1160 lbs. each, that
cost \$5.25 in the country, were not sold
as not being desired to pay the
price paid to the farmer.

Feeders and Stockers.

One load of 900 lbs. feeders sold at
\$3.25 per cwt., which were reported to
be good quality stock.

Milkers and Springers.

There were 3 choice milkers sold at
\$55 each, and another lot of 10 milkers
and springers, at \$30 to \$50 each.

Veal Calves.

Prices of veal calves ranged from
\$4 to \$6 per cwt.

Sheep and Lambs.

Export sheep sold at \$4.50 to \$4.75
per cwt. for ewes; bucks at \$3.50 to
\$4; lambs at \$5 to \$5.15 per cwt.

Hogs.

H. P. Kennedy reports selects at
\$6.50 with lights and fats at \$6.25 per
cwt.

A REAL SEWING ROOM.

Necessity For Some and Luxury For
Others.

Happy is a woman who can have a
real sewing room, a place where all
stitching materials may be kept to-
gether in apparent disorder, yet each
where she can put her hands on it in
a moment when the season's rush is
on.

If the room be no larger than to
give place for machine, worktable and
chair she may still rejoice, for scraps
may fall to the floor unheeded, and
picking up every moment is unneces-
sary. To be quite ideal there should
be a place for a chest of drawers, and
a long mirror should hang so that the
bottom of skirts may be seen easily
during a fitting.

Sewing is work that should be made
as easy as possible, and the first step
in this direction is to cover the floor
and simplify cleaning. Best of all is a
covering of unbleached muslin. This
should be stretched in breadths and have
loops at the corners only if the room is
small. If fairly large more loops in
between will be required. Put thumb-
screws into the floor at spaces to cor-
respond with the loops. Put down the
muslin and fasten it to the screws.

This will hold it firmly enough in place,
and yet at the end of the day, when
hundreds of tiny scraps and pieces have
fallen, the muslin can be lifted easily
and shaken into the trash barrel, thus
entirely doing away with sweeping.

The sewing machine should be well
placed for light, and an open mouth
muslin bag hanging at one end will
serve as a receptacle for scraps that
might otherwise fall.

The machine chair should be a
straight one and perfectly comfortable
when the seamstress is sitting prop-
erly. A low rocker to use when doing
hand sewing makes a pleasant and
restful change from the stiff, straight
one.

TO PACK A TRUNK.

How the Task May Be Accomplished
With Ease.

In the first place have the trunk
where it can be easily removed by the
expressman.

Underwear, shoes and stockings and
other things which do not rumple easily
should be placed first and articles re-
quiring more care afterward.

Take each piece of clothing separat-
ly, lay it down and fold it neatly and
as tightly as possible, avoiding lumps
and wrinkles.

Begin to pack at the upper left hand
corner of the trunk and remember the
order in which you place each separate
class of articles.

Lay the sleeves flat and fold the
gowns just the length of trunk. Silk
frocks and others of which you wish
to take special care would better go
in the bottom tray, folded lengthwise
and then through the center. Place
properly all plaids, folds and orna-
ments and put a newspaper neatly
over all to protect them from the dust
and rubbing.

Before locking the trunk sit down
and take a mental survey of the things
you have put into it.

You may find that something has
been forgotten or that you have packed
the bottles which are likely to break,
or that your purse or ticket has been
put in.

Wait until the last moment before
turning the key and then put the latter
at once into the pocket of the bag
you will carry, thus avoiding all possi-
bility of leaving it behind.

HOUSEKEEPING HINTS.

Needles and pins will never rust in a
cushion filled with coffee grounds.
Four the coffee from the grounds and
rinse them in cold water. Let them
dry thoroughly before using.

The bent point of a sewing machine
needle may be sharpened on a whet-
stone and need not be discarded.

Put a small bag of talcum powder
in a box with a cover and keep in the
workbox to rub on the fingers when
they perspire.

When you have occasion to use plas-
ter of paris, wet it with vinegar in-
stead of water, then it will be like
putty and can be smoothed better, as
it will not "set" for half an hour,
while plaster wet with water hardens
at once.

To string very fine beads, cut one
strand of silk thread a little longer
than the rest. Wax and twist firmly.
This can be threaded through fine
beads without using a needle.

Care of Eyeglasses.
It is unfortunately a very common
practice with wearers of glasses to re-
move them from the eyes, breathe on
them and then wipe them with a clean
handkerchief. This is a most slovenly
habit, and not only that, but it will
have a tendency to make the glass
grimy and consequently injurious to
the eyes. Glasses should be washed
as often as is necessary in water as
hot as would be used for table glass.
A little ammonia may be added to this
water and the lens should be very care-
fully wiped on a soft cotton or linen
fabric. Thus treated they will be kept
perfectly clean. They should never be
put in the pocket without a case, for
if the frame becomes even slightly bent
the lens will not be true and the eyes
may suffer from their use.

To Flavor Steak.

A French cook rubs her broiler light-
ly with the cut side of a clove of garlic
before putting the steak on it for broil-
ing. When she pan boils the steak she
flavors the frying pan in the same way.

Another invention of the French
housewife is cold chicken cut into thin
slices, dipped into a fritter batter and
fried in deep fat. They are served very

"The Blood Is The Life."

Science has never gone beyond the
above simple statement of scripture. But
it has illuminated that statement and
given it a meaning ever broadening with
the increasing breadth of knowledge.

When the blood is "bad" or impure it
is not alone the body which suffers
through disease. The brain is also
clouded, the mind and judgement are
affected, and many an evil deed or impure
thought may be directly traced to the
impurity of the blood. Foul, impure blood
can be made pure by the use of Dr.
Pierce's Golden Medical Discovery.

It cures and purifies the blood thereby
curing, pimples, blotches, eruptions and
other cutaneous affections, as eczema,
leider, or salt-rheum, hives and other
manifestations of impure blood.

In the cure of scrofulous swellings, en-
larged glands, open eating ulcers, or old
sores, the "Golden Medical Discovery" has
performed the most marvelous cures. In
cases of old sores, or open eating ulcers,
it is well to apply to the open sores Dr.
Pierce's All-Healing Salve, which pos-
sesses wonderful healing potency when
used as an application to the sores in con-
junction with the use of "Golden Medical
Discovery" as a blood cleansing consti-
tutional treatment. If your druggist
don't happen to have the "All-Healing
Salve" in stock, you can easily procure it
by enclosing fifty-four cents in postage
stamps to Dr. E. V. Pierce, 663 Main St.,
Buffalo, N. Y., and it will come to you by
return post. Most druggists keep it as
well as the "Golden Medical Discovery."

You can't afford to accept any medicine
of unknown composition as a substitute
for "Golden Medical Discovery," which is
a medicine of known composition,
having a complete list of ingredients in
plain English on its bottle-wrapper, the
same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate
and invigorate stomach, liver and bowels.

Buying Cooked Food.

In France it is a common thing for
the wife to be out at work as well as
the husband. From
