## ONE LOCAL PLAYER REACHES SEMI FINALS

In Nova Scotia Tennis Championships—All Wolfville Players Make Fine Showing

In the Nova Scotia Tennis Championships which have been played during the past week on the courts of St. George's Club, Dartmouth, the Wolfville representatives made a fine showing and were only defeated by some of the best players in the province. Austen Chute was the only one to reach the semi-finals, but the others had the misfortune to come up against better players earlier in the contest.

On Thursday last Dr. Leslie Eaton and R. W. Tufts met in the singles, the former winning after three sets, 6-2, 6-3, 6-3. Chute defeated G. Neary, Kentville, 6-3, 7-5. Dr. deWitt and R. W. Tufts lost to J. LeMoine and R. Webster, Amherst, 2-6, 4-6.

On account of rain there were no matches on Friday and Saturday, but playing was resumed on Monday, when A. Chute defeated A. Bailey, St. Georges, 6-1, 6-0; and Dr. Eaton and Chute defeated R. Fielding and E. Fielding, Waegwoltic, 6-3, 6-4.

On Tuesday Chute won two more matches, defeating G. U. Calhoun, Amherst, 6-1, 6-2; and H. Edwards, Waegwoltic, 6-2, 1-6, 6-0. In three hard fought sets Dr. Eaton lost to J. Butler, Bedford, 3-6, 3-10. Butler is today playing in the finals with J. C. Edwards, Halifax, who yesterday defeated A. Chute, 6-0, 6-3, in the semi-finals. In the double Eaton and Chute lost to LeMoine and Webster, Amherst, 6-2, 6-1, the same team that defeated deWitt and Tufts. The Amherst team lost to Butler and Edwards, who are today playing in the finals with A. C. Wiswell and J. W. Allen.

## PARTIES AT TOURIST CAMP

There have been quite a number of camping parties at the Tourist Camp during the past week, and all who have been entertained have expressed themselves as much pleased with the convenience furnished. Although a register has been provided and visitors are asked to record their names and address a comparative few have so far complied. The register shows that since our last issue the following persons have been at the camp, although the caretaker assures us that many more, including several parties, have spent some time there:

Aug. 17.—Doris Goddard, Boston, Mass.; Arnold Brooks, Weymouth; Florence Goddard, Reading, Mass.; Mr. and Mrs. Fred M. Shearer, Middle-Low, Conn.; Mr. and Mrs. Harley Brooks, Weymouth; Mr. and Mrs. Frank E. Goddard, Boston; Mr. and Mrs. F. W. Shearer, Middletown, Conn.

Aug. 19.—Mr. and Mrs. B. Arnold and son, Verdun, Michigan.

Sir Adam Beck, creator and architect of Ontario's great hydro-power system, chairman of the Ontario hydro-electric power commission, noted horseman, and probably the best known man in that province, died shortly before midnight on Saturday, from pericardial anaemia, in his 68th year.

## BRITISH NAVAL EPIC SHOWN IN FILM TO THE MINUTEST DETAIL

"Zebrugge", the film reconstruction of the naval epic of St. George's Day, 1918, is going to route cinema audiences to great enthusiasm. The producers, who had the assistance of the British Admiralty and the Belgian authorities, tell the full story straight from beginning to end, vividly, clearly and gloriously. In other show how the submarine was developed and the necessity for destroying or bottling up the "nest" at the mouth of the Bruges Canal, the producers included some striking pictures of the actual sinking of British ships, which were obtained through the capture of a U-boat. The preparations for the attack and the life of the young men volunteers during the waiting period are depicted in detail, and then comes intense drama—the landing of the Mole from the Vindicator, the blowing up of submarine C-3 under the viaduct, the sinking of the blockships, and the brave part played by the Mersey ferryboats, Iris and Daffodil. The film emphasizes the magnificence of the navy's feat as a whole, and by its faithful reproductions of individual heroism that won V.C.'s sets one wondering at the galaxy of men in war, in a class by itself as a moving picture. "Zebrugge" is an achievement of which to be proud. At the Orpheum next Monday and Tuesday.

## PLAN TO GIVE DOMINION EQUAL VOICE IN EMPIRE

Suggested by Sir Robert Borden in Address at Institute of Politics

WILLIAMSTOWN, Mass., Aug. 17.—The problem of giving the Dominions of the British Empire an adequate voice in the determination of its foreign policy is grave, but not insoluble, Sir Robert Borden, former prime minister of Canada asserted at the Institute of Politics today in an address on "The Dominions and Foreign Relations". He gave constructive suggestions for making effective the principle of equal stationhood, complete autonomy and a voice in the Empire's policy.

Sir Robert advocated the following measures:

"That the high commissioners of the Dominions at London be made members of their own governments and receive the status of imperial privy councillors to enable them to attend cabinet meetings in London when summoned.

"That the League of Nations, representatives of the Commonwealth of Nations (the Dominions) meet before each annual session of the League Assembly to discuss common problems as applied to the Dominions and the Canadian and other empire delegates to the assembly should at least have a week in London, to discuss matters on the assembly agenda and also vital questions touching foreign relations.

"That each Dominion send strong representatives to the League Assembly."

"That each Dominion develop and strengthen its department of External Relations."

## GAME SANCTUARY FOR WESTERN NOVA SCOTIA

Recommended at Meeting of Sportsmen Held at Annapolis Royal on Monday

ANNAPOLIS, Aug. 17.—An enthusiastic sportsmen's meeting in reference to the proposed game sanctuary for Western Nova Scotia was held at the Town Hall this afternoon with representatives present from various points between Wolfville and Yarmouth.

Rev. Dr. Hemmeon, of Wolfville, called the meeting to order, and Dr. Moore, of Kentville, was appointed chairman, and Rev. Mr. Smith, of Clementsport, secretary. Rev. Mr. Hemmeon gave a report of the meeting held at the Queen Hotel, Annapolis Royal, on July 19, when the whole matter was thoroughly discussed. Four localities had been suggested as sanctuaries, but the one generally favored was the so-called Boundary Rock district. Dr. Fales spoke on this locality, and exhibited a map he had drawn. Three other maps were shown, and general discussion followed an open forum, without too rigid an adherence to rules of procedure, and apparently satisfactory to all, after which the following resolutions were adopted:

1. That this meeting recommend that a section of country at the Boundary Rock be selected as a game sanctuary, said sanctuary to be contained within the following boundaries: Beginning at the mouth of the Little Toboatic Lake; Indian Trail; Little Toboatic Lake; Little Toboatic Brook to Big Toboatic Brook to Tupper Lake; thence via Sandy Brook, to Sand Lake; thence via Shelburne River to Granite Falls; thence north through Peschwah Lake, following Poplar or Wildcat Brook to Poplar Lake; thence west to White Sand Lake; thence to outlet of Dish Lake; thence to Sporting Lake, via Indian Trail; thence south to Oakland Lake; thence via Tusknet River, to Rocky and Sheath Knife Lakes; thence to Clear Water Lake; thence to headwaters of Rosemary River; thence, via Rosemary River, to Cranberry Lake; thence to point of starting; and that the Government be requested not to sell or lease or otherwise dispose of any further areas within or adjoining the limits of the proposed sanctuary as above defined, until the question of a game sanctuary shall have been definitely decided.

2. That a committee of three be appointed to select another committee within a month, whose duty it shall be to present and promote this matter to the legislature.

The committee appointed comprised C. H. Allen, E. R. Clark, Rev. D. Hemmeon.

A vote of thanks was presented to Dr. Fales for his careful work on the map; to the Mayor and councillors of Annapolis Royal for the use of hall; and to Dr. Moore for the satisfactory manner in which he carried out his duties as chairman.

## RECENT AMENDMENTS OF ELECTION ACT

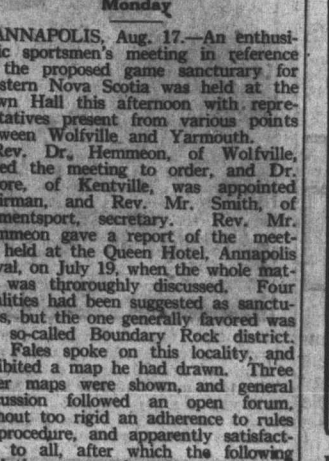

Are Now Being Brought Into Force—Interval Between Nomination and Polling Reduced to Seven Days

OTTAWA, August 15.—The current issue of the Canada Gazette contains a notice by Chief Electoral Officer bringing into force the amendments to the Dominion Elections Act made at the last session of parliament. Among the more important of these amendments is that which reduces the interval between nomination and polling days to seven in all but twenty-seven constituencies. Another is that which requires the immediate appointment of returning officers who are now to hold office during pleasure, and to conduct such elections as may be directed to be held in their electoral districts during their tenure of office. Heretofore returning officers have been appointed only temporarily for the purpose of holding specified elections.

In anticipation of the coming into force of the amending act appointments have been made for about 70 of the 241 electoral districts into which Canada is divided and each of the appointees is now being instructed by the Chief Electoral Officer to familiarize himself with his electoral district, and to define the boundaries of the polling divisions into which he will divide it in the event of an election. The Provincial and municipal polling divisions being taken as a basis for the division of the district for federal purposes. The opportunity which, under the act as amended, returning officers will have to study the election law and get to know their electoral district, is expected to make it possible to make better arrangements than heretofore for the convenience of both voters and candidates.

## ORCHARDS ARE BEING VISITED THIS WEEK

Entomologists and Farmers on Four Days' Trip Through Valley

ANNAPOLIS ROYAL, August 18.—An interesting feature of the Entomological Departments of Annapolis Royal and Wolfville is the organization of an annual field day, when the entomologists, accompanied by farmers from various districts, will visit different orchards to study the effect of dusts, sprays and other treatments. A tentative schedule has been prepared for August 17-20.

Over a dozen cars, with camping outfits, left the local laboratory yesterday at two o'clock and proceeded to Tupperville, where they examined the results of experiments at Alfred Messinger's farm, and then went to Bridgetown to visit the orchard of A. Fitz-Randolph, after which they left for Nictaux to camp for the night.

On August 19 they visited experiments at the pen of the orchards of W. C. Spurr at Melvern Square, and T. J. Morse at Somerset. They then lunched at South Berwick, visited the mulched orchards at Rockland, Berwick and Waterville, and camped at South Berwick.

On August 20 they leave for Wolfville, where they will visit the orchards of R. Leslie, George McLean, Ray Clarke and Joseph Kinman, and after lunch they will leave for Woodside, where they will examine the orchards of Lady Borden and other experimental orchards; visit orchards at Blomidon and camp there.

On August 21 they leave for Port Williams, where they will examine Dr. Fullerton's and other orchards; visit Frank Gertridge's orchards at Gaspeau, and leave for Kentville, via Deep Hollow Road. After lunch at Kentville they will study the work at the Experimental Farm and disperse at five o'clock.

## APPLE CROP IN CANADA WILL BE LARGE

Nova Scotia's Output Now Estimated at 1,018,661 Barrels

Canada's commercial apple crop for the year is now estimated at 2,586,862 barrels or approximately 95 per cent. of 1924. A report issued by the fruit branch of the Agricultural Department governing the situation throughout the Dominion as on August 1, gives the following estimated figures for commercial apple production in the various Provinces of Canada:

New Brunswick, 51,969 barrels.  
Nova Scotia, 1,018,661 barrels.  
Quebec, 44,000 barrels.  
Ontario, 821,771 barrels.  
British Columbia, 1,981,350 boxes. The estimates for each Province, with the exception of Ontario, show a decrease from the 1924 yield.

The change in crop conditions from indications for an increased yield to a forecast showing a decrease, is caused, it is explained, by the heavy drop experienced in Nova Scotia and New Brunswick and a further slight reduction reported from Quebec and British Columbia. The total commercial apple crop for British Columbia is now estimated at 85 per cent. or 1,981,350 boxes compared with the 1924 yield of 2,331,000 boxes. The Nova Scotia crop is estimated at 1,018,661 barrels which is but 89 per cent. of the 1924 crop.

## WOLFVILLE AT WEMBLEY

One of the three Maritime Province Exhibits at the Wembley Exhibition this year is the "Peerless Packers Limited", with headquarters at Wolfville. The other exhibitors are Moirs Limited of Halifax, and Sims & Co., of St. John.

Mr. J. W. Smith, of this town, the founder and manager of the Peerless Packers, has shown THE ACADIAN a photograph recently received by him of the display of "Fresh Nova Scotia Lobster packed in glass jars" which represented the firm at the big show. Temptingly arranged and labelled the exhibit is evidently a most attractive one, and affords splendid advertising for our town.

Mr. Smith has been working for twenty years on this product which now finds its way to all parts of the globe and has created a demand which considerably exceeds the supply. Recently a large order was received from the C. P. R. for use in their hotels and on their trains, but which could not be filled as this year's output is exhausted. We understand that next season the business will be greatly extended to meet the ever increasing demand.

## MONSTER CROP IN CANADIAN WEST

TORONTO, Aug. 17.—A special despatch to the Toronto Evening Telegram from Ottawa says:

"With another ten days without frost the West will have the second largest crop in its history, and if present prices prevail, the most valuable of any," said Hon. W. R. Matherwell, Minister of Agriculture, who returned to the capital from the West today. "In Alberta and Saskatchewan," he said, "oats, grain, barley, oats and flax will be below the average."

The Rhodes Government has engaged the firm of P. S. Ross & Sons, of Montreal, to conduct an audit of the financial affairs of the Province.

## CAPE BRETON COLLIERIES GETTING BACK TO NORMAL

Tuesday's Output Was 8634 Tons—More Than 6,000 Miners at Work

GLACE BAY, N. S., Aug. 18.—The output from the Cape Breton collieries yesterday was 8634 tons of which 7543 tons were produced in the southern area. Rather more than 6,000 miners are at work today, the underground force including Sydney Mines numbering 4416 men. All the collieries are in operation today with the exception of Nos. 6, 11, 15, 21 and 22. No. 22 is being got into shape for early production. No. 21 will not be resumed. No. 15 is closed indefinitely, while Nos. 6 and 11 will take some months to be put in production.

## TEXAS TOPICS

Texas boasts of peanuts, Arabia of her dates, cocoa beans from Trinidad and Africa are mates. Then in the ring comes Canada; the whole world meets and beats; she takes the best from all the rest and puts them in her sweets.

A grocery sign says: "We can supply everything, but the appetite." "Morr's Chocolates supply that also."

## TELL IT TO THE TOURISTS

Italy boasts of cherries, Spain of raisins big; France about the filbert; Smyrna of the fig. California's peaches, Pacific coconuts round, are in the race for price of place with cinnamon from Ceylon.
