#### BUILDING ACTIVITIES

Cardston is experiencing an unprecedented building era, the amount of money being expended both private and public, is over two hundred thousand dollars. Besides our building operations, the town is about to expend forty thousand dollars on an adequate water system and several thousand dollars will be expended on the next three weeks on extensions of the cement sidewalks.

When the present bumper crop is harvested Cardston will move forward quickly. We have at our doors a field for a wholesale trade. Judging from the building statistics we are getting ready for the increased trade.

The theory that Waterton lake has many large lake trout is a correct one.

Bordenism means increased taxation on your farm products, your implements and your necessities of life.

The large pebbles on Daines St. may not be the only pebbles but they are the largest pebbles we've seen on the road for some time.

The Star extends its heartiest congratulations to Frank Steele of the Magrath Pioneer on his appointment to the Lethbridge Herald staff. The Pioneer's loss is real as Frank was the man who shoved the pen.

If it were a crime to talk about one's exploits for more than five minutes at one time the gossips would soon be full.

Cardston real estate is on such a firm basis that it is not necessary for us to publish any theories about the C. P. R. car shops.

Oh Mr. Spencer keep your cat tied up.

The Star sincerely hopes that our patriotic citizens will display flags and bunting to-morrow in order that outsiders may discern that this is a Canadian town.

We are glad to learn that the south section of Daines St. is to be further improved. The rocks will be taken off and more gravel laid on.

A few baseball players never have had luck.

To-morrow is the First and Monday is Cardston Day.

Canada is forty-four years old.

We invite all the towns in Southern Alberta to assist Cardston in celebrating Canada's natal day.

#### A SPLENDID REPRESENTATIVE

No one who heard the recent debate on the reciprocity question could doubt but this country would be benefitted by the agreement. No one who heard the Minister of the Interior could doubt but that he would make an able representative for this constituency. It was in 1895 when Frank Oliver first became acquainted and for some years represented this section as well as the north. There could be no more ideal candidate for the Medicine Hat constituency than the present minister of the Interior. Judging from the large number of stalwart liberals who rallied around the minister the other night, the whole liberal party would be united and more than that every supporter of the reciprocity pact would be behind the minister of the Interior.

The Star believes that overtures should be made to have the Hon. Frank Oliver nominated for this constituency this fall.

#### THE WEED PROBLEM

The increasing number of fields which are becoming a forest of weeds is assuming alarming proportions. This state of affairs has either been arrived at either through a gross neglect or a desire on the part of the farmer to reap as much as he can from the land without giving any extra labor to the growing weeds.

Something must be done at once. Perhaps a few convictions by the weed inspector would have most salutary effect. We are informed that several farms in Kimball district are a mass of Stink weed and tumbling mustard. Just what those ranchers value their harvest at, we are at a loss to understand. The presence of these noxious weeds are a menace to the whole district and to our grain output. The weeds should be stamped out at once.

#### Leavitt

The Annual Field Day of the Leavitt Public School was held to-day. In the morning the parents were invited to see the class work in the school. This being the first event of this kind in Leavitt all parents do not understand, perhaps, the meaning and benefit of it and so, there were comparatively only a few present.

Those present seemed highly pleased with the class work of the teachers and with the efficiency of the pupils.

In the afternoon the field sports began. Races for all boys and girls in each standard, and jumping high, broad and running broad.

Throwing the 12 lb. shot, throwing a baseball, batting it, tug of war, skipping the rope and a matched baseball game made up the sports of the afternoon.

In the races the first prize winners were, Foyal Smith, Gladys Matkin, Melvin Leavitt, Iretta Cahoon, Ruth Spence, Sarah Broadbent, Esther E. Baker and Leslie Coombs. The standing broad jump was won by W. Broadbent 6 feet 10 ins. age 14. The running broad jump was won by Melvin Leavitt 11 ft. 10 ins. age 14.

Putting 12 lb. shot W. Broadbent. Throwing baseball Wm. Broadbent. Batting baseball W. Broadbent. Skipping Lois Matkin. Although the pupils did not get very good figures yet, this is the first time and we look for better results next year. The tug of war was one of the most interesting features. George Spence and William Broadbent chose 14 on a side and the best two out of three tugs gave the victory to George Spence and his helpers.

Baseball next—and "interesting" is very mild in describing it. The "Panthers" captained by George Spence finally beat the "Regulars" captained by Charles Spence. The game was well contested and showed the ability of the Leavitt Juniors who were all under 15 years of age.

Leavitt is proud of its school and the parents are very much interested, as a whole. The cry-

ing need in the school today is more room. The inspector has urged this upon the trustees and in all probability, within the next year Leavitt will have its school house remodelled and a new room, gymnasium and equipment for Standard VI.

Leavitt is growing and we are pleased to say that the men at the head are alive to its growth and are trying to supply the increasing necessities for the increasing population.

The joint installation of officers of Lethbridge and Cardston I.O.O.F. lodges will take place at Cardston on July 11. A full attendance is requested.

Messrs. Triplett and Blaxall are opening up the Palace Meat market, next door to the Cardston Implement company's store. Both gentlemen are experienced retail butchers and have been successful in other towns. We refer our readers to our advertisement on another page.

H. A. Willis returned from Logan Utah on Wednesday.

Donald W. Jones, inventor of road machinery, arrived from Sacramento, Cal. on Tuesday. Mr. Jones has built and improved a large number of roads in California and he states that he is willing to assist the council improve Cardston's streets. He has already interviewed many of the councillors.

The woman of today who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If your digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it. For sale by all dealers.

### HENSON STUDIO

#### Discouraged

The expression occurs so many times in letters from sick women, "I was completely discouraged." And there is always good reason for the discouragement. Years of pain and suffering. Doctor after doctor tried in vain. Medicines doing no lasting good. It is no wonder that the woman feels discouraged.

Thousands of these weak and sick women have found health and courage regained as the result of the use of

Dr. Pierce's Favorite Prescription.

It establishes regularity, heals inflammation and ulceration, and cures weakness.

IT MAKES WEAK WOMEN STRONG  
AND SICK WOMEN WELL.

Refuse substitutes offered by unscrupulous druggists for this reliable remedy.

Sick women are invited to consult by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary, R. V. Pierce, M. D., Pres't, Buffalo, N. Y. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.
