Squire Roberts and Constable Van Buren Hetherington are making them-selves noticeably conspicuous in the discovered with a fall of Brussels net lace. The lining is pearly white. No more queenly garb could be desired by a woman with auburn hair and blue eyes.

Nondescript complexions seem to require small figured patterns, with combinations of light colors. When one is best defined by negatives, such as "not dark and not fair," decided colors are unsafe. For such a one a French mannumker has suggested a Dresdea silk—white ground, in thry sprays of rose and forget-me-not. A tea gown of this selves noticeably conspicuous in the discovered with a fall of Brussels net lace. The lining is pearly white. No more queenly garb could be desired by a woman with auburn hair and blue eyes.

the entire front that is set in two bands—one pink and one blue—all e-nate with double ruffles of lace. A wide fall of lace covers the upper part of the sleeves and dips from the points of the cuff, and a cascade of lace ialls in the back from the neck to the edge of the demitrain. Is it not daintily conceived to preside over Dresden teacups?

Pink and gold are the colors most extravagently admired. An elaborate pink satin brocade Watteau marinee is run through with a gold thread. The flowers in the pattern have pale green stams, a color that is repeated in the seven-pointed velyet collar. The lower edge of the sacque and the sleeve ruffles are cut, like the collar, in points. Around all these points is run lace insertion about an inch and a half wide, and to this is gathered in and out a full flounce of Queen Elizabeth lace to match.

Beautiful, indeed, for the display of an exquisite arm and fine hair is the accordion-plaited tea sacque. The plaiting falls from both neck and shoulders, with equal fullness back and front. It is unconfined at the waist. The shoulder seams are covered with a strap of satin ribbon surrounded with a lace ruffle. The high collar is of wide satin ribbon, delin in a dobule bow behind, with streamers reaching the length of the sacque. The sleeves are also accordion-plaited and have two rows of lace insertion let in, like those in the skirt of the sucque. There are no cuffs or bands at the waist, indeed, the full sleeves are flowing, so that in an easy attitude, with the hand lightly clasped at the back of the head, they fall away from the arms, showing to the best advantage well-rounded elbows and fulfing up behind a mass of loosely fastened locks.

Because of its adapt billy to puff, ruffe or tuck, cashmere obtans largely as the best wool fabric for a house gown. Comfortable and hideous as the old fashioned Mother Hublard is an apple green cashmere unsubdued by any other color. The sleeves are narrow and went in also that other disciple. skirt are finished with a ruching of crimson satin.

Empire gowns are extremely becoming to slender, graceful figures. A pretty empire is made of light gray challie broken with sprays of forcet-me-nots. Bolero fronts, with pointed, turned back revers, are lined with light thus glace taffeta. The skirt has a separate lining of blue taffeta, finished with a senut sixteen-inch bias ruffle of the same. The neck is turned in a tiny V in front and is piped with blue silk.

Taffeta deessing acques, to match the silk petticoats, are somewhat in demand. Violet taffeta is attractive when tucked and inserted with lace. Satin reboons go well with this kind of silk. Cluster tucks and lace forming pointed yokes and pointed caps to the sleeves are stylish in taffeta.

A black and white ten gown suitable for an older woman is made of black and white silk. A wide collar falls square from the yoke. This is broken with circular bands of black lace insertion. A crush satin black collar finishes the neck, and the close lining is of white silk.

indicated that the man had fallen from train, striking his head against a rail.

There was no indication of a struggle and no evidences of a crime.

Among articles found on the body was a check for a considerable sum of money over \$100, and a Sussex tax bill bearing silk.

A decidedly new shape made up in cashmere and lace is the Russian blouse ten gown. The back is in one piece, falling full from the neck, where it is secured with a width of shirring. An inside lining holds the under arm seams rounded over the hips. The front is slightly gathered from the belt down, and the upper part is ornamented with lace edged ruffles that overlap and form the church should be an example for the weaker of God's children.
