

## DOCTOR ADVISED AN OPERATION

Read Alberta Woman's Experience with Lydia E. Pinkham's Vegetable Compound

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and could not do anything. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. ADAMS, Box 54, Provost, Alberta.

### Pains in Left Side

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the 'Montreal Standard,' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. ROSS, 580 Notre Dame St., Lachine, Quebec.

Say "Bayer"—Insist!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians for 25 years.

Safe Accept only a Bayer package

which contains proven directions Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monach, aceticacidester of Salicylicacid.

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

### Best Liniment Made

Mr. A. E. LAUNDY, EDMONTON, writes:—"I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain. It gives instant relief. Minard's Liniment Co., Limited Yarmouth, N.S.

## Public Recreation In Canada In 1924

Canadian cities invested \$317,994.29 in public recreation during 1924 according to the Playground and Recreation Association of America, which has just issued its Year Book of Recreation statistics. This sum reported by fifteen cities in eight provinces, is three times as much as the expenditure reported for this purpose by Canadian cities ten years ago. Reasons for increasing municipal investment in recreation are its return in child safety, character building, public health and more liveable cities' states the Year Book.

The total number of Canadian playgrounds and recreation centres open under leadership was reported as 281. Six hundred ninety four trained leaders were employed to direct public play and activities during the year.

Seven cities of Canada are maintaining municipal golf courses according to their reports opening opportunity for the health-giving game to all their citizens. Seventy six athletic fields and 167 tennis courts are also among the public recreation facilities listed.

The Canadian cities sending reports for the Year Book were Lethbridge, Vancouver, Winnipeg, Saint John, Sydney, Hamilton, London, Ottawa, Peterborough, Stratford, Toronto, Windsor, Montreal, Quebec and Regina. Among the recreation activities they are providing under the leadership are winter sports, community music, dramatics and pageantry, craftsmanship, industrial, athletics and hiking.

The people of Sydney, N.S., last year enjoyed a large Park donated for playground purposes by the British Empire Steel Co. Lethbridge has a park of several acres, located outside the city and containing an artificial lake and bathing beach, a municipal golf course, a baseball diamond, a camp for automobile tourists and a children's playground.

Quebec reported an aggregate attendance at its six playgrounds during the summer of 1924 of 775,000 children and parents. The playgrounds committee of Quebec, has recently had translated into French for its use among French people a number of slogans and epigrams prepared by the Playground and Recreation Association of America. From their English form these slogans have been used extensively by cities of the United States to further popular education as to the need for public recreation.

The total 1924 expenditure for public recreation in the United States and Canada was \$20,052,558, according to the reports of 711 cities. This exceeded the total 1923 expenditures by more than six million dollars.

## Ask Baxter To Lead Local Opposition

Calling on Dr. J. B. M. Baxter, K. C. M. P. to leave the Dominion House of Parliament and to enter the Provincial field as leader of the Conservative party a meeting of those in opposition to the provincial government in Glen Falls, a suburb of St. John passed resolution promising Dr. Baxter their support as leader of the party and asking him to run for election in Saint John County with Walter G. Drake, as running mate.

## CROWN LANDS GIVE LARGE INCOME

One out of every three dollar spent for education, the highways, the bridges and the other public services in New Brunswick comes directly from stumpage and other revenue derived from the Province's Crown Lands. Hon. Dr. J. E. Hetherington, Provincial Secretary and Acting Minister of Lands and Mines, pointed out in an address which was broadcasted last week from CNRA station.

New Brunswick's Crown timberlands he pointed out, were the most valuable asset which this province has. They are worth more than twice as much as the provincial debt, the latest valuation which has been placed upon the Crown Lands being from fifty to seventy-five million dollars. He pointed out that last year New Brunswick spent only about \$60,000 for the protection of its forests, but it proved cheap insurance and good results were obtained, as the forest fire losses in 1924 in this province amounted to only \$52,292.

This amount, he said, was unusually low, but 16,000 acres of forest lands had been destroyed—enough to keep a good sized mill industry in operation—and all this territory had been wiped off the producing map for a period of sixty years or more. This in itself was enormous and too great a loss for the Province to have to sustain; but, he said, the people would consider the losses of the previous year when 400,000 acres, over 350,000 acres of which was Crown Lands were burned over. That, he said, was nothing short of a disaster.

A fireproof forest was not possible in America, he pointed out, but the cutting down of losses to a half or a third of the present tremendous totals annually reached in Canada was possible, if an informed and alert public opinion demanded it. Save the Forest Week was one of the means by which the necessity for a change in the public attitude toward fire losses may be emphasized, and he expressed the hope that it will produce greater care on the part of the people of Canada in the matter of fire hazard especially. New Brunswick, he said, has regulations and all the laws that were necessary, but the trouble was to make the people realize that their little acts of thoughtlessness may cause immense losses to the forest wealth of the country.

## Hydro Amendment Defeated 31 To 12

By a vote of 31 to 12 with the Farmer group voting in a body with the Government the Opposition amendment to the Grand Falls Bill was defeated in the Legislature. The amendment moved by Mr. Flewelling (Charlotte) in effect simply called upon the Premier to keep the pledge he made to the House last year to submit the Grand Falls project to a vote of the people before commencing work. The debate on the amendment was participated in by Premier Veniot, Mr. Richards, Attorney General Rand, Fawcett (Farmer leader), David Stewart (Restigouche) and S. J. Burlock (Carleton).

## Province Will Back \$100,000 Abattoir Bonds

The Province of New Brunswick's guarantee will be given\* to the bonds of the British Canadian Packing Company, to the extent of \$100,000 in order to insure the establishment of an abattoir and pork packing industry in New Brunswick.

Proposals for the guarantee of bonds were formally approved by the government's supporters in the Legislature and application for letters patent incorporating the new concern with an authorized capitalization of \$500,000.

The project has the endorsement of the New Brunswick farmers and dairyman's Association and various other organizations as a means of promoting the livestock industry in the province. The abattoir will be located at St. John. The incorporators and provincial directors are Captain P. F. Starling, of England; W. I. Fenton, St. John and George C. P. McIntyre, of Sussex.

## Baxter Silent On Leadership Stand

Hon. Dr. J. B. M. Baxter, K. C. M. P. referring to the report emanating from G. Earle Logan that he would make an announcement on May 8 regarding his decision in the matter of leaving the federal political arena for the provincial one as leader of the New Brunswick Conservative party, declared that he would very probably be in Ottawa on May 8 and could make no statement.

He had nothing to say regarding the matter in the meantime, and he did not know whether he would have any statement to make at any time.

## Says Oatmeal Bad for Bone Formation

London, April 28.—Hitherto a common piece of advice given to

parents of young children has been, "If you want your girls and boys to grow big and strong give them plenty of oatmeal". That advice may have to be revised in the light of experiments carried out on puppies by Professor Edward Mellanby at, Sheffield University, the results of which are given in a report issued by the Medical Research Council.

Professor Mellanby states that of the cereals tested "oatmeal has preeminently the worst influence on bone formation". In other words, young animals fed on oatmeal are far more subject to rickets than those fed on other substances.

The cereals tested included white flour, wholemeal flour, oatmeal, maize, barley, polished and unpolished rice, wheat germ, ground oats, groats and rye.

**Keeps The Home Clean**  
GILLETT'S PURE FLAKE LYE is the first-aid to home sanitation. Nothing equals it for cleaning out sinks and drains, cleaning greasy cooking utensils, keeping floors clean, etc. Get a can from your grocer. It will save you much hard labor.  
**GILLETT'S 100% PURE FLAKE LYE**

## Type Your Laundry Tickets on This

This, ladies and gentlemen, is a picture of the new Japanese typewriter known as the "Hobun" typewriter. It inhabits the offices of Shanghai, Tokio and other Oriental cities; is quite harmless but somewhat difficult to control. It is more complicated than the Theory of Relativity, runs as smoothly as a tank crossing the Rockies and makes more noise than a duet by a boiler factory and a Salvation Army band.

Its function is that of typewriting the Japanese language. It was invented by an Irish mechanic named Kiota Sugimoto and was on the market in 1915. As a piece of machinery it is infinitely superior to the 'typewriting Americana'. The letter very seldom has more than 40 keys, the Hobun has three thousand; the Americana prints a total of 84 characters, and the Hobun nearly four thousand. Then again, anyone can operate the American variety but how many of our stenographers could run a Hobun, with its thousands of keys and hundreds of levers.

We have stated that the machine is complicated but really it is simplicity itself — you merely learn the Japanese language and a few thousand of ideographic Chinese characters; familiarize yourself with the Hobun's three thousand keys, acquire mastery over its multiplicity of levers and then — go ahead and type. The specimen shown above was captured by Canadian Pacific officials in China and now occupies much of the floor space of their office in Shanghai. The expert Chinese stenographer seated in front of it, has been known, when a rush is on, to produce as much as one whole page of neatly typed Chinese ideographs a day on his Hobun. This record has not yet been beaten.

## Flour Going Up

On account of sharp advance in wheat, we would advise our customers to load up with

## Robin Hood Flour

At Our Reduced Prices

We are also carrying a full line of Heavy PROVISIONS, FEEDS, and GROCERIES. Please leave your order and we will give you the lowest possible prices and guarantee service
