## THE HERALD.

FREDERICTON, SEPTEMBER 14, 1895.

ELECTION TALK.

Dr. Stockton and his opposition friends a general local election may be sprung upon them in the next few months, and his organs are taking various methods to Government. One feeble little paper advocates drawing Liberal and Conservative lines with the hope that the Government might meet with disaster, and we observe the Sun follows on similar lines. The Sun's flattery of Dr. Lewis of Albert, is so glaringly transparent that the shrewd doctor must have had a hearty laugh at our contemporary. It is not many moons since the Sun had quite different treatment for the senior member for Albert. The Sun also expresses some confidence in the probable result in Westmorland, but anybody familiar with that county must be fully aware that Dr. Stockton's supporters have no chance whatever in that constituency. THE HERALD is informed that in St. John the Government cause has been greatly strengthened in the past three years, and that Dr. Stockton and his colleagues in the city will have to fight the battle of their lives in the next election. The Sun need not reckon on Carleton. Half a dozen candidates are named in the Government interest and no opposition man is yet in sight. The strength of the opposition in that

county died with Dr. Atkinson. Some interesting stories are afloat re garding opposition plans in York county. It is known that the wire pullers are anxious to get rid of nearly all the present representatives. They are tired and sick or Mr. Howe who has not startled the world with his legislative talent. Neither do they take kindly to Mr. W. K. Allen, who has not shown himself willing to be entirely moulded to suit opposition fancies. The wire pullers want an entirely new combination-like the Indian's gun, the old one is useless lock stock and barrel. They are aware shall again be made the laughing stock of the lookout for new men.

## THE YACHT RACE.

The great Anglo-American yacht race upon which has been centered the eyes of the English speaking world, ended Thursday in a most inglorious fizzle. The Valkyrie, Lord Dunraven's boat, and the Defender, owned by a syndicate of wealthy Americans, were the contestants for the international cup, and sailed the first race Saturday, the Yankee jacket winning by over eight minutes in a very fluky wind. The second race came off Tuesday, and in the preparatory skirmish just before crossing the line, the yachts collided, doing some slight damage to the Defender, which, course, and was beaten forty-seven seconds. The Defender protested, and made Thursday, and when at the starting line the Valkyrie seeing it was crowded was the course with excursion most unsatisfactory to the sport loving its possession, under the circumstances by which it was awarded.

THE DOMINION government do not show such promptness in calling on the byeelection in West Huron, Ont., as they displayed in the case of Westmorland. The date of the contest in the latter county was gazetted on the same day that Senator Wood's appointment was announced. West Huron has been vacant for some Manitoba, and his majority over M. C. Cameron, Liberal, was only sixteen. Perhaps this fact has something to do with | Wilson spoke shortly, and the meeting the government's delay in issuing the writ. Perhaps they are not anxious to of thanks to the chairman. The meeting test the feeling of an Ontario constituency where the Liberals have equal goes to show that the Liberal cause is by the town at large. The act will go count, not that it was not exact as to the strong, and strengthening daily. fighting chances with the Tories.

OPEN TO WOMEN.

An announcement from Washington, is of interest to women, especially those who claim communion with the Roman Catholic church. The great Catholic university of that city, richly endowed and with a splendid faculty, which has hitherto been devoted solely to the education of priests, has thrown open its doors to women. This is a radical departure from the ancient traditions of the Catholic church, and must have an important bearing on the educational future of its ad

It is expected that the first women who will apply for admission to the college science, philosophy and the arts - will come from the religious orders. This is ecause it is thought advisable to have the teachers in the convents of the United tates take a university course, so that the he modern movement in education. Not only will nuns be welcomed, but are in a feverish state of excitement lest the university will throw its doors open to all seekers of instruction, and woman students from every part of the globe will be admitted to all the lectures and studies arouse the people into activity against the of the university in the regular and special courses, side by side with the men, the only provision being that they shall not be permitted to matriculate or secure degrees.

> Another of Mr. Foster's fads has gone o the wall. The failure of the trade exension to Australia is reported by Special podean colonies disgusted with protection, and instead of desiring to make commercial treaties with protectionist-government ridden countries, are now reducing duties and reforming their tariffs so as to encouage the world's traffic.

> Mr. Foster not long ago was intensely excited over the prospect of trade with the West Indies. He subsidized a line of steamers, but like his other chimerical ideas it amounted to nothing. Mr. Foster wants Canada to trade with every other country under the sun but our natural market the United States, and his useless experiments have cost the country thou-

The opposition papers have no foundation for the rumours they are publishing regarding the personnel of a local government ticket in this county, as no action as yet been taken towards the formation of such a ticket. Let them possess their souls in patience, however, and they will see a combination in the field of Mr. Pitts, who has proved himself that will win this county back to the allesimply useless as a member of the House, giance from which it temporarily strayed and was only sent there in the first place in the last contest.
