SPANISH INFLUENZA.

Instructions to Outport Magistrates.

Requests are constantly being sent to the Board of Health by Outport Magistrates for instructions in dealing with the influenza epidemic. The following points are to be noted:—

1. The disease is highly contagious.
 2. It is spread very largely by contact one with another.
 3. It is advisable to prohibit any unnecessary gathering of people about stores, street corners, etc.
 4. Close schools, churches, theatres, etc., if there is any indication of spread of disease.
 5. Avoid a panic, but take this thing seriously and co-operate with the doctors, following strictly the advice given.
 6. Good ventilation is very important—therefore admit sunlight and fresh air as much as possible.
 7. Do not allow the patient to spit, and when coughing cover the mouth.
 8. Never neglect the precaution of washing the hands before eating or after contact with a sick person.
- Quarantine is difficult to establish with any degree of success and the presence of the police in an attempt to enforce quarantine would create more panic.

Acting Medical Officer of Health.

PARKER & MONROE, Ltd.

Not Generally Known!

The average man or woman may think all WAR STANDARD FLOURS are alike. Such is not the case. The Canadian Government has decreed that Flour must not be milled ABOVE a certain standard. But there is nothing to prevent millers from milling BELOW that standard.

Ogilvie's Standard Flour

is milled to limit of Govt. requirements.

Try a Barrel and be convinced.
