Real Pluck.

When there's nothing much left in the cupboard, And nothing to drink in the mug, When the blankets are thin and we're fain to begin, Just plucking our faith to a rag! Let's show we are people of spirit, Let's prove we are plucky and strong— Through the drabs and the greys of our poverty days Let's plod with a festival song! For when we're well-fed it is easy To crack every joke in the world, And those who are rich never dread that deep ditch Where sometimes the pence-less are hurled! But, spite of life's troubles and trials, The man who has plenty of wit Just shuts his eyes tight to all cowardice blight, And, smiling, wins thro' by his grit!

To The Point.

By WILL U. G. WISE. ELECTORS OF NEWFOUNDLAND—Vote for the freedom of the fisheries from Coaker control, from the menace of his tinkering ideas which would cripple year after year the greatest industry of the Colony.

ELECTORS OF NEWFOUNDLAND—Remember that the BENNETT GOVERNMENT stands four square for a Humber Deal that is good for the country. The defeat of the Coaker-Squires Government would mean a Humber Deal, sound, safe, and satisfactory and in the best interests of every man, woman and child in the Island.

ELECTORS OF NEWFOUNDLAND—Remember too, that it is not one good Humber Deal the return of a BENNETT GOVERNMENT would ensure, but a score of industrial enterprises just as great; for the election of a sound, solid Government, will turn the minds of wealthy investors towards our land; will encourage them to promote new industries here. In addition the free and unbridled development of our fisheries coupled with a substantial bounty to the fishermen will produce general and individual happiness to all our inhabitants.

JUNIOR ELECTORS OF ST. JOHN'S, sons of the men whose honest labors have helped to build up this our city of St. John's, stand by your fathers now in the determination to keep your native town free from the domination of a political tyrant whose crazy politics would eventually beggar every home in the city. Let your fathers see that the bright sons they reared are with them hand in hand for the freedom of the city.

JUNIOR ELECTORS OF ST. JOHN'S, sons of the laboring men who year after year have industriously worked to maintain their homes in comfort and to see you grow up with a manly sense to maintain your freedom, happiness and independence, stand by your fathers now in their determination to resent Coaker's insulting references to them and his distasteful policy which spells nothing but disaster for all the great laboring industries of St. John's.

JUNIOR ELECTORS OF ST. JOHN'S, sons of our city tradesmen who have been noted for their diligent, earnestness and splendid qualities of citizenship, prove true now to the liberal principles for which they were always noted. Remember they have given the best years of their lives to help sustain our city, to erect schools and churches to give us the blessings of religion and education; to make happy homes for your mothers, your sisters and yourselves. Stand by them then in this fight to protect our homes, our schools and church buildings, our business premises, workshops and factories from the blasting rule of Coakerism and thus you will help to bring about a restoration of former prosperity speedily, and still greater happiness and prosperity in the years that are to come.

ELECTORS OF ST. JOHN'S you have already set a splendid pace in your patriotic resolve to wipe out Coakerism. Keep the pot of enthusiasm boiling every day from now till 8 o'clock on May 3rd, when the last vote goes into the ballot boxes, and then look with justifiable pride on the magnificent victory you have achieved.

ELECTORS OF HR. GRACE—Who would not welcome with joy the restoration to Harbor Grace of the days when our second city was the pride of Conception Bay? When her streets were alive with busy men, when business boomed as her stores and her wharves were burdened with their imports and its exports and the wheels of commerce and industry revolved continuously among a happy and prosperous people; when its merchants, employees, laborers, tradesmen, their wives and families were surrounded with cheer and plenty, and proudly pointed to their city visitors the beauties, the delights, the gaiety, the happiness of Harbor Grace and all its dwellers. Under a BENNETT GOVERNMENT these old days will be restored.

How McTigue-Beat Siki.

PUNCHED SIKI DIZZY. The report of the McTigue-Siki fight in the Telegraph, the leading New York sporting daily, says:

McTigue apparently had been coached to let the Senegalese wear himself out, as he was obviously not in the best of condition. McTigue swarmed around him, content to tap, and keep him from getting set for one of his wild swings. Siki's steam went out of him at the end of the fifteenth round. He was very weary, and he had to be pushed out of his corner. McTigue's second sent him out to fight in the seventeenth, and he swarmed all over Siki, punching him with all his strength for the first time and trying for a knockout. Three hard right hand swings to the jaw in the eighteenth rocked Siki to his heels and made him hang on. He was in trouble, and he had the greatest difficulty lasting out the round. McTigue was still fresh and he continued a furious attack in the nineteenth and twentieth rounds. He punched Siki dizzy and it was only an unsuspected and unfigured ability to take punishment that enabled Siki to be on his feet when the last bell rang.

The New York Herald's report says: "At the opening of the ninth round McTigue electrified the on-lookers by a right uppercut to the chin that lifted Siki from his feet and in the twelfth when Siki opened a cut above McTigue's eye, the white man came back with a right that sent the black to the floor and thus paved the way for his eventual victory. McTigue was warned for holding in the fight."

MIKE'S LATEST. DUBLIN, March 23—Mike McTigue declared to-day that he had accepted an offer to fight Carpenter, but that it had not been decided whether the match would be staged in the United States or in Ireland. Referring to his recent bout with Siki, McTigue said: "My critics do not realize that I was giving away nearly 28 pounds in weight to Siki. Neither do they sufficiently consider the tremendous disadvantage under which I labored as a result of the cut over my eye in the 11th round and the broken right thumb in the thirteenth round. If it had not been for the broken thumb there would have been no need for the referee to award the decision. You must remember that I am not a fighter. I am a professional boxer, and prize fighting is not allowed in the United States."

OFFER McTIGUE \$75,000 PURSE TO BATTLE WALKER. NEW YORK, March 23—Mike McTigue, the world light heavyweight champion, through his manager, Joe Jacobs, has been offered a fight with Mickey Walker, the welterweight champion, for a purse of \$75,000. The offer was made by Frank Black and Harry Blaustein, the Newark promoters, and they state that the fight, if arranged, will be held at the Harrison, N.J. ball park.

The only condition under which Walker will fight McTigue is that the latter make 160 pounds ring-side. As Mike has always fought around that poundage, his manager is satisfied he won't have any trouble in getting down to that notch. Jacobs cabled McTigue for the exact date of his departure and whether he can make the weight. The manager expects to get an answer shortly, and if the reply is satisfactory the articles will be signed.

Gold Rush to Quebec.

KAMING AND ABITIBI. KAMING AND TBITIBI.

Quebec, March 23. — (Canadian Press)—The most promising gold rush that the Province of Quebec has ever seen is now on in full swing and it has all the earmarks of a genuine thing which will possibly bring about the development of flourishing mining camps in the Counties of Temiskaming and Abitibi, just east of the Ontario boundary. Gold was discovered in these two counties early in 1922 and the rush of prospectors began in March of that year. Things went on quietly for a start, but the real stampede came in October when 250 claims were staked, comprising about fifty thousand acres of land, and this with other claims staked earlier in the year 1922 and since October would bring the total number of acres up to about ninety thousand.

Girl Foils Plot; Saves Man's Life.

"THE STORM" AT STAR THEATRE GIVES INTERESTING STUDY OF WOMEN.

Writers, philosophers and know-it-alls have from time immemorial declared that the girl of unspoiled innocence, the girl without experience in meeting men, is the first to fall before the wiles of a polished artist in love making. The woman of the world is protected by her knowledge, they have contended. But there is another kind of innocent girl, who isn't so susceptible in spite of her ignorance. This is the belief of Langdon McCormick, the man who wrote the stage success, "The Storm," and Reginald Baker, the famous producer, who directed the production. "She is the girl of the woods. Living in daily close communion with Nature, inspired by the clean atmosphere of the primitive world and knowing no men but the straight, honest, woodsmen and trappers, she somehow gains a protecting instinct against the "man from outside."
