

London Medical Institute.
This institution is established for the most successful treatment of all diseases pertaining to surgery and medicine. In every that case all medicines rejected, be they vegetable or mineral, that are capable of producing mischief, or incompatible with organic tissue, such as mercury, lead, zinc, etc., contending that every character of disease, if curable at all, will yield to those agents, which are mild in nature and capable of neutralizing and rendering harmless that morbid matter in the circulation which engenders and supports disease. The remedies employed are less depressing to the vital powers, more in harmony with the efforts of nature, and attended with better success, than the generally adopted system of medicine. They are prepared upon scientific principles perfected by time, study and research, for the special cure of all lingering chronic diseases, some of the most important and serious of which we here mention, and in which our treatment has proved to be signally successful, viz: All diseases of the lungs, throat, heart, and chest, asthma, catarrh, bronchitis, all diseases of the nervous, atrophy, curvature, and other diseases of the spine; convulsions, cramps, and spasms, goitre, or enlarged neck, epilepsy, disease of the mind, melancholy, etc., consumption in its first and second stages, dyspepsia, and all diseases of the stomach, liver, kidneys, etc., scrofula, and all other skin diseases, tumors, and morbid growths, ulcers, and indolent sores. Cancers are effectually cured without the use of a knife, and hernia or rupture with or without an operation. Other diseases of a grave nature might be given, but it is quite unnecessary. Special attention will be given to female complaints in all their medical and surgical bearings. Every disease of the eye and ear successfully treated, and every operation in ophthalmic and aural surgery performed upon those principles that the science of the Old and New World has shown to be the most successful, as demonstrated in the largest ophthalmic and aural hospitals, infirmaries, and infirmaries in Germany, France, England, and the United States. Cross eyes will be straightened with very little pain. Cataracts will be removed with or without cutting. Inflammation and ulceration of the eye are speedily and permanently cured. Injuring eyelids are often cause of severe inflammation by rubbing the lash upon the eye. Sight has been restored that from this cause had been lost for many years. Out-turning eyelids are at once cured and original beauty restored to the face. Granulated lids thickened along the edges, or in a state of adhesion readily cured. Also watering of the eyes. The institution is in possession of every facility and original means of successful treatment. Efficacious agents or remedies are imported per order, and kept on hand fresh and pure, so that they are both safe and effectual for the alleviation and cure of all diseases. Added to these means a comprehensive knowledge of medical science obtained by an extensive practice on the part of the physicians in attendance, need furnish no wonder to the public that so many doubtful and dangerous diseases are permanently cured, when as a last resort, the patient visits the Institute. Consumption is treated upon an entirely new and very successful system. The Institute is open to the poor on Mondays and Fridays, from 9 a.m. till 1 p.m. All letters of consultation addressed to the Principal, all others addressed to the Managing Director. Consultation free.

M. F. MACLAGAN, M. D., Principal.
J. J. HALL, M. D., Chief Surgeon.
C. G. EAST, M. D., Consulting Physician.
C. B. SLATER, Esq., Managing Director.

The Star says that several of the salt works have commenced operations in Goderich. They are now in full blast, working night and day. The prospects are favorable for the season business.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London. See article in Cassell's Household Guide.

AS NUMEROUS CASES OF
Have occurred from the sale to the public of Hypophosphites, containing strychnine, without being properly advised, purchasers of Dr. Wheeler's Compound of Phosphates and Gallic acid are requested not to confound the two preparations, as is frequently done, under the impression that both are of the same medicinal properties. Phosphates are necessary elements of the animal organism, and absolutely essential to the phenomena of life. They enter into a composition of every solid and fluid of the human body, and are the natural exciting agents of the functions of nutrition, and determine perfect cell formation and the growth of tissue. For supplying the waste resulting from mental and muscular exertion there can be no substitute for Phosphates while the system remains chemically constituted as it is. Attributing the effects of strychnine to the action of hypophosphites has led to false deductions and errors in practice, and greatly misled the public as to their true merits.

\$5 to \$20 PER DAY. Agents wanted. All classes of working people, of either sex, young or old, make more money working for us in the present season, or at all times, than at anything else. Particulars free. Address G. Stinson Co., Peoria, Ill.

FACTS FOR ADVERTISERS.
In this, as in everything else, the best papers will command the best prices. It is cheaper to pay 5s. for inserting your advertisements in a journal having a circulation of 5,000, than to pay 2s. for one that has only a circulation of 1,000. Of this you may be sure, that any journal that inserts advertisements too cheap, is, in fact, an almost worthless medium. If it were really a good one, it would have no need to lower its prices, for its sheet would be better filled without the sacrifice. You may lay it down as a rule that every journal knows its value, and that if it adopts low prices it is because it is conscious that it has a low circulation in number or respectability.—Wilson's Handbook for Advertisers.
