Good Crop in Kansas

Chicago, June 19—Bountiful returns from harvest fields in Kansas, where farmers thought the crop of wheat almost ruined a fortnight ago, sent the market today decidedly down grade. The close was weak at a loss of 11-8 to 11-4 net. Oats finished at a decline of a shade of 1-4 to 3-8.

Cutting of wheat was general today all over Kansas and a little cutting also has been done in Nebraska. The yields reported were surprising. Advices from Wichita Kansas, told of 20

The "Paving Determinator's" Verdict.

> THE "Paving Determinator" is an ingenious machine that was built by the department of Public Works of Detroit - to subject sample stretches of various street pavements to severe, actual-service tests. It imitates heavy trucks and steel-shod draught horses, reproducing, in faithful detail, every effect of this kind of traffic.

> This remarkable machine was recently used to test five varieties of street pavement-covering practically the entire range of present-day road coverings.

A report of the test says:

"When the test had been made under the direction of Mr. McCabe and officials of the department, on eight sections of pavement laid in a circular track, the concrete section, laid under the specifications of the Board of County Road Commissioners of Wayne County, Michigan, showed by far the best resistance to the severe test to which the pavements were put.

> Are you going to overlook these facts in deciding about your paving?
