An Unmerciful Slashing of Prices Follows Government Report

Chicago, Oct. 10 .- Unmerciful slashing

of prices took place today in the com and provisions markets, largely owing to reports of more drastic government food control after November 1, but also influenced by peace talk and by weakness of securities in Wall Street. The close was flurded, both in corn and provisions, with corn 4% to 5% net hower at \$1.48% to \$14.18% for December and \$1.08% to \$1.08% for May. Oats showed a setback of 1%c to 1%c. Provisions finished 47%c down. Heavy unloadings of holdings of corn was unaccompanied throughout the day assertions that under pressure from Vashington corn was destined for \$10 bushel to match with hogs at \$10 a nundred pounds. In connection also with the talk of government regulation it was stated, a list of twenty-five com-modities to be subjected to a scaling down of values would be made public within a few days, and that corn might be included. Short selling that reached unusual volume accompanied the ex-tensive liquidation which was in pro-

Disheartened Investors and Bear Raids Cause Upset of Prices
