FORESTRIC FORAY.

Legal Contest of Great Interest to the I. O. F.

Alleged Scheme to Oust Supreme Chief Ranger Oronhyatekha and Supreme Secretary McGillivray.

New York, Dec. 28.-A motion of great interest to the Independent Order of Foresters has just been argued before Judge Blanchard in the supreme court, special term, in an action brought by Dr. Charles L. Coulter against the Foresters. Mr. Coulter alleges that he recently brought suit for \$100,000 against Supreme Chief Ranger Oronhyatekha and Supreme Secretary McGillivray for the use and manufacture of a medical instrument of which he was the patentee and owner, and that they took advantage of their official position to cause Dr. Coulter to be dropped from member-ship and to cancel his life insurance policies without notice.

It is asserted by Dr. Coulter that they have also threatened his attorneys and witnesses with expulsion from the order and cancellation of their insurance policies, and he asks for an injunction to restrain the order and its officers from this alleged intimidation and cancellation. In the motion papers it is alleged further that the order is managed by a number of Canadians headed by a number of Canadians headed by Oronhyatekha, in an arbitrary and extravagant manner.

PER CONTRA. Affidavits from various Canadian members of the executive council were read by counsel denying all the allegations in the plaintiff's affidavits. Behind all the litigation say the Canadian members, is a scheme to remove the executive council composed of Canadians and substitute in their places residents of the United States; also to remove its head-quarters from Toronto to this city.

troubles, reaping the honors with her in connection when the victories are achieved. (Cheers.) May we hope that in the last year of this century, by Canadian blood mingled with the blood of their brothers from the other colonies and from the mother country, upon the veldt, with our Canadian soldiers fighting shoulder to shoulder for the honor of the British flag, with Australia and New Zealand sending their contingents, too, for the defense of the mother country, there has been formed a union, there has been work-ed into the noble fabric of the British empire that colonial cement which will guarantee its existence down to the close of the many centuries to come. (Cheers.) That is my senti-ment. (Renewed cheers.)

Then, this war has, in my opinion, given a dignity and importance to colonies they never possessed before. We are known in England today, as Mr. Mulock has said, as never before. No Canadian was ever accorded the reception which Col. Otter and his soldiers received at the hands of the English people and the Queen. (Applause.) No Canadian ever realized his relations to the empire as these men have done during the last few months. And so it is being said, is the time not coming when a Canadian colonel shall take equal rank with a British colonel? (Applause.) Is the time not coming when major - general commanding the forces in Canada shall be selected from the ranks of the trained soldiers in Canada? (Renewed applause.) Where they have shown equal courage with the British soldier shall they not get equal recognition from the imperial authorities in regard to our services? I hope the moment will come. And, lastly, let me say this war has placed England herself in a stronger position among the nations of the world than ever before. Had England weakened in this war or shown herself incapable of grappling with this problem of settling with the Transvaal, every nation in Europe would have been ready and willing to cry "havoc," and let slip the dogs of war, and England would then have found that instead of having a free hand in South Africa, she had a European war on her hands. But she has shown her supremacy, shown herself so capable in the management of that campaign that every nation is impressed, more than ever before, with the power of the British Empire, and with the generalship of men like Lord Roberts and Lord Kitchener in leading her forces successfully to victory. (Loud and long continued applause.) We join with the other colonies in congratulations to the motherland for this position acquired under trying circumstances, and in the face of a resourceful and courageous foe. I rejoice at the return of the Canadian troops, at the distinction which they have achieved, at the endurance, courage and loy-alty to commanding officer which they

Years-Cured by Dodd's Kidney Pills.

Neepawa, Dec. 24.—Mrs. T. H. Mc-Kee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's Disease. Reported to be past help and dying, her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills and prophesied that they would cure her. She says: "From the first few doses I began to feel better, and after taking four and a half boxes, I say it with heart-felt gratitude, I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's Disease at such a stage.

Twilight Organ Recital.

The large attendance at the twilight organ recital, given at Dundas Center Methodist Church yesterday afternoon, by Mr. W. H. Hewlett, was an evidence of the high place this periodical musical event has gained in popular favor. Hewlett's playing was as ever an artistic treat, his rendition of Lem-mens' fantasia, "The Storm," being a genuine tour de force. Mrs. Barnes-Holmes, of Buffalo, assisted Mr. Hewlett, and her sweet, rich contralto voice and charming method of delivery deepened the favorable impression made by her previous appearances here. Her programme numbers were Sir Arthur Sullivan's "Lost Chord," the aria, "He Was Despised," from Handel's "Messiah," and Berthold Tours' "The Three Singers," while for encores she gave "Chadwick's "Allah" and Buck-ingham's "Little Boy Blue." Mr. Hewlett's organ numbers were as follows: "March Celebre" (Franz Lachner); (a)
"Seraph's Strain," (b) "Le Carrilon"
(W. Wostenholme); (a) "La Cinquantaine," (b) "Serenade Badine" (Gabriel Marie); fantasia, "The Storm" (J. Lemmens); "Evening Bells" (W. H. Hew-lett; "Triumphal March" (J. Lemmens).

Pie. Bert. Cole Banquetted.

The Oregon Club showed a small portion of the esteem in which they held Pte. A. E. Cole last night, by a banquet given in his honor at their club rooms, in East London. The spread of Caterer Kent was excellent, and about 40 members, ex-members and guests were present. Mr. J. Roberts, the president of the club, made an appropriate address, speaking of the success of the Canadian soldiers and the paide of the club in having one of their members take part in the South African campaign. Mr. Cole gave a brief description of

the life led by the Canadian regiments, and their warm reception and generous treatment in England. The toast-master for the evening Mr. S. Spence, then proposed "The Queen," to which Mr. J. Kennedy replied with a short patriotic speech. 'Canada" was ably dealt with by Mr. J. Inwood; "Our Boys," W. Stallard; 'Paardeberg," furnished Mr. F. Heaman with an opportunity to give Mr. Cole a few well-chosen words of merited praise. Mr. W. Standifield replied to "The Ladies," and acquitted himself ably. Mr. Ford made a good speech in reply to "Our Cousins Across the Line," and W. Clissold answered for "The Press. "The Bene-dicts" elicited an apt response from Mr. Quinton. Mr. W. Stallard sang 'Where the Sweet Magnolias Bloom,' and Mr. Quinton followed with "My Old Newhampshire Home." The toast, "Our Sports," was replied to by Mr. B. Brooks, and "The Capitalists" was humorously dealt with by Mr. Wilson.

Mr. J. Fitzmaurice proposed "Success to Walter Costello," who is leaving for Woodstock. Mr. Costello thanked the club for the honor, and expressed his regret in leaving it. A flashlight picture was taken of the company, and the entertainment was closed with "God Save the Queen." A notable feature of the evening was the presence of a large number of

Worry Killed Him

Strange Death of a Former Longuner at Pittsburg-Attacked by Laryngitis and Was a Corpse in 48 Hours.

A dispatch from Pittsburg, Pa., says: James McIntosh of 535 Taibot avenue, Braddock, worried himself to death. That is the opinion of his attending physician. McIntosh came to Braddock a year ago with his young wife, coming from London, Ont. On Christmas eve McIntosh was attacked with a cute learning in a part of the company of the c with acute laryngitis, and he feared he would not get well, although Dr. G. E. Blatr, who attended him, told him there was no danger. He worried continually, and in 48 hours was a corpse. His excessive worry is said to have affected his heart, and the cause of his death on the official returns is acute laryngitis, and heart failure causing worry as a contribut-ing cause. His wife is prostrated over the shock of her husband's death, and her condition is said to be critical. The four-months old babe is also seriously ill. The body was forwarded to London:

SAID TO HAVE HAD FRIENDS IN LONDON

Detroit-Took Morphine and Carbolic Acid.

[Detroit Free Press, Dec. 28.] Flora Duncan-at least, that thought to be her name, a pretty young woman of 22 years, died last evening from the combined effects of morphine and carbolic acid poisoning, administered by her own hand. With little question the fatal drugs taken with suicidal intent, but Cor-oner Forth will hold an inquest next Wednesday afternoon at 2 o'clock. Where Flora Duncan roomed, at 247 Randolph street, Marie Kile is the landlady. She stated that Flora Duncan came to Detroit a year ago last July and had been living at her place since the September following her arrival here. Jerome Duncan, of London, Ont., is thought to be her brother,

and she is said to have friends in Petrolia, Ont. Since Christmas she had been despondent. On that day someone sent her a bottle of wine. A few hours before her death she drank the wine with the assistance of some friends. wards she ate supper as usual. About 6:30 o'clock she confided to one of the Afterother boarders that she had taken a dose of morphine. She was advised to keep moving and, in fact, went out for about five minutes. Soon after returning she made another announcement. This time it was to the effect that she had taken a bottleful of carbolic acid. According to the other occupants of the dwelling these were her

last words. She was practically dead when Emergency Hospital was reached and her remains were removed to Blake & Sons' morgue, on Abbott street. The coroner and Walter Clago, his clerk, searched, in vain, for any note

or letters which might fully identify the young woman. She was very careful about her letters and pictures," said one of her companions. "She never had any mailed here, but always went to the postoffice for them. As soon as she read them, she'd burn them. Guess she didn't want us to know who her folks were."

[The name of Jerome Duncan does not appear in the London directory.]

Amusements.

Winston Spencer Churchill, M.P., will receive at least two medals for his work in South Africa, and it is an open secret that he has been recommended for the Victoria Cross on account of his bravery, especially at Estcourt. the war in South Africa he was not contented with being merely an observer and a correspondent, but after his escape from Pretoria he went back to the scene of hostilities in Natal and found the operations at the same point as he left them five weeks before. He joined the South African Horse as a lieutenant, and was present in all the principal actions which preceded the relief of Ladysmith, and was one of the first to enter the beleaguered town, riding in with Lord Dundonald. After the relief of Ladysmith, knowing that coming operations would be with Lord column from Bloemfontein, he hurrled across the country and joined General Lan Hamilton in his famous march from Bloemfontein to Pretoria, to which the Canadian contingent was also attached. Mr.Churchill saw a great deal of work by the Canadians, and in the course of his lecture will refer to what was accomplished by these valuable additions from the colonies. He will appear at the London Opera House on Monday, Dec. 31.

Charles E. Blaney's latest and newest musical success,"A Female Drummer, will be the attraction at the London Opera House, New Year's matinee and night, and judging from the recordbreaking business and popularity of the stars, should and will without doubt play to the capacity of the house.

THERE IS DANGER IN NEG-LECTING A COLD. Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup, before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs. London ice dealers get much of their

stock from ships which bring it from the mountain lakes of Norway. THE COUGHING and wheezing of persons troubled with bronchitis or asthma is excessively harassing to themselves and annoying to others. Dr. Thomas' Eclectric Oil obviates all this entirely, safely and speedily, and Saxe-Weimer, who was recently reis a benign remedy for lameness,
