

WEDDED IN SECRET TO ITALIAN TENOR

Madame Calve's Friends Learn
She Was Married More Than
a Year Ago.

New York, March 13.—Madame Calve's friends on the coast for Southampton, it was announced that she had been married a year and a half ago to Alton Caspari, an Italian tenor, it was learned from a friend for some time that they were married. One of the most recent reports concerning their marriage said that they had agreed themselves, man and wife when they landed in San Francisco several weeks ago, and were forced to undergo vaccination on account of the plague in the East. It was said today that the wedding had been kept quiet for professional reasons.

Madame Calve and Signor Caspari came to the Plaza a week ago, today and registered separately under their names. It was not known at the hotel that they were married. They refused to be interviewed and it was not until today that an agent of the press of the hotel admitted the couple had been married. Signor Caspari himself was not inclined to talk much and his wife had nothing to say. Their names were not found on the preliminary seating list for it was not until yesterday that they looked at the program. In the evening they came down at Madame Calve and Signor Caspari, occupying separate suites. At the Plaza it was said that they left their things in the morning to go on board the ship.

Nathan Franko, who is the musical director at the Plaza, and who is an intimate friend of Madame Calve, said that he had known of the marriage a year and a half ago, but had been asked not to say anything about it for some time. He said that he had seen Madame Calve and Signor Caspari in the morning of the day they started on a tour to the coast. It was their plan to return through Atlantic City, but the quarantine there forced them to come to New York.

Madame Calve and Signor Caspari are going direct to London. She will give concerts there and then tour through Great Britain. Afterward, they will go to France, where Signor Caspari is coming to sing next season, probably in the concert.

TO IMPROVE THE RACE

Chair of Eugenics Established in the
London University.

London, March 13.—Sir Francis Galton has been appointed to the chair of eugenics at London University. The department will be to collect material bearing on the science of eugenics and to promote discussion of the same. It is also expected that there shall be established a central bureau to supply information on the subject to the public and to the press. In short, it is planned to extend the knowledge of eugenics, not only by professional teaching, but by publication and lectures as well as experimental and observational work. The functions of the central office are to embody some of Sir Francis Galton's theories. The faculty of the establishment of a chair of eugenics, which is to be held by Galton, will probably be the first occupant of the new chair.

TAX MAY BE LEVIED ON ALL OVER \$60

It Is Said Ontario Government
Will Change Bar Receipts
Proposal.

A gentleman in the very closest touch with the situation stated to The Advertiser today that the Ontario Government will in all probability very shortly amend the proposed five per cent tax on all hotel receipts in excess of \$60 per day.

The Government's proposal, he said, "the matter of making the tax five per cent on all receipts in excess of \$60 a day. The whole thing is to secure a graded income. A hotel stand at present in London every hotel-keeper has to pay a license of \$100. The Government is now proposing that it is absolutely unjust for a hotel-keeper doing a small business to have to pay this license fee as the big ones do."

Hydro-Electric Power

Is here and has come to stay. It will be lighting London homes and revolving the wheels of her industry long after the present generation has passed away. Not a light will be burning, not a wheel turning, except by the **people's own power**. Cooking and heating will be done by it and at a cost that will be the **envy** of all who will not be thus blessed.

The sooner **ALL** citizens use Hydro Power the sooner **ALL** the advantages resulting therefrom will be realized, and it is, therefore, in the **BEST INTEREST** of the good people of London to **IMMEDIATELY** install Hydro-Electric light and power in their houses and factories, as well as in all buildings supported or controlled by them.

Every ratepayer is **vitaly** interested because the **HYDRO-POWER PLANT IS OWNED AND OPERATED BY THE CITIZENS**, and every dollar accruing in earnings goes into the City Treasury. On the other hand, if the citizens do not support their own Company, the resulting deficit will have to be met by them.
