

DISPLAY WORK OF ART PUPILS

Technical School Officials In-
vite Londoners To Exhi-
bition This Week.

MILLINERY BIG FEATURE

Products of All Lines of Indus-
try Made in Building,
Shown.

The annual closing of the evening classes at the Technical and Art school is marked by the exhibition week arranged for the benefit of those interested in the sciences and art. Londoners may visit the various departments Wednesday, Thursday and Friday evenings of this week. Mr. H. B. Beal, the principal, when taking an interested visitor through this up-to-date and thoroughly equipped building, points out the great accomplishments of the students and shows the high standard of efficiency displayed by the well-selected staff.

The first interesting feature among the achievements of the pupils, is the handwork of the girls in the different departments of fashionable millinery. Stylish hand-made hat-shapes, exquisite flowers and colorings, prove that the millinery art is being carefully taught to many who will be the artistic milliners of the future, while dainty lingerie tastefully arranged upon the tables and here and there given the adorning touch of flowers and ribbons, showed the numerous clever ideas demonstrated by the feminine mind. In the dressmaking department the girls are instructed to select designs and shades which are becoming to the individual person wishing to be attractively gowned.

In the cookery rooms, very clean and pleasant to work in, one sees, through the cases of delicious eatables, the very newest examples along the lines of the culinary art so necessary to the housewife, whether she does her own work or employs the help of the domestic. Very alluring in their homely cosiness are the furnished model apartments which the pupils are taught to keep in a tidiness that combines comfort, beauty and cleanliness.

Laundry Is Feature.
A laundry equipped with modern conveniences for all branches of practical department of household science, is indeed a valuable feature.

One cannot help becoming immediately interested in the chemical laboratories, wherein are shown various scientific processes, the manufacture of baking powder, the distillation of coal tar, and of petroleum. Carborundum, soaps, and sulphated oils, and their by-products, all in the process of manufacture, are most interesting, even to the person who has not studied chemistry from the textbooks.

Last evening a party was able to hear, in the wireless rooms, a concert taking place in Pittsburgh, Pa., and in other branches of the physics department one immediately waxes enthusiastic over electrical engineering and the model house in which the student learns to do the wiring in the most up-to-date method known to electrical science.

Men who work in automobile appliance shops or garages would indeed be wise to inspect the school's automobile section, where several

TODAY IN PARLIAMENT.
In the Commons.
Private members' day. Civil government estimates.
In the Senate.
The Senate will sit at 8 o'clock in the evening.

YESTERDAY IN PARLIAMENT.

In the Commons.
On a motion to go into supply, Col. J. Arthur (Conservative, Parry Sound) moved in amendment that the refusal of the government to grant cash bonuses to returned soldiers constituted "a repudiation of a solemn obligation and a disregard to protect honor." The amendment provoked a bitter debate, which occupied the whole afternoon. Finally a division was taken at half past six o'clock in the evening, which resulted in the defeat of the amendment by a majority of 139, the vote standing: For 42, against 162. The Progressives voted solidly with the government.
In the evening the house in committee of supply took up the main item, the civil government vote for the department of justice, amounting to \$235,517, carried immediately. The sum of \$1,577,770 was voted for salaries and contingencies of the interior department. Salaries and contingencies for the department of labor amounting to \$230,040 were under discussion when the house rose.
First reading given to a bill introduced by James S. Woodsworth (Labor, Winnipeg Center), the purpose of which is to repeal the military service act.
In the Senate.
The Senate did not sit.

CO-OPERATING TO HELP SOLDIERS

The soldiers at Byron Sanatorium were favored yesterday afternoon by a visit from C. G. McNeil, Dominion secretary-treasurer of the G. W. V. A., and J. Armstrong, a representative from the provincial committee. Mr. McNeil told the veterans that the G. W. V. A. is co-operating with the Tubercular Veterans' Association to aid the soldiers in the sanatoriums in every way possible. Mr. McNeil and Mr. Armstrong left for Toronto Tuesday evening at 7 o'clock.

Mr. McNeil said that the department heads must have full say in regard to the running of their department. The engineer said that he hired his own men. Ald. May contended that when the staff was being cut, the committee should have been consulted.

Ald. Drake did not know what the aldermen would know about the ability or efficiency of the men. Mayor Wilson said that the department heads were in control. If the aldermen were not satisfied with their action then it would be better to change the department heads. However, it was not good policy for the aldermen to interfere with the individual men. It would break up the efficiency.

Ald. May declared himself not satisfied with the explanation of the engineer. Stevens, he said, was a long service man, which brought the reply from the engineer that long service does not always count. The matter dropped.

CHANGE DATE OF BOYS' SUNDAY
At the meeting of the executive committee of the Ministerial Alliance in the Y. M. C. A. Tuesday afternoon it was decided that the question of a program for the Sunday of the Boys' Week, which is to be held in the city from May 1 to May 7, should be handed over to the various denominational associations for settlement.

It was felt by members of the executive committee that to arrange for a mass meeting in one particular church would not be possible in the short space of time which remains, and that it would be more satisfactory if each denomination took charge of its own boys and either arranged that each boy should attend his own church or that there should be mass meetings of each denomination with a special program. The date of the boy and the church Sunday has been changed from April 30 to May 7 in order that it may include Mothers' Day.

GIVE RECITAL AT MUSICAL ART
Piano pupils of Mrs. A. D. Jordan, assisted by students of Mrs. Charles Ivey, Miss Janette Wilson and Miss Mary Manley, gave a most successful recital in the Institute of Musical Art, Tuesday evening. Mrs. Jordan's pupils who took part were William Baldwin, Eleanor Kennedy, Florence Brennan, Lucy Harding, Kathleen Yeates, Lois Purdon, Eleanor Scanlan, Doris Yeates, Gladys Morrison, May Attrill and Constance Masuret. The work of Miss Masuret, Miss Scanlan, Miss May Attrill and Miss Kathleen Yeates was particularly fine.

A splendid knowledge of violin technique, as well as an excellent gift of expression, was shown by Jack Spence, a pupil of Mrs. Charles Ivey, while a most enjoyable feature of the recital was the French conversation and exhibition of rhythmic dancing given by pupils of Miss Mary Manley, ranging from 6 to 10 years of age.

World's Champion Wheat
For the benefit of Western Ontario's progressive business men on the farm, The Huron & Erie Mortgage Corporation has procured the following samples:

World's Champion Oats
also exhibited at Chicago.

TAXES BRAZIER WITH INJUSTICE

Ald. May Questions Dismissal of Senior Man and Charges Favoritism.

MATTER DROPPED

Board of Works Refuses To Interfere With Department Heads.

Are the department heads at the city hall to be supreme in their department? This question proved a troublesome one for the board of works Tuesday night, when it tackled Ald. J. T. May's demand for an explanation from the engineer in regard to one of the four employees dismissed. He charged that an injustice had been done. That an old employee had been let out, and a much later employee kept on at a higher salary. He hinted that favoritism was at the bottom of the alleged act of the engineer. He asked the engineer the nationality of the man kept on. Was he a Canadian?

Engineer Brazier stated, when the matter came up, that as there was not going to be much work undertaken, he decided to reduce his staff and let out men who would not be needed.

Ald. May mentioned the name of Mr. Stevens, one of the men let out. The engineer replied that he worked for the city part time in 1912-13-14 and continually since 1919. The work on which he was engaged would be slack, and he reduced the department from three to two men.

Mr. Veach, he said, in answer to another question, was four months in the city's employ, and drew \$2,400 as against about \$1,900 drawn by Stevens. Veach, he said, was a Canadian citizen, a Scotsman by birth.

Ald. Ashton said that the department heads must have full say in regard to the running of their department.

The engineer said that he hired his own men.

Ald. May contended that when the staff was being cut, the committee should have been consulted.

Ald. Drake did not know what the aldermen would know about the ability or efficiency of the men.

Mayor Wilson said that the department heads were in control. If the aldermen were not satisfied with their action then it would be better to change the department heads. However, it was not good policy for the aldermen to interfere with the individual men. It would break up the efficiency.

Ald. May declared himself not satisfied with the explanation of the engineer. Stevens, he said, was a long service man, which brought the reply from the engineer that long service does not always count. The matter dropped.

CHANGE DATE OF BOYS' SUNDAY

At the meeting of the executive committee of the Ministerial Alliance in the Y. M. C. A. Tuesday afternoon it was decided that the question of a program for the Sunday of the Boys' Week, which is to be held in the city from May 1 to May 7, should be handed over to the various denominational associations for settlement. It was felt by members of the executive committee that to arrange for a mass meeting in one particular church would not be possible in the short space of time which remains, and that it would be more satisfactory if each denomination took charge of its own boys and either arranged that each boy should attend his own church or that there should be mass meetings of each denomination with a special program. BOMB OUTRAGE KILLS ITALIAN

Two Badly Injured in Rear Room of Port Arthur Store.

ONE IN CORNER ESCAPES

Explosion Rocked Downtown Section of City for Three Blocks.

Port Arthur, March 29.—An Italian, whose name the police are as yet unable to obtain, was killed, and two other Italians badly injured, in an explosion which wrecked a room at the rear of Charles Donatti's fruit store here during the night. The dead man was horribly mangled. Police and firemen who were on the scene early, commenced an investigation, and the theory that a dynamite or bomb outrage was perpetrated has been reached. An examination of the room, 20 feet long by 20 feet wide, disclosed that some explosive was placed near a window from the outside. The dead Italian and his two companions were sitting at a table smoking and talking. They were in the path of the concussion. A fourth Italian, asleep in a far corner of the room, was unharmed.

The force of the explosion was spent in a section of about eight feet square, and rocked the downtown section of the city and windows in buildings within a radius of three blocks were blown out. Donatti was told by a mind reader recently that he could expect to meet death in a bomb outrage at any time. Some time previously he was attacked in the stairway of his place but escaped.

FILM ACTOR SUED FOR \$200,000
Los Angeles, Cal., March 29.—Herbert Rawlinson, motion picture actor, was made defendant in a suit for damages for \$200,000, filed in the superior court yesterday by Mrs. Ethel E. Clark of New York, who charged Rawlinson had committed a statutory offence against her daughter, Dorothy Clark, two years ago.

The alleged offence, according to the papers in the suit, was committed in New York in 1920, when the girl was 15 years old.

At that time, it was said, the girl had had a brief experience in motion picture work. More recently, Attorney Stickney stated, she had been on the legitimate stage in New York.

CONDITIONS IN WEST IMPROVING
Continued From Page One.

I understand the limit is forty ounces in Ontario.

"Is that privilege abused?" he was asked.

Not Much Use.

"I do not think much of it is abused," was the reply. "It is not much use getting an eight-ounce bottle except for medicinal purposes. There has been a great deal of complaint regarding illicit stills, and conditions are not very satisfactory."

"Have you a better solution?" queried the interviewer.

"The law as it stands was thought to be the best solution," continued the premier with a smile, "but I don't know if the people still think so."

Concluding the interview, Premier Martin stated that he had no opportunity to "look around London," owing to his sad misfortune, and the fact that he had to return to his home Tuesday evening.

"I came to London very unexpectedly, as you know," he concluded. "I was down here three weeks ago following a visit to Ottawa. Dr. Beattie Martin of Regina, my brother, was coming home with me, and had purchased his ticket, when he took sick. He could not come home, and I have not heard of his condition lately."

MAYOR HOLDS SECRET PARLEY

As assessors. As departmental heads' salaries go, the remuneration of police and fire chiefs is low, but, on the other hand, those of their municipal assistants are well up, as compared with other city hall salaries. There also are market officials, police court officials, city hall janitors and numerous others who might or might not be involved in a salary cut.

The total salary list of the city hall is \$88,000, and a 10 per cent cut would save the ratepayers \$8,800, or about one-seventh of one mill.

Watch Trifles
It is the countless array of trifles, the hundreds of little things, so the wise housewife knows, that mean so much in the smooth-running household.

She knows, too, that she must watch constantly all these details if she would keep her household in perfect order. Especially at this time of the year there is a multitude of things to care for, cleaning, painting, repairing and getting ready for summer.

So this is the proper time for you, Mr. Workman, to bring your name to the attention of the housewives, telling them where they can reach you. Modern housewives read the Want Ads daily, so you will find that a little classified advertising will bring you splendid returns.

Now is the time, get your share of the spring business. TELEPHONE 2670.

SMALLMAN & INGRAM LIMITED

PRINCIPAL BEAL EXPLAINS MYTH
Continued From Page One.

total remuneration was very, very far from the mythical salary of \$9,000 per annum and is, in fact, smaller than that paid to the principals of other Technical schools in the province.

"The board, by this arrangement, received \$7,000 per annum rent and when the vocational re-education work was completed, secured equipment which cost the D. S. C. R. between \$25,000 and \$30,000 for about \$9,000 of which, in turn, the Ontario Government paid half."

The manner in which the work was done may be judged from the following letter sent by the provincial director when the work was closed:

An Appreciation.
"Before closing this branch, I wish to take the opportunity of expressing the appreciation of the commission and that of myself of the very valuable services you and your school have rendered in the work of training disabled men. How we should have managed, especially in the early days, if the facilities of your school had not been placed at our disposal is hard to conceive. Your own personal services have been no less valuable.

"A splendid sense of good fellowship and the spirit of co-operation have prevailed at all times, and I personally wish to thank you for the part you have taken and the splendid co-operation you have given me during my tenure of office.

"It is abundantly clear that the whole matter was conducted in a most business-like manner by the
