SOUTHERN RAILS UP AT NEW YORK

Increase in Freight Car Loadings Sees Carriers Go Upward.

Associated Press Despatch

New York, July 14.—Frices pointed apward throughout the morning. Marking up of the call money renewal rate to 4½ per cent failed to bring about my further liquidation, professional raders apparently regarding it as a willish factor on the theory that it effected the expanding commercial definand for funds. Resumption of pool activity on a broad scale was based 1 part on the belief that the summer all in business would be of short duralicon.

with freight car loadings during the week of the fourth the largest of any lorresponding period on record, new louving was drawn into the railroad hares, with the southern and southern carriers making the best showing. About a dozen issues attained new peak prices before noon, the list acluding Sears-Roebuck, Weston Electrical Instrument, Timken Roller Bearing and Wheeling and Lake Eric common and preferred. Oils continued anotes prices in mid-western territory. Favage Arms was one of the few weak toots, sinking to a new 1925 low, around to.

RAW SUGAR

Reported for The Advertiser by Bongard & Co. Associated Press Despatch.

Associated Press Despatch.

New York, July 13.—Raw sugar remained heavy today, with a downward trend, but not much business. Sales confirmed included 19,500 bags of Philippines, due August 10, at 4,21c.

Liquidation by Wall Street interests and further selling pressure from commission-houses and trade brokers caused another drop in raw sugar futures, at one time 1 to 4 points lower. The market improved slightly in the afternoon, but was barely steady at the close and unchanged to 2 points net lower, owing to the easy spot market. July closed at 2.38. September 2.53, December 2.66, March 2.74.

Business in refined sugar was mostly to supply day-to-day requirements, as consumers have little confidence in the immediate market outlook, and are unwilling to buv ahead. Fine granulated was continued at 5.35c by all refiners.

CHICAGO

Associated Press Despatch.
Chicago. July 14.—Although wheat prices had a downward slant at the opening today, the early acclines were soon much more than over-ome. Announcement that black stem rust was prevalent in Southern Manitoba, and was also attacking wheat in Saskatchewan, and did a good deal to give the market a fresh upturn. On the other hand, cooler weather in the northwest states, lagging bidding and lower quotations at Liverpool tended to eneck advances. The opening, which ranged from \$\frac{1}{2}\$ decline to \$\frac{1}{2}\$ c advance, was followed by numerous minor changes and then by an irregular rise all around, with December touching \$1.56\frac{1}{2}\$.

Corn and oats were easy, influenced by more favorable weather. After opening at \$\frac{1}{2}\$ c to \$\frac{1}{2}\$ c off. Reactions that ensued failed to hold.
